BALLINGER AND PINCHOT

Secretary Makes Further References to Cabal Against Him. REFERENCE TO ANOTHER PLOT Mr. Pepper Introduces Letter and Clipping Showing that Secretary Collected Affidavits Against Forest Service.

WASHINGTON, May 13.—In concluding his cross-examination of Ballinger today, Attorney Pepper, counsel for Gifford Pinchot, introduced a letter written by Don M. Carr, Mr. Ballinger's private secretary, and printed as an advertisement in the Montgomery Times of Mount Ida, Ark., reading as follows:

It is suggested that an congress probably will at an early date make an examination of the management of the forest service by the committee having charge of the investigation of which Hon. Knute Nelson, United States senator, will probably be chairman.

Answer to Nelson.

The letter and editorial were introduced by Mr. Pepper in answer to a statement made yesterday by Chairman Nelson that he had received a large number of complaints against the forest service. Secretary Ballinger said he knew nothing about Mr. Carr's letter which bore date of January 2, last, but on direct examination he said he had received a letter from the editor of the paper late in December stating that there were many complaints in that locality against the forest service.

Long Statement by Ballinger.

We won't think of his pocket a long resume which he said would show the existence of the conspiracy to remove him from public life. The resume had to do with various portions of the testimony during the present investigation and concludes as follows: "The evidence introduced in the present investigation by the so-called prosecution was all put in by the 13th of March, last, and since that time evidence has been introduced by me before the committee.

Men in Alleged Conspiracy.

"Pinchot admits that I am an obstacle in the way of the conservation movement which 'we proposed to remove,' said Mr. Ballinger, 'and admits that Garfield and Glavis and he are a part of the 'we.' He spoke of Pinchot's alleged statement to George Otis Smith in which the forester was alleged to have called Ballinger a 'yellow dog.' Mr. Ballinger said Pinchot had denounced him thus because he had overturned some of Garfield's work.

Not the Same.

"Mother," queried the pretty daughter, "did father have his salary increased when he married you?" "No, dear, answered the mother. "But much as I am getting." "Only \$9 a week." "I suppose he had a lot of money saved up, didn't he?" "Not a dollar, he spent his money as fast as he earned it."

Earthquake Opens Graves.

SAN JOSE, Costa Rica, May 13.—A household men have been put to work on the ruins at Cartago to recover the bodies of the remainder of the earthquake victims as quickly as possible, fears being entertained of the outbreak of sickness.
