THE YOUNG PEOPLE'S OWN STORE BENSON AND THORNE CO.

1518-1520 Farnam Street

Johnson-Danforth Compay's DELIVERY WAGON LINE

is the largest and most varied in Omaha—We have two grades—High Grade—Medium Grade Our high grade includes a very large selection of the celebrated Racine brand wagons, splendidly constructed and right up-to-date in every particular. The Racine wagons are strictly A-grade, and will meet the requirements of the hard uses to which wagons in our city are subjected. We sold 238 of them last year and we can show many testimonials and have more satisfied customers than any other concern. Our medium grade comprises such well known wagons as The Armender, The Regal and The Columbia.

We are making prices on this line of work that will interest you. We have a blacksmith shop running at full blast, and we can build you any kind of wagon you may want. Call and inspect our product, or write for catalogue and prices. JOHNSON-DANFORTH CO. S. W. Cor. 10th and Jones Sts., Omaha, Neb.

TRAIN HANDLED WITH CARE

Secretary Lewis of Commission Finds No Evidence of Neglect. REPORT SOON ON IOWA WRECK First Step Being Taken by Des Moines to Assume Ownership of Street Railway Company.

(From a Staff Correspondent.) DES MOINES, Ia., April 11.—(Special Telegram.)—Secretary Dwight Lewis of the railroad commission has returned from further investigation of the recent high speed accident near Creston, Missouri. A rumor had been circulated that farmers living near could give valuable evidence and that they would say that the train was running at reckless speed and the engines rocking long before the accident. Lewis interviewed everyone who noticed the train and they all denied the rumors, stating that the train was running unusually slow and that there was no evidence of rocking or swaying by the engines. It is expected the commission report will now be made up and it will show that the train was handled carefully.

Jenkins Asks Clemency. John Jenkins, colored, of Ottumwa, has appeared to the supreme court for a new trial to enable him to escape the gallows. He killed Clara Rosen last year and was sentenced to hang. His attorneys take the ground that he was a "congenital degenerate" of a very low order and practically not responsible for what he did, but insist that the ends of the law would be served by maintaining him in prison as long as he lives.

Municipal Ownership. What is believed to be the first step towards the municipal ownership of the street railway company was taken by the city council this morning when it authorized Mayor Hanna to secure expert opinions as to the valuation of the physical property of the company.

Methodists vs. Quakers. It is an even race between the laymen of the Des Moines Methodist conference and Penn college at Oskaloosa as to which denomination will secure the control of Highland Park college. Penn college is an organization of the Friends church. Both committees are holding secret conferences with the owners of the Highland Park college property. It is claimed by those who are in a position to know that the local college property will pass into the hands of either one or the other of these denominations within thirty-six hours.

Miners Meet Operators. The Iowa mine workers and operators met this afternoon to begin negotiations for a new wage scale. The operators at a meeting today decided to lay down a rule that they will not consider wages until the miners will agree to a provision for enforcing the contract that will be made. They will also insist that the right to hire and discharge men be more clearly defined and that there be a provision for the reintroduction of mining machinery. The miners will insist on an advance of 2.5 per cent, with readjustment of working rules and a new scale for mine run wages.

Motor Train Strikes Freight Near Vinton, Ia.

Eleven Persons Seriously Hurt, One Fatally in Head-On Collision at Garrison. DES MOINES, Ia., April 11.—Eleven were hurt, one fatally, when an engine and coach taking place of a motor train crashed into a freight train at Garrison just east of Vinton early today. The substitute motor train was east-bound, running from Iowa Falls to Vinton and met the freight engine head-on. The injured: William Lohue, Garrison, internally hurt, will die. T. Lohue, Garrison, left arm broken, head hurt. Mrs. William Lohue, Garrison, head injured. Miss Nancy Ladd, Traer, ankle broken. George Miller, section hand, shoulder broken. C. Hense, section hand, badly bruised. Miss Irwin, Garrison, leg and foot hurt. Engineer F. Lyman, Iowa Falls, leg broken. Engineer Swayer, Iowa Falls, freight engine. J. S. Wolf, Iowa Falls, internally hurt. Fred Collins, Iowa Falls, arm broken, ankle hurt. Others were injured, none seriously. Mistaken orders are thought to have caused the accident. A motor train, which usually runs between the towns of Iowa Falls and Vinton was laid up for repairs, and the stub train was taking its place.

Meyer-Lawrence at Y. M. C. A Draw Throgs

Masterhood of Christ and Power of Organization Themes of Addresses. The auditorium of the Young Men's Christian association was filled to its capacity Sunday afternoon to listen to two addresses by Rev. P. B. Meyer of London, England, president of the World's Sunday School Conference, and Marion Lawrence of Chicago, secretary of the International Sunday School association. The meeting began with a half hour of songs led by E. O. Eckert, that had the effect of awakening a spirit of enthusiasm. "I always had a liking to speak before men," said Mr. Meyer, "for I was a business man in London before I became a minister, and then for years attended the great college of human life, looking after those men who had just been let out of jail and assisting in giving them a new start in life. I know what the temptations of a great city are. "I dislike the term brethren; it is too formal. Brother is the better word; it is a real man's word. We are brothers, be we pastors or laymen. There is no difference between you and me because I wear the dress of a pastor. I want you to lead the life I am trying to lead. In the pulpit or out of it, we are under the masterhood of Christ. "Make Christ the king of your whole life. Be willing to do His work, which is like a mathematical problem. You may write a whole line of nougths, but they signify nothing unless they have a figure in front of them. Then they are increased ten and ten thousand fold. Let Christ be that figure in front and then you will be doing something. "Marion Lawrence spoke upon the subject of 'Men's Classes.' He said: "The organized class is built upon the demand of the day and organization determines the difference between success and failure. Organization perpetuates life. Men is immortal until his work is done. "When men are doing things they are harmonized. The organization of these classes has found expression in many ways, in both inside and outside work. "Show yourselves. You cannot afford to be segregated. Get out of the groove. The only difference between a groove and a rut is the difference in depth. Teachers' meetings should give place to workers' meetings and care should be taken that they are weekly, but not too weak."

Triple Tragedy in Mining Camp. ROCK SPRING, Wyo., April 11.—(Special.)—Pushing his way into a mine, Pete Savola pushed Mrs. Maki and two guests to one side, pursued Maki into a bedroom and there shot him down, sending two bullets through his body. At the sound of the shots the guests fled, but Mrs. Maki attempted to enter the room where her husband lay and was shot. She was met at the door by a bullet and fell with an almost mortal wound. A moment later Savola sent a ball into his own brain. When persons summoned by the guests reached the house Maki and Savola were dead and Mrs. Maki was unconscious. The shooting occurred at Superior, a small coal camp north of this place, and was the result of a long standing enmity between Maki and Savola, who were Italian coal miners. Mrs. Maki is in a critical condition, but has a chance for recovery. The case being a clear one of murder and suicide, no coroner's inquest will be held.

Survey of New Railroad. SIOUX FALLS, S. D., April 11.—(Special.)—The city commission has given a leave of absence for a period of thirty days to City Engineer Wagner, who has been engaged in running the preliminary line for the Sioux Falls & Western Railway company, which proposes constructing a new line of railroad from Sioux Falls to Wheeler, situated on the Missouri river in the northern part of Charles Mix county. Engineer Wagner now is in the field running the preliminary survey. The line starts from the southern portion of Sioux Falls and probably will strike Parker or Marion Junction on its route toward the southwest. Engineer Wagner estimates that it will require thirty days to run the line and write up the field notes. The promoters of the proposed railroad state they do not want to lose any time in getting the line to the blue print stage so that contracts for the grading can be awarded at the earliest possible moment.

Bank Increase Capital. PULSIFURCO, Colo., April 11.—(Special.)—The First National bank of this place has just increased its capital stock from \$50,000 to \$60,000, with \$10,000 surplus and undivided profits, in order to handle its constantly increasing business. The new stock has been placed among forty representative citizens of this vicinity.

Burns Wins from Lang. SYDNEY, N. S. W., April 11.—Tommy Burns won from Bill Lang, heavyweight champion of Australia, in the twentieth round of their fight for the Australian title today.

Priest of Sugar Hears. NEW YORK, April 11.—All grades of refined sugar were reduced 10 cents a hundred pounds today.

Dr. Hyde on Trial for Alleged Murder of Colonel Swope

Kansas City Physician is Accused of Causing Death of Millionaire and Several Relatives by Poison. KANSAS CITY, Mo., April 11.—Dr. R. C. Hyde appeared in the criminal court here today to answer a charge of murdering the late Colonel Thomas H. Swope, millionaire philanthropist and uncle of the physician's wife.

Colonel Swope died October 2, last. This death certificate gave apoplexy as the cause of demise. Dr. Hyde was in attendance. The state avers the physician poisoned the millionaire by administering strychnine to him in a capsule form. For the alleged murder, the state, says the state, was to obtain wealth. By the terms of Colonel Swope's will, Mrs. Hyde was to receive a share of her uncle's property and some money. Desiring to hasten the settlement of the estate, and also to prevent certain changes which the colonel had planned from being made in the will, Dr. Hyde, the state will attempt to prove, killed the aged capitalist.

The indictment upon which Dr. Hyde is being tried is for first degree murder. It was voted against him on March 8. At the same time ten other indictments were returned against the physician. One charges first degree murder of Christian Swope, nephew of Colonel Swope, by administering poison to him. An indictment for manslaughter was voted against Dr. Hyde of negligently killing James Housh, a cousin of Colonel Swope, by bleeding him for typhoid fever when it was prevalent in the Swope home and it is averred Dr. Hyde caused their illness.

No indictment but the one relating to the death of Colonel Swope enters into the case which went to trial today, however. Judge Ralph S. Latham is hearing the case. The state is represented by Prosecutors Virgil Conkling, John G. Paxton, Thomas J. Mastin, John H. Atwood, James A. Reed and Henry L. Jost. Dr. Hyde's legal representatives are Frank P. Walsh, John M. Cleary, Judge W. T. Johnson and John Lucas.

SPEECH OF TAFT TACTFUL

(Continued from First Page.) prizing \$485 for resurvey of public lands made in 1904-05, passed the house today. Judge Kinkaid said this afternoon that news from the Sixth district, so far as his candidacy was concerned, is reassuring, and he had no reason to believe that the rank and file of the republican party will swap horses at this time. George T. Glover, formerly of Grand Island, now of Cleveland, O., is in Washington with his bride, formerly Eva M. Deisel of Lima, O., where they were married. Mr. Glover is namesake of George Thummel, clerk of the federal district court of Nebraska.

WELL UP IN THE BILLIONS

A Stack of Railroad Statistics that are Marvelous in Their Immensity. The most marvelous array of statistics presented for some time past was that of the bureau of railway news and statistics. These figures are so stupendous that one can scarcely comprehend their real meaning as they stand in orderly rows, divided into groups of three by zigzag columns. Figures are mounting up so rapidly nowadays that the statisticians have to keep their eyes busy every day.

Argument Last Month. On March 14 of the present year the final argument of the case began. It lasted three days. For the Standard Oil, the most brilliant lawyer in the country, Charles E. Hughes, argued the case.

Head of the Standard Oil Company. The principal or holding company was enjoined from directing the affairs of the subsidiary corporations, and the subsidiary corporations were enjoined from paying dividends to the holding company.

Standard Oil Company. The Standard Oil Company of New Jersey in 1899 constituted a combination and a conspiracy in restraint of commerce among the states and with foreign nations, and a combination and conspiracy to monopolize that commerce in violation of sections one and two, respectively, of the Sherman anti-trust act.

RAILROAD BILL IN SENATE

Formal Consideration of Administration Measure Begun on Floor. ELKINS OFFERS AMENDMENTS They Are Adopted After Substitute Offered by Cummins is Defeated—Running Debate on the Court Feature.

WASHINGTON, April 11.—Senator Elkins, chairman of the interstate commerce committee, moved to take up the administration railroad bill in the senate today. The motion prevailed and the consideration of the bill was commenced with. Previous to the taking up of the bill in regular order, today Senator Dixon of Montana presented an amendment making it unlawful for carriers to charge more for short than for long hauls. The first vote taken was on Senator Elkins' amendment, creating a court for the consideration of questions growing out of the disposal of the public lands. The provision was voted down, 34 to 27.

The senators from the public lands states generally voted for the provision, but the eastern senators, regardless of party, voted against it. Elkins Offers Amendments. The senate then entered upon the consideration of the bill proper. Mr. Elkins offered two amendments to the commerce court provision, specifically conferring on the court the jurisdiction in railroad cases now exercised by the United States circuit courts.

Mr. Cummins presented a substitute providing that the jurisdiction of the proposed court should not be "different from or greater than that of the circuit courts." Mr. Aldrich made an appeal to the Iowa senator to permit action on the Elkins amendment in the line of perfecting the bill in accordance with the ideas of the interstate commerce commission. Mr. Cummins said he had doubt as to whether in reality the Elkins amendments represented the views of the commission. A running debate, which was largely technical in character, ensued. The discussion was participated in by Senators Cummins and Clapp on the one side and by Senators Aldrich, Elkins and Sutherland on the other.

BIG TRUST CASES TO BE REARGUED

(Continued from First Page.) could buy nothing better for female weaknesses, lame back and kidney trouble than Electric Bitters. For sale by Reaton Drug Co. A Ton of Gold. Mr. Cummins again presented his amendment as originally offered. A third roll call was ordered with the result that the provision went the way of its predecessors, but the difference in the vote was somewhat less pronounced. It stood 35 to 28. The Elkins amendment was then voted in without division.

Head of the Standard Oil Company

The principal or holding company was enjoined from directing the affairs of the subsidiary corporations, and the subsidiary corporations were enjoined from paying dividends to the holding company. The defendants were enjoined from engaging in interstate commerce until the illegal combination was discontinued. Last the defendants got around the decree in some manner the court enjoined them from carrying the combination into effect either by the use of liquidating certificates given to trustees, or by an agreement or arrangement like that adjudged illegal.

Standard Oil Company

The Standard Oil Company of New Jersey in 1899 constituted a combination and a conspiracy in restraint of commerce among the states and with foreign nations, and a combination and conspiracy to monopolize that commerce in violation of sections one and two, respectively, of the Sherman anti-trust act.

Standard Oil Company

The Standard Oil Company of New Jersey in 1899 constituted a combination and a conspiracy in restraint of commerce among the states and with foreign nations, and a combination and conspiracy to monopolize that commerce in violation of sections one and two, respectively, of the Sherman anti-trust act.

Involved in this suit formed a noncompetitive group prior to the passage of the Sherman act in 1890 and their transfer to the New Jersey corporation in 1899 did not alter their status or restrict competition.

Defense of Company. This same defense was made in the circuit court. That court held that the power of the principal company after the transfer of 1899 to fix the price at which the corporations should buy and sell the articles in which they dealt, the terms of their purchases and sales, their rates for the transportation of oil and its products and all the infinite details of their vast operations in which they might compete was greater, more easily and quickly exercised and hence more effective than it could have been in the hands of 3,000 scattered stockholders. It held that the corporations were potentially competitive if not actually competitive.

The government advanced the same argument before the supreme court, as it had done before the circuit court. The Standard replied by contending that the doctrine of "potential competition" would mean that one person could be compelled to compete with himself. The argument over the subject and the discussion of what constitutes a monopoly consumed many hours of the hearing. As to its monopolistic tendencies, the Standard's attorneys entered a denial, but based on its largeness, as the natural development and outgrowth of business begun nearly fifty years before.

By untiring energy, with infinite skill, with abundant capital and the steady investment of early profits, said Mr. Watson in his brief prepared for the court, "these men and their associates created out of an entirely new, unique and unprecedented production of crude oil, a new, universally used and cheap illuminant the world has known. They succeeded, as if one had developed unexpectedly a gold or diamond mine, and abundant revenue legitimately became theirs." The reply of the government to this line of argument was summed up in one outburst of Mr. Kellogg in addressing the court, when he shouted: "They waved the black flag over the land, as they had done over the sea."

NEW YORK MUCH SURPRISED

News Causes Sharp Upturn in the Securities Market. NEW YORK, April 11.—The order of the United States supreme court for a reargument of the cases of the United States against the American Tobacco company and the Standard Oil company came as a surprise to the financial district, where the news was greeted with a sharp upturn in security prices. The upturn in prices on the news from Washington was vigorous and the short interests rushed to cover their contracts. Union Pacific led the advance, rising 34 points to 187 1/2. Reading was also an active leader in the market, advancing to 184 1/2 and 54 points over the earlier figures of the morning. Southern Pacific and United States Steel and American Smelting and Refining were active on advancing figures.

Fort Pierre Pupils Strike.

PIERRE, April 11.—(Special.)—The pupils of the public schools of Fort Pierre are out on a strike. All because of a scrap among their elders in regard to the selection of a new principal for the coming year. A large number of the school patrons petitioned the school board to employ Prof. Beckler for another year as the head of the schools of the town, but the board ignored the petition and refused to take such action. The pupils, learning of this, walked out with a sympathetic strike, and the board has another complication on its hands besides that of dealing with the patrons alone.

Surest Way to Health.

Each of the chief organs of the body is a rung in the ladder of life. The ladder is no stronger than its weakest rung, the body is no stronger than its weakest organ. If there is weakness of the stomach, liver, kidneys or lungs, there is a weak rung in the ladder of life which may give way at any time. Offer this so-called "weakness" is caused by lack of nerve force in those organs. Diseases and weakness of these organs quickly yield to the Neuropathic treatment. It would take a book of many pages to tell of all the wonderful cures made by the science of Neuropathy. You will find it in your old, and keep you young if you are youthful—it will give you the life you want. It will change a faded business man into an energetic, efficient, and powerful thinker, twice as clearly and twice the work. It dispels congestion, inflammation, effusion, obstruction and all abnormal deposits. Regulates the circulation of the blood, purifies the blood, and increases its strength and vigor to the weak, broken down man, woman or child, by removing the accumulation of lime and other impurities from the blood, flesh and bones, thus "juvenating" the entire system, and creating new life, endurance and increased mental and physical faculties. The Neuropathic treatment is based upon these principles: That nerves are the life, wisdom, construction and all other faculties of the body. A lack of circulation means strangulation and strangulation means disease. With the science of Neuropathy suffering humanity need no more fear the long nervous strain and months of suffering, as it gives immediate relief and quickly effects a cure. Dr. H. H. Caldwell, Expert Nerve Specialist and Skilled Neuropath, will be found from 9:30 a. m. to 4 p. m. at his home, 215 North 16th Street, corner 16th and Harney streets, wants every afflicted reader of this paper to call and see him, so that he may explain and demonstrate why Neuropathy cures after all other methods fail even to give relief. Consultation free.

AN EXPERT'S OPINION.

A friend of mine to visit, the came a lady of fifty a cook of great fame. "My dear, what flour do you use?" she said. "I never ate such perfect bread." The friend of mine, Updike's, I said. "One can make good bread with it and not half try." MRS. HILDRETH, 2175 Dodge.

colleagues that the facts would be known.

There was more than even chance, he said, that the facts would be so well known by next November that republicans would be returned in full control of the government.

"And again," he said, nodding and smiling upon the democrats, "you will be shown to be false prophets as you have been during the last decade."

Amid applause, Mr. Cannon took his seat.

Settlers Pouring Into South Dakota

Three Hundred Carloads of Immigrant Effects Sent Into Northwestern Part of the State.

SIOUX FALLS, S. D., April 11.—(Special.)—Reports from points on the Pacific coast extension of the Chicago, Milwaukee & St. Paul railway in the extreme northwestern portion of the state are to the effect that for some little time past there has been a great influx of new settlers to Lemmon and other points along the new line. At one time a few days ago there were between Moberg and Lemmon a total of 300 cars loaded with the effects of the new settlers who were destined to points in the vicinity of Lemmon and other new towns along the railroad extension. Traffic is so heavy on the line that the railway company has difficulty in securing a sufficient number of locomotives to pull the trains through, and freight shipments consequently are greatly delayed. There is a very encouraging outlook for the new settlers. The ground is in excellent condition and crop prospects could not well be brighter than they are at present. Great areas of virgin prairie land is being broken and this season will be devoted to crops for the first time. In this breaking process acres of immense power breaking outfits are being utilized, and they are turning over the sod at a really remarkable rate.
