HANNA WINS OUT FOR MAYOR

Mathis of Des Moines Defeated by Majority of Fifteen Votes.

CLOSED POLICY TO CONTINUE

Lawyers of Polk County Again Suggest Name of Judge Deemer for Federal Supreme Bench.

(From a Staff Correspondent.) DESMOINES, March 29.—(Special Telegram.)—The official count of the vote in Des Moines for mayor was concluded late this afternoon and it was found that Prof. James R. Hanna has a majority of fifteen over Mathis. This will mean a continuation of the closed policy.

Deemer's Name Up Again. Prominent lawyers of the state today started a movement to have presented again to the president the name of Chief Justice Deemer for appointment on the supreme court vacancy. There is no doubt that his name will be urged on behalf of Iowa.

Increase Capital for Light Company. The Citizens Light and Railway company of Muscatine gave notice of increase of capital stock from \$50,000 to \$1,500,000. The company will hold extensions of the street car line. The Iowa Coal company filed articles of incorporation, with \$30,000 capital, at Burlington.

The secretary of state today registered nearly 100 automobiles, the largest number ever registered in one day. Try Out License Cases. George Cosson, of the office of the attorney general, and B. I. Salinger, on behalf of the liquor interests of the state, went to Ottumwa today to appear before Judge McPherson in federal court and argue a matter of application for injunction against the state courts for enforcement of the Iowa laws regulating sales of liquors. It is contended that the laws violate federal guarantees and are wholly illegal. It is expected the matter will be carried to the highest court.

Want Better Train Service. Residents of Alexander have asked the railroad commission for a date for a hearing on a demand for better train service on the Hampton-Algona branch of the Iowa Central. They claim trains are regularly from four to eight hours late. Business men living along the lines and interested in stone and brick have asked for a track connection between the North-western and the Illinois Central at Parkersburg.

Potato Planting Begun. The board of control reports that potato planting has commenced at the state farm at Clarinda, and also at several other farms in connection with state institutions. The season is exceptionally early, but the state farmers believe it will be all right to start now.

Miners in Convention. The thirteenth annual state convention of the United Mine Workers of America was called to order by Vice President William Baxter at 10 o'clock this morning, and after an executive session lasting less than half an hour, adjourned until President John P. White reaches the city from Cincinnati tomorrow afternoon. There are 100 delegates in attendance, representing 17,000 miners of Iowa, and the convention will probably be in session each day for the remainder of the week.

Cause of Wreck Still Mystery

Iowa Railroad Commissioners Unable to Locate Trouble from Testimony of Employees.

MARSHALLTOWN, Ia., March 29.—(Special Telegram.)—After spending a day, during which time they examined nineteen officials of the Great Western railroad, the Iowa Railroad commissioners learned little of the exact cause of the Rock Island wreck, March 28. According to witnesses the track and roadbed was in normal condition, which was good. The operation of the train in the manner that this one was with engines backing, was not considered especially dangerous. The speed of the train was twenty to twenty-five miles an hour. None of the railroad men examined so far who was at the scene of the wreck have been able to give the reason for derailment. The hearing has been continued to Wednesday.

Baked Beans Also Rise in Price

Big Advance Has Slight Effect on Rate of Consumption at Hub of the Univers.

BOSTON, Mass., March 29.—The price of Boston's favorite and noted edible—baked beans—has increased more than 3 1/2 per cent during the last two years and caused a decrease in the consumption of 9 per cent. Two years ago beans retailed at 10 and 8 cents per quart, while they now cost 13 and 11 cents.

Consolidation of Schools.

LAKE CITY, Ia., March 29.—(Special.)—At the school election at Newell, north of Lake City, the proposition to consolidate the schools of four districts into one to be located at Newell, was carried by the overwhelming vote of 113 to 12. The four districts, which will be consolidated are the Newell independent district, Willow Grove independent and Pleasant Lake. The problem of transportation to and from school was solved by providing for hiring a man to convey the students back and forth.

Spring Humors

Come to meet people and cause many troubles—plumbers, boils and other eruptions, besides loss of appetite, that tired feeling, biliousness, indigestion and headache.

Hood's Sarsaparilla

The Best Medicine for excoelence as shown by unequalled radical and permanent cures.

Woman Lawyer Assails Methods Of Ship Owners

Declares that "False Promises Are Made Foreigners to Attract Them to America."

WASHINGTON, March 29.—A woman relaids today before the house committee on immigration a graphic story of how thousands of poor immigrants were brought to this country from continental Europe by the steamship companies which, it is alleged, induced them, by means of false promises, to leave their European homes and come to America in quest of almost fabulous wealth, only to be thrown upon the charity of the state, as paupers, poverty-stricken, homeless and frequently forced into absolute penance.

LABOR LAWS OF TWO YEARS

(Continued from First Page.)

sponding award of damages, has been incorporated in the laws of Texas, Iowa, and Ohio. In a modified form in the Georgia statute.

Within the purpose of this class of laws, but proceeding on a different principle, is a statute of Montana that provides for a state co-operative insurance fund to be maintained by coal mine operators and their employees. Payments in case of death and of permanent disability are to be made from this fund by award, no action at law being necessary. In fact the commencement of a suit at law is made to forfeit the right to benefits under the act, though the law of liability is in no way affected by the new provision.

Massachusetts enacted a new law requiring the water used for humidifying the air in workrooms to be so pure as not to give rise to impure or foul odors and to be used in such manner as not to endanger the health of employees. Laws that are doubtless the result of the active effort to secure pure food are those that apply to bakeries, candy factories and establishments generally where food products are manufactured, stored or handled. Cleanliness on the part of employees, as well as of the rooms, utensils and all surroundings; prescribed sanitary arrangements, the non-employment of workmen affected with infectious contagious diseases, and regulations as to garments and sleeping rooms are among the provisions of this legislation, enacted in whole or in part in California, Indiana, Nebraska, New Jersey, Tennessee and Missouri in the last two years.

FWELERS CALL TO BANKERS

(Continued from First Page.)

office members of the board of the federal reserve bank. The federal reserve bank would have the power to buy and sell gold bullion and the power to buy and sell United States government securities, to loan money to the United States government and to act as banker, fiscal agent, representative and attorney-in-fact for the United States government; to buy and sell bills of exchange, domestic and foreign, and act as attorney for all members of the respective bank note issues.

Outlines Monetary Commission.

At the outset of his address Mr. Fowler referred to his resolution introduced in congress in 1907, providing for the appointment of a monetary commission and criticized the character of men subsequently appointed to serve on that commission.

Blacking and Conspiracy.

Four states (Connecticut, Mississippi North Carolina and Texas) passed laws in the period under review prohibiting blacklisting; while conspiracy, intimidation and interference with employment are subject to other laws. In the class last named is a law enacted by congress making it an offense to entice employees in arsenals or armories to leave service during the term of their employment, or to avoid or break their contracts. Hiring, retaining or employing or harboring in any wise such workmen during their term of service is also forbidden.

Brandeis Stores

Women's Stunning New Silk Dresses, Made To Sell Up To \$35.00, at \$19

As a special offer for Wednesday we place in one group about 100 beautiful new silk dresses in the very latest style features for 1910 and offer them at a very special price.

Buckley Offered To Sell Six Votes, Is the Evidence

President Kingsley of New York Life Makes this Statement on Witness Stand.

NEW YORK, March 29.—There was every indication that William H. Buckley, Albany agent for fire insurance companies, was in for another period of severe questioning with the resumption today of Superintendent Hotchkiss' investigation into fire insurance conditions.

Not a little interest was excited by a conference between Superintendent Hotchkiss and two officials of life insurance companies, which gave rise to speculation as to whether the inquiry was not to be extended to include the life insurance field.

Darwin P. Kingsley, president of the New York Life Insurance company, was put on the stand as the first witness today. He swore that in 1906 William H. Buckley, the Albany legislative agent, offered to sell him six votes at \$200 apiece, and that he told Buckley: "I won't give a cent."

Mr. Kingsley said Buckley told him he would deliver the votes at \$200 each and that he was to pay no money unless the votes were delivered. Buckley was then asked by Mr. Hotchkiss to tell his side of the story. He said he met Mr. Kingsley in the vestibule of the building in which he had his office and talked with him about the amendment. Mr. Kingsley, he said, sought the interview. He told Mr. Kingsley, he said, that the vote on the amendment would be recorded, but said he did not ask him to pay \$2,000 or any other sum.

Hunt for Murderer of the Lindahls

Hermit Held in Connection with Triple Crime at Scandia, Kan., is Stolidly Indifferent.

SCANDIA, Kan., March 29.—An inquest into the brutal murder of Alexander Lindahl, his son, Elmer, and his daughter, Eleanor, in a motor boat on the Republican river in progress here today. Charles Nordmark, the hermit, who was arrested yesterday and placed in jail at Belleville, near here, pending investigation, was brought to Scandia today to testify at the inquest. Nordmark was stolidly indifferent to the proceedings.

Charles Nordmark, under arrest for the murder of the Lindahl family, was before the coroner's jury today. At first he refused to answer any questions. Then he was taken into a room and placed before the coroner's jury and his two children. He was unmoved.

"Did you kill them?" asked the coroner, pointing to the victims. "I tell you now, the same as I did yesterday," said Nordmark, quietly, "that I did not do it."

"That was his only utterance," Nordmark was then taken to the farm where the murder was committed, accompanied by the coroner and the jury. It developed today that Nordmark was fixing a fence only fifty feet from where the murder was committed on Saturday. Two empty shotgun shells were found where he was working. It also developed that Lindahl left home with his two children shortly after noon on Saturday to set some fish traps in the river, which is near his house. The traps were still in the boat, indicating that the murder must have been committed early Saturday afternoon.

The officers attempted a ruse to learn Nordmark's guilt. A friend was left alone with him in a room at a hotel. This man told Nordmark that this was the time for him to escape. He said he had a horse outside and would help him get to Nebraska, if he would run out the back way. "I have done nothing to run away from and I won't go," said Nordmark, and the ruse failed.

German-Americans Organize.

DENISON, Ia., March 29.—(Special.)—The German-Americans of this county are organizing to take a hand in keeping the present liquor laws on the statute books or make the more liberal. With this in view there was a meeting in a hall over one of the leading saloons Saturday, and the German-American Liberal league formed, with J. F. Hartman, president; Chris Otto, Jr., secretary, and Herman Keenekamp, treasurer, all of Denison. The league will make an effort to see to it that what is called liberal men are sent to the legislature and put in office at home.

Offer to Sell Light Plant.

MARSHALLTOWN, Ia., March 29.—(Special.)—Jones and Hovey of Independence, Ia., owners of the Marshalltown Light, Power and Railway company, have offered to sell to the city its electric lighting, gas and power plant for \$225,000, exclusive of the street railway lines. The offer has been made through Mayor O. L. Ingoldus, but there is small change of its being accepted, as it is generally conceded that the price is from \$60,000 to \$100,000 higher than the plant is worth. Mayor Ingoldus is in favor of the purchase.

MOVEMENTS OF OCEAN STEAMSHIPS.

PLYMOUTH, N. H., March 29.—(Special.)—The following are the movements of ocean steamships.

receiving of tips by waiters in hotels or restaurants and the giving of such tips being also prohibited in the latter state.

Employment of Women and Children. Judged by the number of laws enacted on the subject, the employment of women and children is the question most in the legislative mind insofar as labor legislation is concerned, thirty-two states having enacted thirty-four laws or amendments thereon in the last two years. In the majority of cases these laws are amendatory. Principal laws were enacted in ten states, four of them (Mississippi, North Dakota, Oklahoma and Washington) being first enactments on the subjects covered, while in the other six cases (Kansas, Kentucky, Louisiana, Michigan, Pennsylvania and Virginia) the statutes supersede prior enactments. The laws relate to age limit, hours of labor, prohibited employments, compulsory school attendance, certification, registry and all the provisions that have been found valuable in the matter of the regulation of the employment of women and children. The employment of children is the subject of the large majority of these acts. Extended and detailed lists of employments prohibited for children appear in the legislation of New York, North Dakota, Ohio, Oklahoma and Pennsylvania.

Lame back may be cured by applying Chamberlain's Liniment two or three times a day, with a vigorous rubbing at each application.

ARRESTS IN LODGE LIQUOR CASES.

MARSHALLTOWN, Ia., March 29.—(Special.)—W. E. and J. F. Crinklins, brothers, were arrested today on grand jury warrants, resulting from indictments returned Saturday in connection with indictments returned against the local Elks and Eagles lodges for keeping and selling intoxicating liquors. The Crinklins are implicated by reason of both of them having been stewards of the Eagles club rooms, and having dispensed the drinks. William Adame and Frank Crum, owners of local pool halls, were today arrested on grand jury warrants, following their indictment for allowing pool players to play in their places for money.

County Campaign Quiet.

LAKE CITY, Ia., March 29.—(Special.)—The county political campaign this spring is comparatively quiet. The following have so far announced their candidacy: O. E. Hilsa, county superintendent; R. C. Gray, clerk of courts; C. O. Dixon, auditor; F. J. Hunter, county attorney; Edgar Vaughan, recorder; Jet Dawson, sheriff; C. V. Bookwith, treasurer; J. F. Fouts, recorder; S. A. Stewart, supervisor from the Fifth supervisor district. All those named
