

**HOME MUST HAVE NAME**

New Young Woman's Association Exercised Over Title for Bungalow.

**MEN'S SUGGESTIONS SCORNE**

Women Realize that House on the Lake Front Without a Name Would Have No Social Standing.

Descending the soft silver stratosphere of Carter lake, where the inverted clouds chase each other across the inverted bowl of azure sky as the rushes and ortages nod in secret whisperings stands a bungalow, gay in green and white—a bungalow without a name.

There's the difficulty. Now, he it known that a bungalow on Carter lake has a claim to standing whatever unless it bears a classic name. A nameless bungalow on the lake can't get within speaking distance of the proud little cottages of three syllables and a hyphen. Since the nameless bungalow in the bungalow colony belongs to the Young Women's Christian association it just simply has to be named. That is what the rushes are whispering about, maybe.

The contest instituted at the Young Women's Christian association for the selection of an appellation to decorate the bungalow is getting rare results, but few satisfactory names. Mrs. C. G. George, head of the naming committee, is persistent in acting, but she really does not care for the masculine suggestion that the summer home be called "The Hen Roost."

Now absurd! So exasperating and impossible! Now, why can't folks be sensible and serious about things?

So the suggestions are coming in "Sun-ket" might do, but now they've planted a lovely little tree and it is supposed to be a shady resort, where one may lounge and loaf and make embroidery and things. "Lily-land" is too conventional and unattractively poetic for a Young Women's Christian association home. "Bird Cage" and "Fuchsia Orchard" won't do at all. "Buckery" suggests garrulous noises and "Camp Dalliance" is clear out of the run-able.

The bull frog sat on a lily pad. He slipped off into the lake and remarked, "Oh, splash me!"

**Salt Creek to Be Straightened**

Lincoln Delegation Comes to Omaha to Get Some Pointers on Dredging.

City Engineer Craig and Assistant City Engineer Campen on Saturday morning escorted a delegation from Lincoln to Carter Lake park to see the new dredge in operation. City Engineer Dobson of Lincoln and the Lancaster county commissioners comprised the party, and the object of the trip is to get pointers for a dredge that Lancaster county is contemplating buying to deepen and straighten Salt creek, the fussy, uncertain little waterway that every season creates more or less trouble for Lincoln, sometimes putting large stretches of territory under water.

**FAIR MAIDS WHO STAND SPONSOR FOR HIGH SCHOOL CADETS.**

MASONS AND BATTALION MAIDENS

SPONSORS FOR THE REGIMENT.

SEVERAL months of the last year of a girl's experience at the High school are made more or less anxious by the possibility of her being chosen to be sponsor for one of the cadet companies. This year, with the regimental organization, the interest was heightened by the fact that three majors had the privilege of choosing battalion sponsors. The position is not a sinecure, for, since the disbanded of "Company Z" all the military work on the feminine side falls on the sponsor, not the lightest feature being the entertaining of the company for which she stands. But the positions are greatly coveted and the girl who is chosen has a right to feel herself honored. The selections for this year are:

Battalion sponsors, from left to right: Mary Philippi, Charles Hoppert, Henrietta Gilmore, Barton Nash, Ruth Sheldon, George Gerb.

Captains and Sponsors, first row, left to right: Alfred Kennedy, Helen Miller, Clarence Patton, Mildred Marr, Chester Newman, Agelalde Funkhouser, Warren Howard, Ruth Gould. Second row: Alice Carter, Allan Tukey, Fannie Rosenstock, Hugo Heyn, Sarah Ayres, Chandler Trimble, Nellie

CAPTAINS AND COMPANY COMMANDERS

Elgutter, Milton Weeks, Beulah Besire, Calvin Davis, Elizabeth Doud, Lumir Buresh.

**The Shoes of the Season**

**O.K. SCOFIELD**  
CLOAKS and SUITS

**Do You Recognize This Signature Cut?**

For years it signified dependable ready-to-wear garments for women—and "a square deal."

- Dependable as to style
- Dependable as to quality of material
- Dependable as to value

Dependable as to "a square deal" as no one presenting a just claim was ever allowed to depart unsatisfied.

**O. K. SCOFIELD**

Announces that he will again embark in the Women's Apparel business, and hereafter the sign and signature cut will read:

**THE CUT PRICE CLOAK STORE**

Not "CHEAP Goods"—But "GOOD Goods" CHEAP

**Five Invaluable New Inventions SHOWN THIS WEEK IN THE GOOD STORES OF THIS CITY**

Three Great Features—"Lastikops Bandlet," "X-Uspender," and "Solid Service System"

Alert merchants realize that the quickest and surest way to build up a great corset trade is to keep their customers in close touch with Nemo Corsets.

Therefore, the best dealers everywhere have prepared for "Nemo Week" by securing full stocks of all the old Nemo favorites as well as the latest Nemo novelties, and are now ready, with us—

**TO PROVE**—the SUPERIORITY of Nemo Corsets over all others; that each model is a DISTINCT PATENTED INVENTION, performing a definite hygienic service.

**TO PROVE**—that all Nemos are constructed on scientific principles, with tangible health-giving features, producing beneficial results that NO OTHER corsets can POSSIBLY give.

**TO PROVE**—that the Nemos are the only corsets in existence that combine the UTMOST COMFORT with absolutely correct and ultra-fashionable shape.

**TO PROVE**—that it is TRUE ECONOMY to buy Nemo Corsets, because they represent better value, are made of better materials, have greater durability and will wear longer than any other corsets.

**Corsets for Stout Women**

The fame of the Nemo "Self-Reducing" Corset is world-wide—it STANDS ALONE. This year we have fifteen different models, a perfect fit for every type of stout figure.

**Self-Reducing Corset No. 522** \$5.00  
With "Lastikops" Bandlet

A marvelous success, and the greatest figure-reducer ever made. Worn by slender women, also. The semi-elastic "Bandlet" gives perfect support, with absolute comfort and safety. See it!

**Self-Reducing Corsets \$3.00, \$4.00, \$5, \$8 and \$10**

All the old favorites, which still suit many women best. Medium styles, for women who dislike extremes; and the very long models which produce ultra-fashionable slenderness.

**For the Slender and Medium**

Many women think that all Nemos are for stout figures. We hope to dispel that idea during this Nemo Week. Our slender models have features just as valuable as our stout models. For example:

**Nemo "X-Uspender" Corset—\$5.00**  
Entirely new. Flattens the abdomen, back, hips and upper limbs; and the front steels CAN'T stick out below. It's a WONDER!

- Nemo Back-Resting Corsets, \$3.50
- Nemo Military Belt Corsets, 3.00
- Nemo Swan-Shape Corsets, 3.50
- Nemo Solid-Service Corsets, 2.00

Don't miss Nemo Week! See all the new Nemos—it's not only a pleasure, but a duty which every woman owes to herself.
