GRAIN AND PRODUCE MARKET

Bulls Refuse to Consider Influence of Rains.

PRICES ADVANCE STEADILY

While Nebraska and Kansas Get Rains, Eastern Reports Are Unfavorable—Corn Follows Wheat Upward.

OMAHA, May 7, 1910.

The heavy rains received in Nebraska and Kansas were not considered bearish by leading bulls.

Crop reports from east of the Mississippi river are not encouraging. Buying is more general on unfavorable crop news and prices are steadily advancing.

The corn market lacked news, but prices were steady and higher in sympathy with wheat and good cash conditions.

Wheat opened strong and covering by shorts and the strength of cash wheat easily sent prices up again today. News is favoring the bull side and a bull market is expected next week, when government figures are issued.

Corn firmed up with the advance in wheat. The market was featureless, with the exception of the renewed buying by cash handlers and outside trade. Cash offerings were sold readily at yesterday's level.

Primary wheat receipts were 229,000 bushels and shipments were 84,000 bushels, against receipts last year of 178,000 bushels and shipments of 201,000 bushels.

Primary corn receipts were 252,000 bushels and shipments were 530,000 bushels, against receipts last year of 277,000 bushels and shipments of 364,000 bushels.

Clearances were 85,000 bushels of corn, none of oats and wheat and flour equal to 117,000 bushels.

There was no market at Liverpool on account of the death of King Edward VII.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, May 7.—Short sellers were on the run in the wheat pit today. Leading longs had the whip hand, forcing covering on stop-loss orders and doing considerable in the way of taking profits. The deferred futures closed 1@1½c to ⅝c up, and May 1⅜c. Corn finished unchanged to ⅛c off, and oats unchanged to a shade higher. Provisions showed 10c loss to 2½c gain.

Except for a trace of easiness, which came at the outside and was due to fine rains in the winter wheat country, a condition of nervous strength prevailed from start to finish. In the last half of the session the bears were in a semi-panic. Liverpool was unofficially higher, the Michigan crop report noted a condition 2 points lower than a month ago and the prospects were for a decided decrease. Anxiety as to the government report Monday regarding diminished acreage was without any indication of letup and kept the bears in misery. The stock of contract wheat held here in public and private houses was reported to be not more than 2,500,000 bu. September sold between $1.02⅞ and $1.03⅝, closing at $1.03¼@1.03⅜, a net advance of 1@⅞c.

Corn scored a fairly good early advance. The May-July difference is now under 2c, as against a trifle more than 4c a week ago, when there was liquidation because of expected large deliveries. Cash corn has steadily gained in strength since. The week's receipts here were about 1,500,000 bu. less than the shipments. The cash market today was about steady. No. 2 yellow, 63@64c. September ranged from 62¾@63⅝c to 64¼c, and closed easy at 63⅞c.

Oats were a trifle firmer, helped by the advance in wheat. Trade was at a minimum. September fluctuations kept within ¼c and the option closed at 38⅝@39c, precisely last night's price.

Provisions: Pork was 7½@10c down, lard 2½@5c up and ribs 2½@5c lower.

WEATHER IN THE GRAIN BELT

Excessive Rains in Missouri and Kansas, General Rains Over Valleys.

OMAHA, May 7, 1910.

The barometric depression, noted in the southwest Friday morning, moved slowly northeastward during the last twenty-four hours, and is central over the lower Missouri and middle Mississippi valleys this morning. This disturbance is causing continued unsettled weather in the central valleys, and rains are falling this morning along the lower Missouri river and east over the middle Mississippi and lower Ohio valleys. The rains of the last twenty-four hours were general over the valleys, and excessive rains occurred in Missouri and eastern Kansas. While no heavy falls occurred in Nebraska, the rains were general over the state, and were well distributed. The weather remains generally cloudy west of the Missouri river to the mountains, but it has cleared in the mountains and west to the coast. Temperature changes have been slight and unimportant over the plains states, but they are higher in the eastern and southern states; in the extreme northwest and on the Pacific slope. The weather will be warmer in this vicinity Sunday, with fair tonight and Sunday.

The following shows the temperature and precipitation for the last three years:

	1910.	1909.	1908.	1907.
Minimum temperature	45	45	38	43
Precipitation	.22	.00	.00	.00

Normal temperature for today, 60 degrees.

Deficiency in precipitation since March 1, 2.58 inches.

Deficiency corresponding period in 1909, 3.18 inches.

Deficiency corresponding period in 1908, 2.69 inches.

Foreign Financial.

PARIS, May 7.—Prices on the Bourse recovered and closed strong upon the theory that with King Edward's death the worst was over and also on a rumor that the liberals had decided to postpone the House of Lords issue to next year.

NEW YORK STOCKS AND BONDS

Death of King Edward Has Little Effect on Prices.

PLAN TO CLEAR FINANCIAL SKIES

Bankers Take Large Blocks of Railroad Securities to Be Placed at Home and in Europe.

NEW YORK, May 7.—(Special Telegram.)—The news of the serious illness of King Edward in the middle of the present week had a more serious effect upon the stock market than his death. It was believed that the turn for the better which the market took in the middle of the week was a substantial one.

The railroad financing abroad and the rise which accompanied the news here took a large part of the bear section by surprise and it was obliged to retreat, although it attempted to take refuge in the news of King Edward's illness and death. The bear party is supposed to have suffered heavy losses.

The placing of great bond issues abroad means the clearing of financial skies in the United States. Financial men believed there could be no genuine confidence in the future until a condition had been reached where there was a market upon which railroads could sell their 34 per cent bonds to an advantage. In the last two years the bond market in this country has been so narrow that the placing of 4 per cents here meant nothing, if not a loss to the companies issuing.

It was announced after the close of the Stock exchange today that Kuhn, Loeb & Co., and Speyer & Co., jointly had purchased from the Baltimore & Ohio $40,000,000 three-year 4½ per cent notes and that they will be placed by bankers here and in Europe. These notes are part of a $50,000,000 issue of which $10,000,000 is being reserved.

On the weeks' currency movement New York banks gained $7,068,000. On transfer operations with the international banks there was a net gain of $7,068,000, but a loss of $6,226,000 on sub-treasury operations. No gold exports.

Out of respect to King Edward the stock market was in session only an hour today. The opening was generally higher. Southern Pacific advanced ¾ on initial sales. This helped Union Pacific, which immediately ascended ½. A wide opening occurred in steel prices ranging from 51¾ to 52¾, but closed higher. Trading turned dull after thirty minutes trading, with a slight decline. Southern Railway issues were stronger on rumor that dividends would be resumed on the preferred stock. The sales were 261,034 shares.

Money on call was nominally 4 per cent. Sterling exchange was strong, ¾ per cent higher today. All bonds were firm.
