Cottom Market.

NEW YORK, April 27.—COTTON—market opened steady at unchanged prices to an advance of 7 points, a better response to the Liverpool strength being prevented by better weather reports and a renewal of yesterday's selling account under which late months cased off to within a point of last night's finals during the first few minutes. There was a good demand, however, from leading buils and other buyers, influenced by claims that favorable outlook and recent bad weather had placed early crop prospects in a doubtful condition.
