#### CONNELL CONDEMNS LAKE ICE

Health Officer Declares Natural Crop Fit Only for Refrigeration.

TEST SHOWS GREAT IMPURITY

Declared Source of Danger if Allowed to Come in Contact with Pood-Increased Demand for the Artificial Product.

Health Commissioner Connell says that every pound of natural ice cut and stored in Omaha this year is unfit for any purpose other than use in ice chests.

'None of the natural ice should be used in direct contact with water, milk, lemonade, ten or anything else," said Dr. Con-nell. "This department had tests made when the ice was being cut, and again within the last few days. It is all tainted dangerously and we want the people to

"I do not feel that we should condemn ati this season's crop of ice; but we will take every measure of precaution possible to warn the people not to use the natural ice except in the cooling chests, or in other manner that does not bring it into direct contact with foods or fluids."

The Omaha Ice and Cold Storage company and the People's Ice company are the two concerns in Omaha that manufacture artificial ice for mie. The Omaha company has a production of sixty tons a day when running full blast, and the People's turn out eighty tons a day. There is also a company in Council Bluffs that makes artificial ice, and Dr. Connell thought this company shipped some of its product to Omaha, but the local ice men say that the concern over the river is not able to supply the local demand there.

Artificial ice cells for the same price as natural ice. The armouncement of the health commissioner will result in an ingreased demand for the artificial product. It may result also in the bringing to Omaha of artificial ice from other places, or natural ice that can pass inspection

#### HEARNE CHANGED HIS VIEWS "I Hate and Detest the Japanese,"

He Wrote to an American Friend.

For much of the prevalent Japanomanial in this country Lafcadio Hearne was responsible, after Whistler, of course. To those who have been infected by that mania the last paragraph of a letter from Hearne to Prof. Chamberlain in the ourrent Atlantic will come as a shock. The recentation is sweeping and it is good enough to quote entire:

"The finale of my long correspondence with you on Japanese character is frankly this (I know it is unjust; I know it is small. But I suppose it is natural-and l am not superior to nature-besides I see no reason why I should not be in all things

"I hate and detest the Japanese. "I refused even to attend a banquet given by a European merchant the other day because there were Japanese present. I wish to make no more Japanese acquaintances. I shall never again be interested in any Japanese of the educated generation. I shall never even receive any of my former pupils. I simply abominate the

"There's a nice confession for the author of 'Glimpses of Unfamiliar Japan' to make, But remember-the book was finished a long time ago; and the illusion had not worn off. I should not like now to trust myself to say what I think of the Japanese stonaries are right who declare them without honor, without gratitude and without brains.

"Excepting, of course, the women of Japan who are-well, who are not Japanese. They remain angels. Sufficient for this day is the evil thereof."

"Damn the Japanese!

The obvious comment upon this will be that it is unfanged by the sentences in parenthesis, that therefore it carries no weight. But that won't do. The force of the abjuration Hea in just that thing, that Hearne, who had set himself with all his power of will and heart to like the Japanese, couldn't do it, that after years of life with them, and begetting children by a Japanese woman, the absorption of the Japanese ideas of existence, racial antipathy, like murder, would out. It doesn't imply snything discreditable in the Japanese, or in Hearne, either. They probably tried as much to like Hearne as he tried to like them, and falled as completely. Who shall explain this feeling, which persists though reason condemns i never so strongly?-St. Louis Mirror.

#### WAR COLOR IN MOST FLAGS Martial Red Conspicuous in Europe and Slighted in New

It is entirely appropriate, of course, that red-the war color-should appear so frequently in the flags of the various mations. Of the flags of the countries of the eastern hemisphere there is only one -that of Greece-which does not show the

World.

martial color. In the western hemisphere, however, we find several standards not showing red. The flags of the the Argentine Republic, Brazil, Nicaragua, Guatemala, Uraguay and Honduras, contain no red.

In this country there is no red in the Union Jack nor in the flags of the secretary of the navy, the admiral of the navy, the rear admiral senior in rank and the wear admiral junior in rank.

Red appears in the pennant of the rearadmiral second in rank and the pennant of the revenue marine. The United States mail flag also shows red, and that color to also found in the pennants for the vessels of the lighthouse service, the yacht ensign, the ensign of the revenue marine, the president's and the secretary of war's

The flags that are almost entirely red, except for the devices shown thereon, are those of Austria, Hungary, Egypt, Morocco and Japan. The flag of Turkey is practically of a solid red. After red, the prevalling color in flags is blue. -Harper's.

## The Boy Needs New Shoes for EASTER

The Easter season means as much to the boy as it does to the grown up. This particular holiday comes but once a year, and it is impressed upon your minds deeply. They look for new things to wear, and what is more impertant than footwear? Fine footwear means refinement, good taste and good breeding. Now, we would remind you that you should come in the morning-Saturday—as we are going to be worked to our full capacity. The earlier you come the better you'll be satisfied, and we will appre-ciate it also. For Saturday we recommend our Boys' Steel Shod Shoes, in the new spring styles. Styles just like father wears.
