Is your house half a home?

In cold weather do you hate to go upstairs or from one room to another? Do you huddle up in one or two rooms or else suffer from cold? Do you constantly warn the children about going from room to room after the things they want? If you are comfortable in only, say, 3 of the 8 rooms of your house, you are getting the use of only three-eighths of what your house costs—a poor investment!

AMERICAN & IDEAL RADIATORS & BOILERS

enable you to enjoy every room, hallway, nook and corner of the house. Not only do you get the full use and enjoyment of the home, but IDEAL Boilers and AMERICAN Radiators will actually pay for themselves in the fuel savings. They are so simple to run, and so thoroughly rid the house of ash dust (giving long life to furniture and decorations) that house-cleaning is reduced one-half. IDEAL Boilers are the only heaters so made that all the coal-gases and soot are kept inside the boiler—burned there—thus protecting the family health. No other heating apparatus in any way competes with IDEAL Boilers and AMERICAN Radiators, hence their rapid and wide adoption in all foreign countries where domestic economy means much.

Ask your architect to specify and insist on IDEAL Boilers and AMERICAN Radiators. Do not take any other. In so important a matter you cannot afford to run any risks, especially so when IDEAL Boilers and AMERICAN Radiators are so fully guaranteed.

Our catalog (free) has a wealth of concise heating and ventilating information which every owner or tenant—small or large—in town or country—ought to have. If building, or if paying the bulky bills and suffering the ills of old-fashioned heating, write, call or phone to-day. All inquiries cordially welcomed. Puts you under no obligation to buy.

GOLD DUST Makes Hard Water as Soft as Rainwater

Every good housewife knows the value of nice, soft rain-water for washing clothes and for all cleansing purposes. It isn't always convenient to secure rain-water, however. Neither is it necessary. Gold Dust will soften the hardest water, take out the mineral substances and make it so near like the water that falls from the clouds that you couldn't tell the difference.

Think what this means to you on wash-day. There's a deal of difference between the action of hard and soft water for all cleansing. Just a little Gold Dust added to the water renders it soft and brings out the greatest cleansing value.

Try it the next time you wash clothes or dishes. Gold Dust really cleanses so easily that it relieves housework of all its drudgery.

Made by THE N. K. FAIRBANK COMPANY Makers of FAIRY SOAP, the oval cake.
