STILL DANGER OF FROST

Weather Bureau Indicates Strong Probability of Freeze Sunday.

BRISK FALL OF SPRING SNOW

Cloudy Skies Save Gardens from Nipping Cold--Clear in Western Part of State--Warm on the Coast.

Snow fell in Omaha Saturday morning, but the garden snow was not deep. The kindly clouds interposed between the frost generating atmosphere and the truck gardens and orchards Friday night and the killing frost predicted by General Welsh of the weather bureau was averted. The temperature was all right, at 25, to do an indefinite amount of damage to fruit and early gardens, but the clouds and the gentle winds during the night prevented damage in this locality.

No damage is known to have resulted from the cold snap in this vicinity, though freezing and below freezing temperatures were reported up the Missouri valley. Similar conditions were reported out in the state and from Nebraska. A wintry touch was given to this section Saturday morning by a brisk snowfall, beginning about 6:45 and continuing until after 8 o'clock. The precipitation was light, but it was snow, all right, and had the effect of whitening the roofs of Omaha. The snow fell, with fitful intervals during the most of the forenoon, but by noon it had all disappeared.

While it is fair to presume that little or no damage resulted from the wintry weather in this section last night, the promise is so alluring for Saturday night and Sunday, that the weather man. There is a strong probability of the skies clearing off, which, with the prevailing conditions west, portend freezing temperatures in Iowa and eastern Nebraska Saturday night. It is clear out in the state and generally clear off toward the west, the effect of the cold snap will probably be reached by Sunday evening. Warmer temperatures are reported on the Pacific coast and these will work eastward, with the tendency to break the back of the frigid spell Sunday night or Monday.

FRUIT BUDS ARE BLASTED

Reports of Serious Damage at Points Along the Missouri.

ST. JOSEPH, Mo., April 16.—A driving snow is falling here. The weather was freezing cold last night and it is feared the fruit and vegetable crops will be greatly damaged.

DES MOINES, Ia., April 16.—Snow, accompanied by a penetrating wind, is falling over Iowa today. Reports show that the fall is general over the state. The flakes are meeting over reaching the earth. There is grave fear as to the effect upon budding fruit of the cold spell.

GRAND FORKS, N. D., April 16.—Snow and sleet which fell last night and up to noon today broke down miles of telegraph poles along the Great Northern railway and trains are not running on schedule, the dispatcher being unable to direct their movements. The ground is covered with snow six inches deep.

STORM IN SOUTHERN STATES

Hotel and Many Residences Wrecked at Greenville, Ala.

MONTGOMERY, Ala., April 16.—The Grenville hotel, a half dozen stories high, and many residences were wrecked at Greenville, Ala., by a storm which struck town today. At Foresthome, twelve miles below there, several houses were unroofed, and a negro woman and a negro man injured.

MEMPHIS, Tenn., April 16.—Reports today from Mississippi, Arkansas and western Tennessee tell of much damage from the storm, which swept those sections last night.

Only two fatalities were reported. At Scottsboro, Ala., the daughter of J. V. Brandon was killed by lightning. At Jones-town, Miss., a negro woman was crushed to death under a house.

NEW ORLEANS, April 16.—Reports of a storm of serious proportions in northern Mississippi and central Alabama were received here today through the commercial telegraph companies, which reported that their trunk lines running to the east had been seriously crippled by high winds.

Unconfirmed reports of property damage and possible loss of life were received from that section of the country lying between Meridian, Miss., and Montgomery, Ala., on the south, to West Point, Miss., and Birmingham on the north.

DENIAL OF SUGAR FRAUDS

Reports of Crooked Weighing in New Orleans Rejected by Federal Authorities.

NEW ORLEANS, April 16.—That reports of fraud in the weighing of sugar at the port of New Orleans were without grounds and that the government had not lost a penny in this connection was the gist of a report which Assistant Attorney General W. T. Denison late today placed in the hands of the United States grand jury in this city. Mr. Denison was one of the

GOVERNMENT'S SPECIAL ATTORNEYS IN THE SUGAR CASES IN NEW YORK AND HAS BEEN IN CHARGE OF THE INVESTIGATIONS HERE.

"The figures at New Orleans show that the government sugar weighing here has been for ten years on the basis of correctness never approached at any refinery in New York until after the frauds were exposed and the conditions revolutionized," said Mr. Denison.

"It is much to be regretted," said he, "that intimations have gone abroad that sugar frauds existed here and I hope the refutation of these intimations will be fully published, in justice to the importers, the government officials and to the port."

Deny New Trial to Land-Frauders

Appellate Branch of Circuit Court Refuses Rehearing to Richards and Comstock.

The sole hope now of Bartlett Richards and W. G. Comstock, convicted land frauders, in the supreme court of the United States, the appellate division of the federal circuit court having denied a rehearing. The rule is handed down at St. Louis. A stay is granted at request of the defendants' attorneys that a motion may be filed for a writ of certiorari to the supreme court.

Richards and Comstock were convicted in Omaha before Judge Minger three years ago and were sentenced to a year in jail and a fine of \$1,000 each on the charge of conspiracy to defraud the government out of public lands.

LONDON, April 16.—John E. Redmond, M. P., chairman of the Irish party, today cabled to John O'Callaghan, national secretary of the United Irish league of America, that he, T. P. O'Connor, M. P., and Joseph Devlin, M. P., would attend the fifth biennial convention of the United Irish league of America when it was held, probably at the end of September.

AUSTRALIAN MEAT IS SOLD IN NEW YORK

Importers Say that First Cargo from Antipodes is a Big Success.

NEW YORK, April 16.—A good share of the available supply of Australian beef and mutton which reached New York this week was snapped up by housewives today at prices said to range from 3 to 5 cents below the prices asked for western meat of equal quality, and the importers who brought the meat to America declared that their experiment was a success.

BYERS OUTLINES POWERS

Iowa Attorney General Rules on Railroad Rates.

SHORT RATE ON LONG HAUL

If No Person is Injured, Holding is Commissioners May Act—Method of Operating Trains.

(From a Staff Correspondent.)

DES MOINES, April 16.—(Special Telegram.)—Holding that the State Railroad commission and the right to interfere in all cases where it will promote the security, convenience and accommodation of the public, Attorney General Byers handed down a decision today in which he held that the power of the State Railroad commission was such that they might order the short haul rate over a long haul if no one was injured by the order, in making the opinion he went into the powers of the board extensively and defined their powers as follows:

"To compel the roads to keep their road beds in safe condition.

"To determine how many trains a road must operate over a given line per day, and the kind of trains and their speed within certain limitations.

"To change certain rates for passenger and freight, not in accordance with the so-called long and short haul clause of the railroad law, when the operation of the latter would be against the best interests of patrons."

Small Matter of Fees.

It appears that the controversy in the office of the State Board of Health in regard to various fees covers only a small matter of \$15. The present secretary had collected these from doctors wanting certificates for other states, and did not know what to do with the same. The attorney general states that all fees go into the treasury. He also collected from three colleges \$300 for shipment of bodies for dissection, but this collection is for expenses and can only be used for that purpose. The governor has asked that the records of the office be completed as showing what disposition has been made of the fees in the last dozen years, the books not being complete.

ALCOHOLISM NOT A DISEASE

But An Accumulative Alcoholic Poison in the System, Contracted by the Drink Habit and When the Poison is Neutralized and Eliminated the Desire and Craving for Liquor is Gone.

A CORRECT THEORY VERIFIED BY PRACTICE

The late discovery that alcoholism is not a disease, but an accumulative poison in the system that creates the desire, craving and appetite for liquor, is daily verified by the practice of the Neal treatment that neutralizes and eliminates alcohol from the system and takes away all appetite for liquor in three days, and a plain contract is given each patient agreeing to effect a perfect cure in three days, at the institute or in the home, or refund the money. This dispels all former theories of alcoholism being a disease and puts the matter at rest forever. Call or write the Neal Institute, 1605 South 72nd St., Omaha, Neb. Free book and contract.
