The Perfect Automatic Refrigerator

We make the assertion that the "Automatic" is the most satisfying household refrigerator. American ingenuity has yet devised. There are eight distinct walls of insulation which maintain an even low temperature, reducing ice consumption to the minimum. The illustration points out the method of construction. The cabinet is of kiln dried oak wood with mortised joints and perfectly tight.

The food chambers are white enamel lined and have adjustable perforated shelves. There's a porcelain lined water cooler enclosed which is filled from the outside. Does away with the old chopped ice method.

These are the best selling sizes, although we carry larger ones in stock. Special prices of interest:

Size 33x18x42, usual price \$29.00..... **\$23.85**
Size 36x19x44, usual price \$33.00..... **\$27.85**

KHARAS IS FOUND GUILTY

Jury Returns Verdict on One of the Three Indictments.

NOTICE OF APPEAL IS GIVEN

Lawyers Propose Further Fight Against Charge of Using Mails to Defraud in Promotion Scheme.

Theodore Kharas was Wednesday morning adjudged guilty on one indictment and three counts of using the United States mails in a scheme to defraud. The case has been on trial for nearly four weeks in the United States district court.

Kharas was indicted under three separate indictments, all of which are of the same general character, a scheme to defraud and using the United States mails in furtherance of the scheme. The jury returned a verdict, under instructions of the court, of not guilty as to one of the indictments. A disagreement was had on another of the indictments, but a verdict of guilty was found as to the second indictment.

The jury went out at 10:30 Tuesday morning, and did not reach an agreement until 10 o'clock Wednesday morning.

Kharas was visibly seriously disappointed over the verdict, as he had expected a complete acquittal.

The verdict on a single indictment is just as drastic as if the defendant had been found guilty on each of the three indictments.

The penalty provides for a fine of \$500 or eighteen months imprisonment, or both.

Mr. Kharas' attorneys gave notice that they would file a motion for a new trial, and in the event of that being denied them, to carry the case up on appeal.

HARD FALL MAY HAVE MOST SERIOUS RESULT

Harry Cooper of Coffman, Neb., Unconscious from Shock Resulting from Accident.

A man whose name is said to be Harry Cooper, and who is thought to live at Coffman, Neb., is lying unconscious in St. Joseph's hospital as the result of a fall on the pavement at Twenty-first and Cumming streets Tuesday night. He was picked up in that condition and blood was flowing freely from the right ear, but Dr. Dermody does not think, so far as he has been able to make examination, that the skull is fractured. John Sobell, a machinist in the employ of the street car company, who lives at 3013 South Thirty-first street, is held at the police station in connection with the affair. According to Sobell's story Cooper had been drinking and approached him to beg money. Sobell told him he had none to give him, but he persisted in his demand. He caught Sobell by the coat and when he swung around to release himself Cooper fell heavily on the street. Some of Sobell's friends informed the police station and after the man had been seen by Surgeons Standeven and Lovland he was taken to the hospital.

The patient had not regained consciousness up to noon Wednesday, and was reported in a serious condition.

J. C. Monaghan Tells of the Flag and what it Gives

Makes Address to Knights of Columbus Upon Opportunities Afforded and Duties of Citizens.

Prof. James C. Monaghan of New York, representing the order of the Knights of Columbus upon the lecture platform, spoke last evening in Creighton auditorium under the auspices of Omaha council upon the subject, "The Flag—America, the Land of Unlimited Opportunities."

Prof. Monaghan said that his talk was intended as the answer of the rational optimist to the irrational pessimist, with the purpose of uplifting the young men of the nation. The lecture was intended as a proof that there are more opportunities today than there were yesterday, and that there will be more tomorrow than today. He appealed to the people to make the flag stand for what our fathers intended it should represent.

He explained that the Knights of Columbus is making an educational campaign. He said that the most dangerous man in the country today isn't the ignorant man who sells his vote, but the educated man who buys votes, for he knows full well the enormity of his offense. He spoke of the immigrants who are teaching their children to despise the American flag, and said that on Flag day in many eastern cities startling facts were disclosed by the conduct of the children, who have been taught to love the red flag of anarchy, and he said that as big as our country is, it is not large enough for any other flag than the Stars and Stripes.

Why Butter Prices Were Boosted

Chicago "Insurgent" Says Move is Aimed at Packers Who Are Buying for Speculation.

CHICAGO, May 24.—The price of butter at Elgin was boosted one cent yesterday as a move antagonistic to the big packers, who buy up butter and place it in cold storage, according to an explanation given at the Chicago butter and egg board by Thomas Gallagher. Mr. Gallagher is a leader of the Chicago "insurgent" butter men who some weeks ago began attending the meetings at Elgin each Monday to force the price down.

CANADIAN CLUB AT DINNER

Function of Much Speechmaking and Music Held at Paxton Hotel.

Members of the Canadian club and friends to the number of sixty sat down at a banquet Tuesday night at the Paxton hotel for the annual dinner of the club. Drexel's Shoe Comfort for Women

The woman who suffers with tired, aching feet will welcome the "shoe comfort" we have provided for her.

No word of ours can convey to you their worth. Just a sentence to give you an idea. Especially constructed, one size smaller at the instep, two sizes larger on the sole—making a snug fit over the instep and around the heel, with plenty of room over the toes and the ball of the foot resting firmly on the sole and not on the uppers—this relieves the pressure from bunions or other soreness.
