

This Ad for Girls Only

We want every girl from the little 2-year-old tot to the graceful miss of 16 years to know about the preparations we are making for the most important girls' spring coat sale of the season next Friday and Saturday.

Our whole misses' and children's department will be devoted to the selling of these garments on those two days.

There will be a thousand garments to select from in this season's newest styles and colors. See details of sale in Thursday evening papers.

1518-1520 Farnam Street.

ROOSEVELTS OFF FOR NAPLES

Former President, Wife, Daughter and Son Leave for Italy.

BIG CROWD AT CAIRO STATION

American Mission Sends Address Thanking Him for Visiting Stations and Aiding in Work of Redeeming Egypt.

ALEXANDRIA, March 30.—Former President Roosevelt, Mrs. Roosevelt, Kermit and Miss Ethel sailed for Naples this afternoon on the steamer Prince Heinrich. Mr. Roosevelt received an ovation as he stepped from the train at the pier station. He stopped to receive the greetings of several prominent personages and then with the others of the party walked briskly aboard the steamer, which was dressed in flags, with the American colors flying from both mastsheads. A great crowd followed him across the pier and onto the vessel. As he stepped aboard, Mr. Roosevelt acknowledged the popular welcome by raising his hat.

Every berth on the Prinz Heinrich was occupied and the officers had given up their quarters for the use of the passengers. The weather today was magnificent and the steamer sailed with a promise of a splendid trip to Naples.

CAIRO, March 30.—The Roosevelts were given a hearty send off when they left here by train for Alexandria this morning. Among the communications received by Colonel Roosevelt was one from the headquarters of the American mission, thanking him for generously according to the request that he visit the mission stations and also for his aid in the work of redeeming Egypt. The message continued: "We deeply appreciate the noble senti-

ments voiced throughout your address at the National university, which have a most wholesome and lasting effect upon life of this country. Your visit has made us doubly proud and thankful that we are Americans."

There was a great crowd at the station to witness the departure of the distinguished American, whose presence in the Egyptian capital has been of absorbing interest to all. Sir Eiden Claret, British agent and consul general in Egypt, was not present, but he sent General Maxwell to pay his respects and to say that he was unable to express his appreciation of all that Mr. Roosevelt had done for the civilization of Egypt.

The khedive sent a representative to extend his compliments to the departing guests. CUXHAVEN, Germany, March 30.—If Gifford Pinchot, former chief of the bureau of forestry of the United States, sailed on the steamer President Grant to meet Mr. Roosevelt in Europe he could not be found when the vessel docked here today. The purser's list does not show that he was aboard.

New School House at Huron. HURON, S. D., March 30.—(Special.)—The city Board of Education has decided to erect a new school building in the Third ward. It will be located on the corner of Tenth and Illinois streets. It will be an eight-room brick structure and will cost about \$15,000 to \$20,000. Work will be commenced at once.

Sale of School Lands. HURON, S. D., March 30.—(Special.)—Land Commissioner Dokken, with State Auditor Hering, was in the city today and arranged for a sale of Beadle county school lands to take place April 25. These lands are appraised at from 140 to 260 per acre, except one quarter which is appraised at 250 per acre. A number of prospective purchasers are waiting impatiently for the sale.

COLDER, FROST THREATENED

Lower Temperatures with Approach of Night—High Wind Subsides.

WIRE COMPANIES IN TROUBLE

Telegraph Lines to West Tied Up by Storm—Railways Unable to Get Reports on Traffic Conditions.

With promises of frost by the weather bureau, Omaha went to bed last night with the temperatures, but little lower than they had been through the major portion of the day. The strong westerly wind, which bore down on eastern Nebraska from the chilled zone of disturbance toward the Rockies subsided. With the high wind blowing the danger of frost was less. At nightfall the temperature was slowly falling.

Wednesday found the railway companies of Omaha shut off from communication with the centers of trouble in the storm district to the west. Wire companies were helpless in the grip of the storm and there was no indication that communication would be restored early in the day. The cold breath of the storm came down on the west wind, chilling the morning in Omaha with a tinge of the disturbance which is sweeping over the western part of the state in its march from the Rockies. Omaha has had no wire to Denver since yesterday at noon.

"No wires on lines west of Sidney, so we can't tell what is going on out west," an official of the Union Pacific. "We understand that the service has been entirely interrupted on some divisions, but we can not get positive information now until the wires are restored to operation." From the Burlington it was the same story. The interruption of the wire service has left the general offices here in the dark as to conditions on the lines west. "We are able to get practically no communication west of Lincoln," said G. W. Loomis, assistant to general manager. The Associated Press wires to Denver are also down.

Trains are Late. Nearly all of the trains from the west were late Wednesday in arriving in Omaha, on account of the storm. The roads are handicapped on account of being unable to send in, or receive word from points along the western end of their lines.

The Burlington reports two feet of snow at Deadwood, where the temperature was 15 degrees, with a storm still blowing. Wind and rain were reported from a number of stations in the state and Wednesday morning there was snow at Belmont, Alliance and Seneca. Passengers at both the Burlington and Union stations were waiting for the early morning trains going east, some of which were over an hour late.

The railroads say that the storm has caused havoc to their telegraph communications and it is believed that the storm center is headed this way. People interested in fruit lands in the western portion of the state say that they do not believe that the storm will have any decidedly bad effect upon vegetation. It is claimed that mere snow and wind will not destroy the budding trees, and that as long as it remains cloudy there will be no frost. Owners of trees which have started to bud fear a frost more than they do a severe snow storm, and they do not seriously expect to be affected by snow, where a slight frost might do incalculable damage.

SNOW IN NORTHWEST NEBRASKA

Four Inches Deep on Level and Drifted Badly in Places.

NORFOLK, Neb., March 30.—The Rocky mountain blizzard has swept over into northwestern Nebraska and has come as far east as Cody. The storm raged all night and four inches of snow on the level has fallen and it has drifted badly in high winds. All wires west are down in the storm district and northwestern train traffic was completely tied up. No trains were sent into the storm, because of the loss of wires, through trains being tied up at various points. Wire communication had not been restored late this morning.

STORM FELT IN MINNESOTA

Snow is Predicted for Northern Part of Illinois.

CHICAGO, March 30.—Northern's blizzard, which began with the protrusion of telegraphic and telephone wires and the blocking of railroad trains in the Rocky mountains and eastward, made itself felt in a diminished degree in Minnesota today. In the northern part of this state snow was predicted. The blizzard continued around Littleton, Castle Rock, Limon and Kimball, Colo., and the snow is said to lie six inches deep in the city of Denver. In the railroad cut it has drifted to a height of five and six feet.

OGDEN, Utah, March 30.—On account of conditions arising from yesterday's storm, the Southern Pacific trains were sent west from Ogden over the old Central Pacific line north of the Great Salt Lake today. Work trains are rapidly repairing the storm damage to the embankments, which form the approaches to the bridge across the lake. The trestle proper was not damaged by the storm.

NEBRASKA'S CLAIM ON BENCH

(Continued from First Page.)

a district judge, a judge of the supreme court of appeals and a justice of the supreme court. Arkansas has two district judges and for years has had a judge of the court of appeals. Wyoming has a district judge and a judge of the court of appeals. South Dakota, North Dakota, Colorado, Utah each a district judge and Nebraska two district judges.

Nebraska Never In. "Nebraska has never been represented on any federal bench outside of the district court of the state. It is a prominent state agriculturally, industrially and commercially, and Omaha is one of the great and growing cities of the west, and is located in the center of the group; that is to say, midway between the Mississippi river and the eastern boundary of Colorado.

The legal profession of Nebraska has always ranked among the first of the country. It is equally true that the leading representatives of the various professions and their pursuits have ranked among the first in their professions and pursuits in the entire country. In other words, in the business and social world, Nebraska has been distinguished for the high standing and character of its representative men.

"In the appointments, political consideration should be ignored. The appointment should be made upon principles of justice the same as the decision of an equity case by a court, and in this view Nebraska may well claim recognition, provided it presents a candidate possessing the necessary qualifications for the office."

FATAL AUTO ACCIDENT at Topeka. TOPEKA, Kan., March 30.—George Scott of Kansas City and William C. Williams of Manhattan, Kan., was seriously injured in an automobile accident near here early today.

Our Great Removal Sale

Opens Thursday Morning, Promptly at 8:00 O'clock

Greatest Sacrifice Sale Omaha Has Ever Known

OUR ENTIRE STOCK MUST BE CLOSED OUT

It would be interesting to show the table of the wonderful growth of our business—it would be interesting to show how that wonderful growth has been achieved conservatively, but irresistibly, on sound, progressive business principles; it is only a look back of but four years when we succeeded the Scofield Cloak and Suit Co., when this store employed but four or five people. Today this cloak and suit house is the greatest specialty house in the middle-west devoted to the selling of strictly high class apparel for women and misses, and employing over 100 people in the selling and fitting of Orkin's high class garments.

We have outgrown our present store, and within a very short space of time we will move to our new location at 318 and 320 S. 16th street, where we will have more room and one of the finest and most complete specialty stores in America. Not one single garment will be moved from this store to our new location. Everything must be closed out within a very short time.

PREPARE FOR MINE STRIKE

Coal Dealers Hasten to Lay in Heavy Stocks of Fuel.

BYERS FOR SHORT LINE RATE

Attorney General's Decision Forces Roads to Give Passengers Lowest Possible Fares—Attorneys Ready to Fight.

(From a Staff Correspondent.) DES MOINES, Ia., March 30.—(Special Telegram.)—A sudden change in the weather caused a hustling among the commercial dealers today to buy all coal in sight and this was especially noticeable because of the failure of the coal miners and operators to get together and even make a start toward fixing up a wage scale. Most of the Des Moines dealers say they have coal enough on hand to supply customers for sixty days and nearly all the large consumers of coal have been buying and storing coal for several weeks. The miners are waiting for the return of President White before they start negotiations.

College Would Move. Overtures have been made on behalf of Pennsylvania college at Oskaloosa to move to Des Moines and take over the property of Highland Park college. Pennsylvania is the Quaker settled for Iowa and western states and an old fashioned institution, but with poor equipment. Highland Park is owned privately and has been conducted as a business college with great success.

Railroads Against Decision. Railroad men, having to deal with conditions in Iowa, are much exercised over the attitude taken by the attorney gen-

Tailor Made vs. Ready Made

There's a strong contrast between the tailor-made garment and the picked off the counter kind—the difference is not only in fit—it is in everything—the fabrics, the linings, the style and workmanship—the thousand little stitches that count are missing in the ready-to-wear—after they alter them-kind. Give me a trial order—I keep the garment if you are not satisfied.

I am making some mighty swell suits at \$25 and \$30, and every garment is cut and made in Omaha

oral, who declares that the railroad commission has authority to compel a road to charge for passengers only the short line rate, where the road has two lines and the longer is used for passenger trains. This arises from the schedule of the Minneapolis road, which has two lines from the north and runs its trains the longest way. Attorneys for the road contend that the ruling is contrary to Iowa laws and have filed with the attorney general a statement of their case.
