is not strange that some criticisms have been made of the Omaha team and President Rourke this early in the season, but we believe the time me not come for severe judgment In the first place the season is young and Omaha has a good chance to lead as the team that now is on top. In the next place it is very obvious to intelligent fans that John has been to but twenty-sevthe men "laid down" on Billy Fox and that and has made ten hits and thre since President Rourke himself has taken Shotten is the next high Rourke w the club in hand it is showing much better form. # S.S.S. BEST SPRING TONIC

Every one should take a tonic in the Spring; our systems require The change in the seasons produces a like change in our bodies, and more is required of the blood, from which source we receive physical nourishment and strength, at this particular time than at any other.

Almost every one feels bad in the Spring. Some have no particular sickness, but are debilitated, run-down and weak, and their systems are in a general state of disorder. This deranged condition of the health is due to weak, anaemic blood; the circulation is infected with pitchers of average curve, but Rusie's Then as a most important preliminary impurities which have diminished its natural nourishing powers, and curve was too sharp in the break and too treat, where we can get the necessary the body is suffering from deficient blood nutriment. The refuse and impurities which naturally accumulate in our systems are not properly expelled in Winter, because those members whose duty it is to perform this work of drainage do not receive sufficient stimulation from outdoor exercise, and therefore grow dull and sluggish in their action; nor is nervy man again at the plate, and it was Alson Cornell and Harvard meet in a pre- the skin as active in eliminating waste maters in cold weather because the pores are not so open as in warm seasons.

These Winter accumulations pollute the blood and largely destroy its nutritive qualities, and when Spring comes, and everything takes on new life, and we change our method of living, the circulation is so face first against the concrete bottom of an empty swimming tank. The man is a marvel of vitality and energy. He sustained two shocks that would have killed us with regattas that last from the beginlassitude, etc. There is a constant worn-out feeling, sleep is not refreshing, and we do not feel able to perform the ordinary duties of daily life. This disordered condition demands the use of a tonic, and it should be one which has the additional qualities of a first class blood purifier, for to restore health and strength the blood must be pure.

The healthful botanical ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they build up and strengthen every portion of the body, make it the best of all Spring tonics. S. S. S. is Nature's medicine, free from strong mineral mixtures and made entirely of the healing, cleansing juices and extracts of roots, herbs and barks; a safe and pleasant tonic for persons of any age.

S. S. S. is not only the best Spring tonic but its ability and worth as a genuine blood purifier is universally recognized. It builds up the depleted system in the true way, by purifying the blood and supplying an increased amount of nourishment to every portion of the body. S. S. S. removes all accumulations from the circulation, enriches and purifies the blood and overcomes the unpleasant physical ailments that always come with Spring. It rids the body of that tired feeling, improves the appetite, reinvigorates every fibre and tissue

### PRETTY GOOD EVIDENCE.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. From 139 pounds to 165 is pretty good evidence of merit on the part of S. S. S., and as to my appetite, it is superb. My system and general health have been wonderfully built up, and I do not hesitate to give S.S. S. the credit for H. MARTIN. 50 Second St., Warren, O.
