

NOT FIGHT AGAINST FROST

An Experience Bearing on Recent Weather Conditions.

SUDDEN COLD WARDED OFF

New Colorado Fruit Growers Fought Off a Killing Cold Wave During April, Last Year.

The success of our western fruit growers is a success founded on tireless patience, scrupulous care and a continuous use of brains. Fruit growing in parts of our western states, where warmth is abundant and water is abundant...

FOX SKIN SELLS AT FANCY PRICE

(Continued from Page One.)

Dreadnought, the Thunderer, at the Thames Iron works, will bring into existence the 1,250th man-of-war built for the royal navy on the river during four centuries of warship building. In that total is counted every class of war craft of which there is record, from sailing three-deckers of the older time, and modern, first-class battleships, to gunboats, sloops of war and corvettes of the days of spars and sails, and modern torpedo boats and destroyers. At Trafalgar, in fact, eleven of the twenty-seven ships that formed Nelson's line of battle were London or Thames built ships.

Numerous Crimes Stir Up Spain

Bodies of Unearthed Which Point to Bad Work in Some Quarters.

MADRID, April 26.—(Special Dispatch to The Bee.)—The mystery of a series of murders is causing considerable sensation throughout Spain. Two years ago a sergeant named Coa, in the employ of Count Aliva de Gaytan, a near relative of the Carlist leader, the Marquis of Cevallos, and belonging to one of the oldest families of the Spanish nobility, mysteriously disappeared. Recently Coa's body was found buried in a wood on the estate.

AUSTRALIAN FARMER HAS THIRTY-TWO CHILDREN

He Reared Two Large Families, One After the Other, with Two Wives.

SYDNEY, N. S. W., April 26.—(Special to The Bee.)—An amusing incident occurred at the Cooberidge Agricultural show, near Brisbane, where a prize was offered for the largest family in the district. The Queensland minister of agriculture was present, and remarked that the district could hardly equal his own constituency, where there lived a man with twenty-four children.

BOERS HONOR THEIR KING

Led by General De Wet, South African Subjects Sing England's National Hymn.

BLOEMFONTEIN, April 26.—(Special Dispatch to The Bee.)—General De Wet, the famous Boer guerrilla chief, who is now minister of agriculture of the Orange Free State (as it is to be rechristened under the South African Union), recently addressed a meeting of farmers in his district, and at the end his hearers lustily sang "The Volunteer," the national anthem of the old South African republic. The general joined in as heartily as anybody. Then he said, "That is quite right—it is our old hymn. But now, as we are British subjects and loyal men, we must also sing 'God Save the King.'" This, the meeting proceeded to do, the general leading in the singing, which one who was present says, was not a whit less lusty than that of the "Volkslied."

AMERICAN TOURISTS ROBBED

Arab Boatmen Beat Up Irish Priest and Americans and Rifle Their Pockets.

CAIRO, April 26.—(Special to The Bee.)—The authorities are searching vigorously for the Arab boatmen who recently beat and robbed an Irish priest and a party of American tourists.

DIVERS SEEK TREASURE SHIP

Try to Find Wealth Lost in the Little Affair with the Spanish Armada.

GLASGOW, April 26.—(Special Dispatch to The Bee.)—Divers from Cayton are being employed to search in Tobermory bay for the Potencia, the treasure galleon which came to disaster during the little affair of the Armada. A London syndicate is bringing over these men to begin operations at an early date. They have been accustomed to working without diving dresses, and have been most successful in locating isolated banks of pearl oysters at considerable depths. The syndicate believe that the position of the sunken ship has been located by former salvors to within an area of 400 square yards. It is calculated that the value of the treasure on board is equal to about \$1,500,000.

CROP DAMAGE HEAVY IN SPAIN

Continued Hail Causes Heavy Loss and Several Persons Meet Deaths.

MADRID, April 26.—(Special Dispatch to The Bee.)—Continuously bad weather throughout Spain is causing great damage and some loss of life. Telegrams from Castellon state that the orange-crop has been ruined, and other crops have been ruined.

North Carolina a Healthy Spot

Lecturer in Edinburgh Boosts State as an Ideal Place in Which to Live.

EDINBURGH, April 26.—(Special Dispatch to The Bee.)—A lecture on North Carolina, as a country affording great opportunities for young emigrants, was delivered in Edinburgh recently by Edward Bayley. The state of North Carolina, the lecturer stated, was a very desirable field for young men adapted to work in fruit and vegetable farming under the favorable conditions of a fertile soil and genial climate. The thermometer usually ranged from 30 degrees in winter to 85 in summer, therefore every month in the year was practically a growing month, and crops matured quickly and permitted of rapid rotation. Thus from three to four crops could be taken off the same piece of ground each year. The climate in North Carolina was a healthy one. The work, though hard, was conducted in the open, so that young men had every opportunity of becoming robust and strong.

ANCIENT BELL STILL SOUNDS ITS MERRY CHIMES

Sounded the Tocsin When Joan of Arc Was a Mere Girl in France.

PARIS, April 26.—(Special Dispatch to The Bee.)—Few persons suspect that in the cathedral church of Notre Dame is a bell contemporaneous with Joan of Arc. The bell which sounded the tocsin when the maid of Lorraine appeared in August, 1430 and Paris was besieged by the English. This historic bell, referred to by Victor Hugo in his "Notre Dame de Paris," was given to the cathedral in 1400 by Jean de Montaigne. It was refounded in 1668, and then replated under the name of Emmanuel Louise Therese, in honor of Louis XIV. and Marie Therese of Austria. So if this bell is not the same bell which the heroine of Domremy heard, nevertheless the same metal vibrates today at the great religious ceremonies of the metropolitan church. In view of later events it seems rather more than a coincidence that when all the other bells of Notre Dame were destroyed by the revolutionists, Joan's bell should have been spared.

BEQUEST FOR CATS IS VALID

Justice Barton Decides Dublin Home for Felines Gets Twenty Thousand Dollars.

DUBLIN, April 26.—(Special Dispatch to The Bee.)—Mr. Justice Barton delivered judgment recently at Dublin in a case in which the question was raised as to whether a bequest in the will of the late Miss Swift, of Dublin of \$20,000 new consols for the benefit of the Dublin Home for Cats, was a valid charitable bequest. It was held that the bequest was valid.

COTTON PLANTED IN RHODESIA

Arrangements Made for Growing it in the Southern Part of Africa.

CAPETOWN, April 26.—(Special Dispatch to The Bee.)—The British Cotton Growing Association have accepted the offer of the directors of the British South Africa company, which will make possible the growing of cotton on a large scale in Rhodesia.

GIRLS' DREAMS OF DRESS

Cost and Quality of Clothing Regulated by Available Funds.

Schoolgirls of New York's wealthy families who are of the social-elect speed an average of \$200 a year for dress and would like to spend \$1,500; girls of families perhaps equally wealthy, but without equal social distinction, spend an average of \$300 and would like to spend \$1,100. These statistics are the result of studies by Miss Inez Weed, former dean of the woman's college of the University of Washington at Seattle, based upon investigation at the private school in New York City. Silk stockings at \$2 a pair; street suits at \$50 each; hand embroidered lingerie and similar articles go to make up the \$200 total spent. Hats at \$25 each, shoes at \$7; street suits at \$30 and evening gowns at \$100 are what the socially elect girls desire, she said, while the school minor social position get along with cheaper quality, although both the elect and outsiders drive to school daily in automobiles. In contrast Miss Weed cites figures showing that working girls manage to dress on an average of \$25 a year. The feminine machine is just as strong among them, however, as these girls would like to spend \$400 a year for clothing.

ROCKEFELLER HOLDS BACK

Believes Others Should Help the Fine New Church.

CONGREGATION TO GET A CHANCE

If the Fifth Avenue Baptists Build a Half Million-Dollar Edifice It Will Be When All Come Through.

BY D. B. FRANCIS. NEW YORK, April 26.—(Special Dispatch to The Bee.)—John D. Rockefeller can hardly be called a close man in matters which attract his interest and there is no denying his interest in the Baptist church generally and in the Fifth Avenue Baptist church, in which he is a communicant. This congregation is arranging to build one of the finest churches of its kind in this city and the idea has prevailed in some quarters that Mr. Rockefeller intended to stand the greater part, if not all, the cost of the new structure.

This idea, however, received a severe jolt recently when Rev. Charles F. Aked, pastor of the church made this announcement: "The building of the \$500,000 church for us is to be by a certain distinguished man of wealth in this parish, not by my means. Every one must contribute and when the structure shall have arisen to testify that this parish is not content with mediocrity, I will stand and many other great plans I have in view."

Be it understood that the reason Mr. Rockefeller will build the church is not because of unwillingness to give the money, but he believes that the spiritual power of the congregation will be greatly increased if the entire membership shall share in the building and be inclined to believe he is right in so thinking.

CHURCH GOING BY PROXY

Apparently conditions in England are not so different from those we are familiar with in the matter of church-going. A great deal of business is done by proxy and it is oftentimes a great convenience, but when it comes to fulfillment of obligation to the church of God it does strike one as a little incongruous for a man to expect his wife and children to attend to a duty that devolves upon the head of the family. When Bishop Ingram visited this country a couple of years ago, his vigorous manner and ringing eloquence when he addressed the throngs that were ever ready to listen when he was ready to speak made a great impression. We fancy that the following recollections will find a responsive echo in many an American breast. In the subjects introduced by the bishop in his Lenten mission addresses in certain suburban districts of London one was, "Home training in religion."

"How many men were content to say to the children, 'Now go off to Sunday school every Sunday evening and never attempt to go themselves' if the father was godless or a non-church goer, sooner or later the boys would follow in the same footsteps; and if for no other reason, but for the children's sake the men should sanctify themselves, and by prayer, Bible reading, recitation and the teaching of the father, bring religion into the home. The father represented God in the family, and he was responsible for the teaching of the love and fear of God, and if the fathers of the present day took more interest in the children, it would make a great difference in the religion of the home life, both now and in the years to come."

FREE PRESBYTERIAN PEWS

There is a strong movement in the Presbyterian church in this city to do away with pew rents entirely. The argument is that the renting of pews tends to create a class distinction in the church which keeps many people away because they cannot afford to pay as much as the pew holders and believe they are therefore looked down upon. Several of the churches have recently done away with pew rents and others are considering taking the step.

THE SLIM WOMAN IS WINNING

The day of the slim woman's triumph has arrived. "The thinner one is the more stylish," say the dressmakers. This would have been bad news for the fat woman a year ago, she would have had to try dieting or exercise. Nowadays, however, the woman who is too fat for the styles goes to a druggist and gets a case of Marmite Prescription Tablets, one of which she takes after each meal and at bedtime and so reduces her superfluous flesh quickly.

These tablets, being made in accordance with the famous prescription, are perfectly harmless, and they are also the most economical preparation a person can buy, for they cost only 25 cents a large case, one of which is frequently enough to start a person to losing fat at the rate of 12 to 14 ounces a day. Pretty nearly every druggist keeps this tablet in stock, but should yours be sold out, you can easily obtain a case by sending to the makers, the Marmite Company, 323 Farmer Bldg., Detroit, Mich.—(Adv.)

MADAME MANDO. Remove unsightly hair from any part of your body. Safe and reliable. Madame Josephine Le Fevre, 1200 Chestnut St., Philadelphia, Pa. Sold by M. J. Conroy, Drug Co., Omaha, Clark Drug Co., Council Bluffs.

You Don't Buy "Futures" When You Buy "Sectionets"

In the past every filing device—every section—has been made with much more capacity than you would probably use when you bought it. It meant good money invested in a piece of furniture non-productive of results. Whether you buy a \$1500 machine or just a simple filing cabinet, which doesn't begin to work all over the day you buy it, it isn't true economy.

"Sectionets" are the first big improvement in filing devices since the invention of modern business systems. We want to tell you more about these "little brothers" to Shaw-Walker Systems—we want to tell you why our whole reputation and standing in this community is back of them, why we know they are fitted to your needs, why you can no longer forego the installation of the modern office system you know you need.

We have something of interest to say also to the biggest business man—the man who thinks his present system fills all requirements. We can show you just how you can save money. Won't you come in and give us the opportunity, where every cent counts.

In addition to the above lines we carry the largest stock of high grade office DESKS, CHAIRS and TABLES in the West. We are making an unusual REDUCTION FROM REGULAR PRICES this month on all DESKS, CHAIRS and TABLES.

Omaha Printing Co.,

Phone Doug. 346; Ind. A-3451. 918-924 Farnam Street.

BAILEY & MACH DENTISTS. Best equipped dental office in the middle west. Highest grade dentistry at reasonable prices. Porcelain fillings, just like the tooth. All instruments carefully sterilized after each use. THIRD FLOOR. PAXTON BLOCK. Corner 16th and Farnam Streets.

BLISS TOWNSITE COMPANY Bliss, Idaho

Omaha's Mayor Hon. James C. Dahman

Says: "I Have No Hesitancy In Saying That I Believe That The Neal Treatment Will Cure Any Case of Drink Habit."

HIS HONOR IS RIGHT—IT WILL

CITY FOMAHA Executive Office JAMES C. DAHLMAN, Mayor April 12, 1910.

TO WHOM IT MAY CONCERN:

A short time after the Neal Institute Company had started operations here in Omaha, on South Tenth street, they undertook to demonstrate by treating an Omaha man that I had known for years and knew him to be almost a complete wreck from the drink habit, and seemed to me to be a hopeless case.

This man, after four days' treatment, told me that he had no desire whatever for drink and when liquor was offered him could not and would not try it.

Since leaving the Institute, after a treatment of four days, he has gone to work and is filling quite a responsible position, he is looking fine and tells me he never felt better in his life. From what I have seen in this particular case, I have no hesitancy in saying that I believe they can cure any case that they get a chance at. JAMES C. DAHLMAN, Mayor.

THE NEAL CURE: Omaha Institute, 1202 South Tenth Street. Institutes at Des Moines, Davenport and Sioux City, Iowa.

There's more than double tips in their favor. Fownes silk gloves fit. Perhaps you thought it was not possible to get a really good fit in silk gloves. Try Fownes; they fit like the Fownes kid gloves did last winter. Fownes began making silk gloves 64 years ago: Leather gloves 133 years ago. Yours is the benefit of this experience, at no extra cost. Of course they have double tips, with a guarantee in every pair and come in every possible length, size and shade. 50c, 75c, \$1.00, \$1.50. "It's a Fownes—that's all you need to know about a glove." Engraved Stationery. Wedding Invitations. Announcements. Visiting Cards. All current forms in current social usage engraved in the best manner and punctually delivered when ordered. Embossed Monogram Stationery and other work executed at prices lower than usually prevail elsewhere. A. I. ROOT, INCORPORATED 1210-1212 Howard St. Phone D. 1664.
