WALKER SAYS SAW ERDMAN

Neighbor of Dennison and Daughter Say Prisoner Was Near House.

CLAIM SAW HIM SATURDAY

Photograph of Ex-Convict of Colorado Prison Thought to Be Erd-Man Not Yet Received—Prisoner Still Denies.

Charles Walker, who lives at Fifteenth and Yates street, and his daughter Wednesday afternoon positively identified Frank Erdman, arrested in connection with the frustrated infernal machine outrage at the residence of Tom Dennison, 1507 Yates street, as a man they saw Saturday evening in the vicinity of the house. They also say that the grip is similar to the one the man was carrying.

Walker came into the case Wednesday morning, following a telephone message to Chief Donahue. The identification took place when Erdman was among a number of other prisoners confined in the city jail. "That's the man," said Walker, pointing to Erdman, when he and the other jail charges had passed in review. His daughter was equally sure. They said they saw him over the hill in the direction of Dennison's residence.

Chief Donahue has not yet received the photograph of the ex-convict, Frank Brinkman, from Canon City, Col. He expects to have it tomorrow.

Dennison Wednesday offered a reward of $500 for information that will lead to the apprehension and conviction of the person or persons who placed the infernal machine at his house.

Erdman Denies Statements.

Erdman absolutely denies that he had admitted to any police officer or any reporter that he had been a convict in Colorado or that he had made any confession whatever.

Elmer Thomas, attorney for the Anti-Saloon league was at the station to see Mr. Erdman Tuesday morning, but he said that he did not know whether he was to defend him or not as he had come simply in response to a request from Erdman. Rev. J. M. Leidy was also at the station.

Upon looking at Frank Erdman, the prisoner at the police station, Mrs. Dennison, wife of the man whose home was jeopardized by the infernal machine, declared she did not think Erdman was the man she had seen near the premises. Mrs. Dennison furnished the clue Monday that she had seen a strange man pass her house and leave an apple near the porch. Examination of the apple, she reported, had shown it to be perforated with queer looking black pinholes. It was destroyed.

Mrs. Dennison first identified the published pictures of Erdman as the mysterious stranger who had deposited the apple near her porch a few days before. At the station, however, she declared Erdman seemed to be altogether a different man than whom she had seen before.

Dennison is Certain.

Other visitors at the city jail in connection with the dynamite setting were Messrs. Dennison, Thomas and Leidy. Mr. Dennison declared himself morally certain that Erdman was the man who had set the fiendish trap to destroy the Dennison home and family.

Mr. Thomas maintained his belief that Erdman had not been directly implicated in the bomb setting and that the man's past record, so far as he knew, had been a good one. He said a competent attorney would be assigned to defend the prisoner, but that he did not know who the attorney would be.

Captain Dunn announced that the latest line of investigation being followed by the police Tuesday was the origin in the city of the suitcase used for the dynamite contrivance. It was learned, he said, that the grip was of a peculiar size and variety, the like of which is not handled by any merchants of Omaha. The grip was made by the Romadka Bros. company of Milwaukee, Wis., and is designed with double straps and double locks. It was twenty-six inches long, two inches longer than the usual make of suitcases.

The other three were James Johnson, Ray Morton and Harry Perrine.

The men were charged with robbing the residence of Morris Levy in their hearing Tuesday morning. A third complaint charging they figured in the robbery of the Pray Clothing store will be filed against the men, according to the prosecuting attorney. Ball Games Good, Declares Mayor of Milwaukee

Sport Keeps Boys from Saloons, Says Wisconsin Socialist Leader to Minister.

MILWAUKEE, May 24.—"While you are fighting for some theological dogma, our boys and girls are going to hell," declared Mayor Seidel, in an address before the Milwaukee Ministerial association.

During the discussion and immediately after, Mayor Seidel had remarked that when a boy is offered a base ball ticket he will shun the saloons. A minister declared that he would not trust his boy to attend a base ball game because intoxicants were sold on the grounds.

"They'll manage to drink somehow," said the minister.

"Then it is up to you," replied the mayor, "to cultivate and develop a better taste." One of the ministers declared there was no need of trying to give the boys "good wholesome amusement when the nickel theater downtown catered to their baser passions."

"The thing for us to do then is to compete with the nickel theaters," replied the mayor. "Have a moving picture machine right in the school house."

Doctor Fasts to Prove His Theory

Physician Follows Upton Sinclair's Anti-Eating Plan for Eight Days and Feels Fine.

NEW YORK, May 24.—After a fast of eight days, Dr. Gustav A. Gayor finds himself sixteen pounds lighter, but stronger, he says, clearer in mind and with better memory and eyesight. He will consult an oculist for an opinion on the improvement of his eyesight.

The doctor sleeps out of doors and drinks water freely. He acknowledges that for the first days the smell of cooking drove him out of the house, but says that harder still he found the deprivation of tobacco. He used to smoke ten cigars a day. His hair has stopped falling out and he thinks it is turning darker.

Throughout the test, the doctor has continued his daily exercise and his lectures. He undertook the fast to study the influence of auto-suggestion on the body, and is so pleased with the results that he says now he will prolong his fast to fifty days instead of thirty, as at first planned.

Physicians will watch him for any dangerous impairment of vitality and should such be noted the fast will be discontinued.

TAFT SEES HALLEY'S COMET

President Views Traveler of the Skies Through Telescope at Naval Observatory.

WASHINGTON, May 24.—Through the big twenty-six-inch telescope at the United States Naval observatory, President Taft last night for the first time saw Halley's comet. Having kept in close touch with its movement the president was much interested in observing it tonight, although on account of the clouds and haze, not much of the tail was visible. President Taft showed more interest in Jupiter, the moon and some of the other heavenly bodies than in the comet.

In his party were Mrs. Taft, Charles P. Taft, John Hayes Hammond and General and Mrs. Clarence R. Edwards. Former Senator Stephenson of Wisconsin saw the comet tonight for the second time in his life, having seen it while in Maine, seventy-five years ago, when he was only 6 years old.

BRUCKER NAMES COMMITTEES

Will Present His List to the Council for Approval.

INSURGENTS ARE GIVEN RAP

Funkhouser, as Chairman of Finance Committee, is Replaced by Sheldon—McGovern Keeps His Old Job.

President Brucker has made up his list of new committees, which he will this evening submit to the city council for approval.

Funkhouser, who has been chairman of the committee on finance, is replaced by Sheldon as chairman, and Johnson takes the place of Funkhouser on the committee Funkhouser was one of the two democrats voting against Brucker for president. Bridges, the other democratic insurgent, retains his place as chairman of the committee on fire, water and police.

McGovern, the third democrat not in the controlling combination, is also allowed to remain as chairman of the committee on street improvements, and Funkhouser replaces Davis as the third member of this important committee. Hummel, also a member, could have had the chairmanship of this committee if he wanted it, but he insisted McGovern should be retained.

Davis succeeds Kugel as chairman on paving and sewerage, and Kugel becomes chairman of sidewalks, crosswalks and bridges. Burmester, retiring president, takes Brucker's place as chairman on railways and viaducts, and Schroeder succeeds Davis as head of the committee on telegraph and telephones.

The lighting committee, at this time a very important one, will be headed by Johnson, who succeeds Sheldon, and Burmester takes Funkhouser's place as second on this committee. Funkhouser is put at the head of the committee on public property and buildings, formerly held by Johnson.

The committee on rules is entirely new in personnel, with Brucker as chairman and Sheldon and Davis replacing Bridges and Funkhouser.

Following is the new list of committees, which may or may not create a little argument at the meeting tonight:

Judiciary—Berka, Hummel, Johnson, Burmester and Sheldon.
Finance and Claims—Sheldon, Johnson and Berka.
Paving and Sewerage—Davis, Schroeder and Funkhouser.
Street Improvements—McGovern, Hummel and Funkhouser.
Telegraph and Telephone—Schroeder, Bridges and McGovern.
Railways and Viaducts—Burmester, Kugel and Johnson.
Fire, Water and Police—Bridges, Schroeder and Davis.
Street Lighting—Johnson, Burmester and Davis.
Public Property and Buildings—Funkhouser, Kugel and Brucker.
Parks, Parkways and Boulevards—Hummel, Berka and McGovern.
Sidewalks, Crosswalks and Bridges—Kugel, Schroeder and Davis.
Rules—Brucker, Sheldon and Davis.

Doctors Loveland and Standeven Save Will Dole from Death by Poisoning.

Police Surgeons Loveland and Standeven Monday night interfered with the hand of death. Dole boards at the address mentioned with John Shafer.

The doctors had a stiff fight, but after about twenty minutes they were successful and Dole was left in charge of Mr. Shafer. It seems that he has been worried by domestic troubles. He is a Canadian and appears to have left his wife and child in that country.

Dundee Woman Alleges Her Husband Is Perpetrating Disagreeable Stunts.

According to the affidavit, after Place had been enjoined from molesting his wife, he wrote notes to her by mail. Then, possibly that she might not open the letters, he wrote more notes and pasted them on furniture in the house. Still later he wrote notes on hen's eggs and sent the eggs to his wife, so she says.

Tariff Board Loses Out in Expense Fund

Proposed Appropriation Stricken from Sundry Civil Bill by the Lower House.

WASHINGTON, May 24.—After an extended debate, the proposed $250,000 appropriation to defray the expenses of the tariff board, recommended by the president, was stricken from the sundry civil appropriation bill in the house yesterday. This action resulted from a decision by Representative Mann of Illinois, who was in the chair, sustaining a point of order made by Mr. Fitzgerald of New York, who contended that there was no law authorizing such an appropriation.

In order to meet the objection to the tariff board on the part of many democrats and some republicans, Mr. Tawney proposed another amendment, which appropriated $250,000 practically for the same purpose, with the added provision that it was "to enable the president to give to congress information of the state of the union and recommend to their consideration such measures as he shall judge necessary and expedient."

Under this wording of the measure, it is understood that the president should send to congress any information which may be collected under the proposed legislation. By leaving out the president, all reference to the tariff board, which already exists, it was hoped that the provision would come within the rules of the house and would not be subject to a point of order.

Representative Fitzgerald promptly made a point of order against the new amendment and pending his argument upon it the house adjourned until tomorrow.
