ANNOUNCE PARTY PLATFORM City Will Have

Republicans of City Adopt Resolutions on Their Policy.

Democrats Consured for Their Efforts to Involve City in Debt to Defeat Proposed Betterments.

The republican city convention Saturday morning adopted a platform which was embraced in a lengthy set of resolutions. The committee which drafted the platform was composed of W. J. Leverett, F. J. Schnorr, Robert B, Wallace, Henry Peterson, T. F. McCaffery and Captain L. B. Cousins.

The convention listened to short addresses from Councilman John Olson, candidate for mayor; Clem F. Kimball, candidate for re-election as city solicitor, and Spencer Smith.

The resolutions follow:

The resolutions follow:

Be it Resolved by the republican party of Council Biuffs in convention assumbled:
That it adopts the following as its declaration of principles and statement of position upon leading questions—
That we are proud of the achievements of our party in national and state affairs and justly admire those who are bearing the colors of our party that are so intermingled in the flag of our country.

That while justly entitled to such pride, national and state issues are not involved in our municipal campaign, and all men of all parties are invited to join with us in developing and maintaining good government for the people and by the people. That we commend the effort that was made by the city officials, who gave ungrudgingly of their time and effort, in urging the last legislature to pass the railway tax bill making the railroads bear their fair share of the burden of taxation in the cities and towns, and we pledge our candidates to continue the fight until the railway terminal property shall be fairly taxed where it is located.

That we congratulate our republican councilmen who, though in a minority, so gallantly defended and maintained the principles embodied in the republican platform of two years ago.

Officers Are Commended.

Officers Are Commended. That we especially commend our repub-ican officers in their consistent policy in lican officers in their consistent policy in dealing with municipal ownership of the water works and the successful management of the litigation involved, and we reiterate the platform of two years ago and demand a continuation of such policy, and that the city provide the people with a suitable water works system, with extensions and improvements on the best possible terms, as soon as the pending litigation can be disposed of and that such litigation be terminated as speedily as is possible with Senefit to the city. That we are opposed to the efforts of some of the democratic officers to involve the city in debt for the purpose of defeating the ownership of water works, and we censure such officers for aiding by their testimony and otherwise the attempt to defeat by the Nash injunction case the will of the people expressed at the bond election.

That we denounce the carelessness of the administration in allowing trees and refuse to accumulate, clogging and filling indian creek, causing the same to overflow by sudden storms. The democratic party said in its platform two years age; "Resolved, That we pledge the democratic candidates at this election to an immediate redredging of Indian creek south of Six teenth avenue, the expense to be borne out of the balance of the Maloney Indian creek fund." We charge that the fund has lain idle or been diverted to cleaning streets instead of dredging the creek. We deprecate this failure to perform democratic promises, thus causing our citizens great loss in the flooded districts. Time deprecate this failure to perform democratic promises, thus causing our citizens great loss in the flooded districts. Time has been consumed in getting up petitions to perform all kinds of gymnastics with old Indian creek at the expense of the tax-payers, delaying the proceedings and doing nothing until just at election time.

We demand the immediate permanent improvement of Indian creek in the manner engineering science decides is best, and that, if possible, those benefited without the city be made to bear their fair share That we denounce the carelessness of

ner engineering science decides is best, and that, if possible, those benefited without the city be made to bear their fair share of the burden of taxation. Railway Franchise.

We insist that no grant to the street railway company should be made under the old fifty-year ordinance of 197, and that suitable extensions of our street railway system should be made to meet the growing demands of the city, under a franchise satisfactory to the people and which shall provide for reasonable fares between Omaha and Council Bluffs.

We regret the necessity of an investigabetween Omaha and Council Bluffs.

We regret the necessity of an investigation of the chief of police and denounce as a political trick any assertion that the charges filed against him by the attorney general were instigated by the republican candidates, and believe the matter is so serious and important to every citizen that it should not be dragged into the arena of party relifies.

it should not be dragged into the arena of party politics.

We comend the rising spirit of our citizens all over the country demanding honest government and driving out graft and corruption, and we demand that all fines and forfeitures in the police or superior court be paid to the clerk and put upon the court recerds and accounted for to the city as formerly and that the present system, which has been critised by the grand jury, be abolished.

We must severely condemn the condition

Tury, be abolished.

We most severely condemn the condition in which the streets of the city have been kept in the last two years and just until election and deplore the excessive expenditures for such purposes without ade-

quate return.

We stand for a sensible, honest and businesslike administration of city affairs and pledge our candidates to provide clean streets and not waste the taxpayers' money in rewarding faithful incompetent politicians.

MABRAY WILL NOT APPEAL Eight of Twelve Convicted Mikers, However, Will Try for

Council Bluffs

Purifying Plant, Court Permits

CITY WATER PLANT IS URGED Judge McPherson Signs Order Empowering Receiver Hart of Water Works to Act .

> E. W. Hart, receiver of the Council Bluffs City Water Works company, was authorized by Judge Smith McPherson of the United States court, who held a short special session in this city Saturday aftercon, to install a purifying plant in connection with the water service

> Lewis I. Birdsall, a well known chemist and bacteriologist of Chicago, has for the last few weeks been conducting an examination and analysis of the water supplied by the Council Bluffs City Water Works company. This examination, which has been made at the expense of the company, was deemed advisable owing to general suspicion that the prevalence of typhoid in this city and in Omaha was due to the fact that the water supply was drawn from the Missouri river. Mr. Birdsall's investigahown, it is said, that there is a possibility of infection from the river water, and that it is possible that some of the typhoid was due to the use of the river water. Acting under the orders of the court he will continue his experiments.

> The purifying plant which Receiver Hart contemplates installing as soon as the necemary arrangements can be made, is said to absolutely kill and destroy all typhoid contained in the water. This purifying process is perfectly harmless and has absolutely no deleterious effect on the person drinking the water so treated.

Bettering Rural Church Service

Conference Will Be Held in Council Bluffs April 12 to Discuss Betterments.

A conference on better service for the the movement for the improvement of country life generally will be held in Council Bluffs on April 12 in the First Presbyterian church, the pastor of which, Rev. Marcus P. McClure, D. D., is one of the leading ministers pushing the movement. The meeting scheduled for Council Bluffs be held in the middle west during the next dom of the commission plan. four weeks. These meetings are to consist of an all-day discussion of the country comfor the visitors, as it is expected there will L. Hamery, present councilman.

and conduct an "open parliament" upon "The Needed Reconstruction of Country Churches.'

MEN AT FEAST RAILROAD Sixteen Officials of Northwestern Will Attend Line

Banquet. Sixteen officials of the Chicago & Northwestern Railway company, besides its local representatives, will be the guests of the Council Bluffs Commercial club at its ar rual banquet next Thursday. This number includes E. M. Hyger of Chicago, general counsel for the railroad, who will be one of the speakers of the evening. The personnel of the party will be as follows:

sonnel of the party will be as follows:

E. M. Hyzer, Chicago, general counsel;

E. D. Brigham, Chicago, assistant general traffic manager; R. C. Richards, general traffic manager; R. C. Richards, general claim agent; J. L. DES MOINES CAMPAIGN ENDS

Second Election Under Commission

Form of Government Comes Today. TWO FULL TICKETS IN FIELD

Republican Slate.

Major A. J. Mathis, a Democrat of Old School, Again a Candidate-Prof. J. R. Hanna Heads

(From a Staff Correspondent.) DES MOINES, March 27 .- (Special.)-Today an exciting city political campaign came to a close and on Monday the voting will be done for the second time under the commission plan of government. Most of the citizens feel that this vote will more nearly be a test of the attitude of the people toward commission government than the vote of two years ago. Then It now there is a feeling that real issues are involved and that a determined effort is being made to discredit the whole plan of

There are two candidates for mayor and ight for councilmen from which to choose half as many. The contest naturally centers around the head of the ticket. Mayor A. J. Mathis is a candidate for re-election He is an old man, formerly justice of the peace for many years and later police judge. He is a democrat of the old school and somewhat inclined to going slow and reverting to old methods in city administration. His opponent is Prof. James R Hanna, long connected with a local coland other dangerous bacilli which may be lege. Lot active in civic affairs and one of the nien who helped plan out the commission form of government. He is an active and progressive young man, and around his standard have gathered the younger business men and those who are

There is a clear division into two parts of the ticket in general. Along with Hanna is ranged Councilmen MacVicar and Schramm, present members, who have worked together and have been progressive in all things. MacVicar is easily the most competent administrator of the whole bunch, an aggressive and forceful man, somewhat inclined to get into quarrels with his associates by his very aggressive ness, but recognized as honest and devoted church in rural districts in connection with to the work. Schramm as city assessor made a great record for making the corporations pay larger taxes. Aligned with Mathis are ex-Alderman Brereton, Justice of the Peace Zell Roe and Councilman Wesley Ash. This slate is recognized as distinctly reactionary, and if elected it would mean that a majority of Des Moines is one of ten such conferences planned to people are at least in doubt about the wis-

Others who are on the ticket, but who are somewhat independent, are E. D. Brigham, former state labor commissioner; W con will be served at noon at the church A. Needham, a labor candidate, and John

The attitude of Hamery is peculiar. He represents to some degree the church element of the city. He went in two years ago as one who would strictly enforce the laws. Everyone recognizes he intends to do the right, but many believe he has not been wise in his methods, and as a result he has provoked much quarreling. Hamery did not run well in the primary, but of late there has been a turning to

The hardest fight is to come over the possible election of William H. Brereton, foremerly an alderman, a building contractor, one who believed fully in the wideopen town and contracts for friends. He is being especially urged by the interests

oncerned in water works and street cars. The whole situation is much muddled and it is believed there will be a very large vote.

Ratiroad Commission Work. The weekly report of work done by the State Railroad commission, issued Satur-

The grain rate case was called for hearing on March 22. E. G. Wylle, appearing for the Greater Des Moines committee, and ing on March 22. E. G. Wylie, appearing for the Greater Des Moines committee, and J. C. Davis, for the railroad companies, stipulated their agreement that the case should be postponed to an undetermined diste, to which the board consented.

On March 23 the case of the Boone Brick and Tile company against the Chicago & Northwestern railroad was called. Much testimony was taken and elaborate argument made by counsel. This case involves the definition of switching service, and the distinction between a haul and a switch and the relative cost thereof to the shipper. It is an important case and the decision in it will soon be announced by the board.

On the same date the case of G. W. and Paul Schrours of Muscatine against the Cricago. Rock Island & Pacific railroad was called up for rehearing and upon stipulation of J. W. Eela, representing the complainant, and Carroll Wright, representing the respondent, the case was called up. J. E. Trotter appearing for the lova Commercial Coal Dealers association and J. C. Davis for the railroad companies. It was stipulated that effort was being made to reach an amicable adjustment between the coal operators and the railroad companies and that unless such adjustment was made parties would be ready for hearing on April 7. Extension of time was granted as requested.

The terrible accident to the Rock Island

Other Hearings Arranged.

The terrible accident to the Rock Island train running from Cedar Rapids to Waterloo by way of the Chicago & Northwestern railroad and the Chicago Great Western train on March 2i, will be investigated by the board on Tuesday, March 2i, at Marstaltown. Members of the commission inspected the premises immediately after the accident and this hearing is for the purpose of ascertaining, if possible, the cause of probably the worst railroad wreck in the history of Iowa.

On Wednesday, March 30, in the office of the attorney general will be argued the law points involved in the case of Tishonbanner against the Minneapolis & St. Louis railroad. The question in this case is, can a railroad be compelled to charge its short in fact run by the longer line, referring particularly to passenger fare.

Fifteen new cases were filed with the board during last week, many of them being of considerable importance. They involve switching service, train service, station service, overcharge, revision of freight raises and switching. There is but one complaint concerning car service.

Twelve cases were closed by the board during the week, most of them relating to the recent ar shortage. Other cases decised involved station service, switching and train service.

Te Test Iswa Liquer Laws.

To Test Iows Liquor Laws. Attorneys have arranged to go to Ot umwa next week to present to Judge McPherson in the federal court the matter of the claim made by the liquor interests that all legislation in Iowa in regard to regulation of liquor sales is contrary to the federal constitution. This question is being raised by Hon. B. I. Salinger of Carroll and will be resisted by Senator George Cosson, special counsel for the

Allison Monument Lags. The movement in Washington to make an appropriation by congress for the benefit of the heirs of the late Senator Allison has again called attention to the movement to erect a monument to Allison in Moines. The legislature appropriated a sum of money to be used only in case a like amount or larger was raised by popular subscription. This has seemingly totally falled and unless a few of the wealthy friends of the late senator come to the front the monument will never be built.

Strike of Harness Makers. Members of the local Harness Makers' union are in a dilemma. After a week's

Iowa

idieness, following the order for a gen eral strike issued by the national union ast Monday noon, there are no indicaons of a settlement and in fact, no conference relative to an agreement has been held between the national union and tho National Manufacturers' association.

The members of the local union are in a helpless position. While they are waiting for the national union to take action on the matter, the local manufacturers are daily filling the positions of the strikers and within a few days will be operating with full shops. The strikers cannot return to work until ordered to do so by the na tional union.

Makes the Seed Corn Testers. The Holden seed corn special on the Burlington is leaving a trial of home-made germination boxes behind it. It is no uncommon sight, as the train bowls along, to see farmers returning from town with three or four six-inch boards in the wagon, boards such as are used in the home-made tester which Prof. Crossley and Prof. Bowman show the farmers how to make and use. The thing that strikes the average auditor at the corn lectures is the practicalness of the information given. The Ames experts actually make and use a corn tester at every town. Six kernels are taken from every ear of corn (two from near the butt, two from the middle and two from near the tip), and these are put in the various squares on the ruled piece of sheeting, the box is then filled with damp sawdust and every detail of the work is not only explained, but illus-

staunch in support of the commission plan. Defeat of Missouri Valley Puts Team in Line for Final Debate.

> FORT DODGE, Ia., March 27 .- (Special.) A unanimous decision rewarded the Fort Dodge High school league debaters Saturwhen they defended the negative of the question, "Resolved, that American Cities Should adopt a Commission Plan of Government," Missouri Valley upholding the affirmative. The contest was for the western Iowa championship and the Fort Dodge team will now meet the winner of the eastern Iowa championship, in the final contest to be held at Iowa City the latter part of April.

Ever since Fort Dodge entered the state league, for four years, Fort Dodge has won every contest entered and for two years the state championship has been given Fort Dodge. The first year Iowa City refused to debate in the final and the state championship was not decided. This year, one more contest remains between Fort Dodge and the state honors. Ray Files, an Iowa City boy, and graduate of the university, has been the coach of the Fort Dodge debaters during their entire debating career.

The team for Fort Dodge is composed of three boys, all seniors, the first two of whom debated on last year's champion team. They are Richard Colby, George Bradshaw and George Wright. Missouri Valley was ably represented by the same outlay, three seniors, all boys, two of whom were on last year's team. They were Stough McGovern, Gus Heiman and Tom Tormey. The judges were Superintendent C. N. Smith, Indianola; Superintendent H. Mitchell, Carroll, and Attorney William

Missouri Valley was especially good on delivery, had fair argument and was a strong team, but Fort Dodge as champion breeder, just as in all previous contests. goes far ahead of its opponents in all respects and invariably surprises the comment that they "debate like college

students, more than like high school boys." Editors Hold Session.

BOONE, Ia., March 27 .- (Special Telegram.)-A meeting of the Upper Des Moines Editorial association closed brilliantly with a smoker Friday evening at the home of S. L. Moore. New officers President, Paul E. Stillman, Jefferson Bee; vice president, A. F. Patton, Gowrie News: secretary-treasurer, Al Adams, Humboldt Independent. The next place of meeting will be in Iowa City, probably in June.
