### JEFFERIS HAS A NEW TITLE

Official Handshaker as Well as Official Talker on Trip.

### BOOSTERS ARE NEARLY READY

Will Show the People of South Dakota and Nebraska the Advantages of Doing Their Graduating in Omaha.

A. W. Jeffers, who is official orator for the trip, has additional honor, for he has been selected as the official handshaker for the trade boosters on the trip planned for next week. He will have a variety of titles, but in reality he is to be chairman of the committee, which will meet all visitors to the train while en route.  
The boosters' train is fast taking shape and the necessary cars will be all ready for the trip. The twelve-section drawing room car "Englewood" will be used by Chairman C. S. Hayward and Commissioner J. M. Guild as headquarters. The entire train will be assembled and left at the Union depot park, just west of the viaduct, by 5 o'clock Sunday afternoon, in order that visitors will have an opportunity of going through the train which will carry the boosters on the 2,500-mile trip.  
A rule will be enforced preventing the throwing of advertising matter from the car windows after the train is in motion, so as to avoid any possible accidents. Arrangements are being made for a sacred concert at Hot Springs by the Boosters' band on Sunday, the 23d.  
The object of the trip will be set forth in the following words in the trade excursion booklet:  
"Omaha gives you greeting and asks that you come to visit with her. She offers you the welcome of a city born of the west and nurtured in that spirit of hospitality that knows no boundaries. She offers you the advantage of all that modern methods

in commerce and industry can do to facilitate the interchange of commodities between men and to serve society while supplying its daily needs. Omaha is a modern city in every way; she has everything that goes to make a modern city a source of service to the people who depend on it. Her citizenship is of the highest type, energetic, thrifty and progressive. Her markets can care for all the products of the territory surrounding; her packing houses afford accommodation for its live stock; her jobbers can supply the retailers and her factories furnish the finished goods ready for the consumer; her banks will serve the needs for ample funds to carry on all the business, and her hotels will luxuriously house her visitors. Her schools and churches are splendidly equipped to minister to man's intellectual and spiritual wants and the social nature of her residents is of such makes pleasant the stay of every sojourner within her gates. Omaha seeks closer and better relations with her neighbors and asks all to come and see and be convinced. That is why we are with you."

### Larson's Virtue Its Own Reward

Claim of Man Who Turned Over Money Found on Corpse is Rejected.

Virtue must be its own reward in this case.  
Some time ago Alfred Larson, an old soldier at the county hospital, was assisting in preparing the body of Hugh McKay, another patient, for burial, and found on his person \$32. He was honest and turned in the amount to the coroner. For this honesty he filed a claim against the estate for \$32.  
Friday morning, being in May and the 15th, Judge Leslie decided that he could not allow the claim. Thus virtue is its reward received by Alfred Larson.

### HILL TO SPEND MILLIONS

Nebraska to Get Good Share of Large Sums Contemplated.

### PLANS MANY NEW STATIONS

Over Two Hundred Miles of Main Line Track to Be Relaid with Much Heavier Rails in the Near Future.

Speaking of the \$30,000,000 which is to be expended during the present year by the Burlington, G. W. Holdrege, general manager of the road, said that a goodly portion of the money would be expended in the state of Nebraska.  
"We are to build new passenger stations at Holdrege and Grand Island," said the general manager, "which will cost in the neighborhood of \$2,000 each. A new station will also be built at Peru and the new freight house in Omaha has already been announced. The road plans to build a line from Hudson to Greeley, a distance of about thirty miles. Fully 200 miles of track west of the Missouri is to be relaid with the new ninety-pound rail, which will necessitate a big expenditure of money.  
"About \$10,000,000 will be put into new rolling stock and the western lines will get their share of this new equipment. The management intends to improve the whole system, and what affects one portion will also be a benefit to the other parts of the road, gaps will be filled and the new route through the Big Horn basin will be completed, as previously announced."

### CAR ROBBER LEAVES WATCH

Klassen's Timepiece is Found Tied on the Trolley Rope on End of Car.

"Mike," the car robber, decided that he could not use a watch which he took from C. M. Klassen, 2308 Ohio street, on a Dodge street car. The jeweled timepiece was found hanging on the trolley rope below the hand rail on the rear of the car, when James Eilers, conductor, walked around to reverse the trolley at the end of the run.  
Klassen was robbed Thursday and reported the loss of his watch to the police. It has been sent to the station by the car company and will be restored to the owner.

### Cynical Remarks

There are lots of better actresses off the stage than on.  
The girls who have the most cheek seldom use it in blushing.  
Many a self-made man had pretty poor material to begin with.  
Many a family tree would make mighty poor lumber.  
Any man can fool a woman, provided she doesn't fool him first.  
Love frequently starves to death trying to see how little it can live on.  
The way for a man to make a girl stop running away from him is for him to stop chasing her.  
Public abuse demonstrates that a man may be literally kicked into prominence.—New York Times.  
The excruciating pains from corns or bunions may be avoided by applying Chamberlain's Liniment.

### President Nash Not Ready with Light Statement

Returns from the East, but Defers Franchise Discussion Until Saturday Morning.

Fred A. Nash, president of the Omaha Electric Light and Power company, returned Thursday morning from Philadelphia, where he went to confer with the eastern men interested in the company relative to the situation that has arisen through the recent decision of the court of appeals at St. Louis.

"Having had no opportunity to consult with our attorney since returning, I have no statement to make today," said Mr. Nash. "Tomorrow I expect to have a statement ready, defining the position of the company and what we shall ask the city council to do concerning the rights of the company."

"Unlike many other concerns of one kind and other, this company has never had a serious controversy with the city of Omaha and we do not expect to begin quarreling now. I feel the council wants to do the right thing and I know the company does. Consequently I am not expecting any great difficulty in reaching an agreement that will be mutually fair."

Mr. Nash indicated that if the company is to be in a position to sell bonds in the eastern market, for extensions and betterments, it must have a franchise or license covering a substantial term of years, and intimated any term shorter than fifty years would not be considered fair to the interests of the electric light company.

### Maid Killed by Escaping Gas

Young Woman Found Dead in Bed with Gas Jet Open—Probably an Accident.

Anna Bloomberg, a maid employed at the home of Herman Fricke, 2835 Charles street, was found by her employer unconscious in her room at 7:30 Friday morning after he had detected gas fumes escaping from her room.

Mr. Fricke burst open the door of the woman's room and found Miss Bloomberg lying unconscious on her bed. He summoned Dr. Lucke and the police, but the woman died after the physician had worked over her for half an hour.

After an investigation by the police and the coroner it was thought the woman's death was due to an accident. Two gas jets were discovered so near together that when one was turned off, the other could be turned on without difficulty. It is thought that Miss Bloomberg turned off the lighted jet and in doing so opened the one near it. According to information given to the police, the young woman was in good health and spirits and no reason

### Hadley of Yale Passes Up Omaha

Head of Great Eastern College Unable to Arrange for Stopover to Speak Here.

Superintendent Davidson kept the wires warm Thursday and Thursday night trying to get President Hadley of Yale to stop off in Omaha on his way to the coast, but without success. Dr. Davidson was hoping to secure President Hadley to speak to the high school students and also take

### Explosion on German Battleship

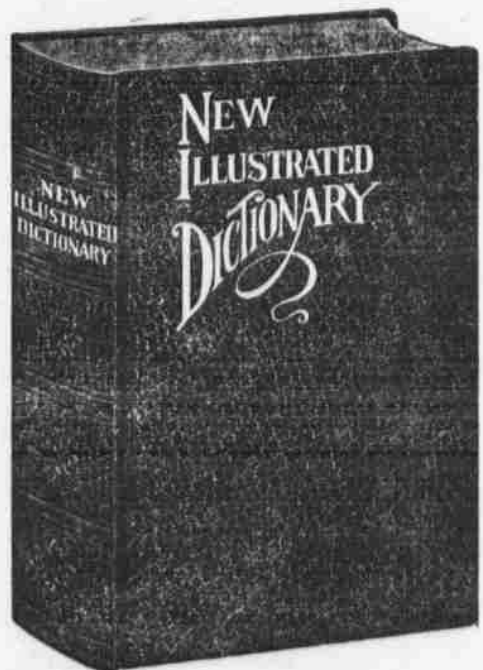

BERLIN, May 13.—Last night's reports from Wilhelmshaven that a fatal explosion had occurred while the mine laying division was manuevering off the coast, was officially confirmed today. Five blue jackets were killed and two others injured.

### See Want Ads will boost your business.

can be ascertained for an attempted suicide.  
The deceased was 17 years old and came to Omaha from Stanton, where she leaves her parents, Mr. and Mrs. Carl Bloomberg, and two brothers and two sisters. The relatives have been notified of the girl's death.  
The coroner took the body to the morgue and an inquest will be held.

### Can't get a trip through the parks and boulevards, but at midnight he received a telegram from the Yale man that he could not stop.

President Hadley passed through Omaha at 7:15 this morning.  
"Being disappointed in securing President Hadley, I arose at an uncomfortable hour during the night to see Hadley's car," said Dr. Davidson. "I want to see that comet as it grows, and it is really a sight worth seeing. As I viewed it I couldn't help smiling over the astronomical mixup that occurred when that other celestial visitor showed up unannounced and by faintly swagging along the horizon made a lot of people think they were in spiritual communion with Hadley's exhibition. The sky is so high, wide and wonderful, however, that a little thing like that ought not to astonish us."

## The New Illustrated Dictionary

Literary, Scientific, Encyclopedic, Pronouncing and Defining

Based on the Latest Authorities.

Together with a Brief History of the English Language, Foreign Words and Phrases, Abbreviations Used in Printing and Writing, Christian Names of Men and Women, General Rules of Punctuation, Brief Business and Letter Writing Forms, Table of Weights and Measures, Statistics of States, Rules of Order, Legal Holidays, Postage and Postal Regulations, Patent and Copyright Laws.
