Gentlemen:-

Having just returned from California on a tour of investigation of your proposition and the eucalyptus timber industry generally, I want to thank you most heartily for my very enjoyable trip and to say to you that you did not describe this industry half strong enough. You were too conservative. Every statement you made to me I found on investigation, to be true, but you told me less than the truth, not more. Estimates of the growth of the eucalyptus and of the value of the timber made by you were far below the actual figures.

I found your lands to be particularly adapted to the successful growth of the eucalyptus trees. I never saw finer soil and I believe for any purpose they are easily worth \$200.00 per acre in the raw state.

I am more than pleased with my purchase of 100 acres of your lands and shall be very glad to recommend your proposition to my friends and to all others who may inquire of me in regard to it.

Again thanking you for my pleasant trip, I am  
Very truly yours,

*Alma Jackson*

We will have a special car attached to the Union Pacific Overland Limited train, leaving Omaha at 8:00 a. m. Wednesday, June 1st.

Those having limited time can make the round trip in ten days. Those who wish, may have 5 months return limit in which to visit and view the scenic beauties of California, returning at their pleasure.

### WILL YOU GO WITH US? What We Claim

And Want to Prove To You:

An acre of Eucalyptus timber land will produce \$2500 in ten years time, based upon present price of hardwoods and government reports regarding rapidity of growth.

If we CAN prove this claim, YOU will want to buy. If NOT, WE do not want you to buy. In either case, we "pay the way" for your trip of investigation.

Call at our office for full information.
