MORE OBJECTION TO CANNON

Presbyterians Discuss Speaker in Connection with Temperance Bill.

BENNETT MEASURE IS ENDORSED

It Was Drawn by Congressman, Who is Prominent Layman, and Provides for Inquiry into Liquor Traffic.

ATLANTIC CITY, May 25.—Commissioners of the Presbyterian general assembly objected today to Speaker Cannon of the house of representatives having the power of appointing the proposed federal commission for the investigation of the liquor traffic in the United States. The matter was brought up in a report on temperance legislation, which followed the main report yesterday. In discussion of the question of temperance legislation, Congressman W. S. Bennett of New York, one of the leading laymen and father of the bill providing for the commission, asked for support for the measure by the assembly.

Rev. H. T. Laughbaum of Oklahoma City said: "I would be willing to have the membership of the committee placed in the hands of Congressman Bennett, but I am not willing to trust the speaker of the house with the appointment of the committee."

Dr. Laughbaum and other commissioners attacked the proposed bill on the ground that the intended investigation work will only delay needed temperance reforms.

Congressman Bennett defended the bill, which was finally voted the support of the majority.

Members of the assembly applauded the introduction of a resolution condemning the white slave traffic, introduced by Quincy Thacker of Elk Rapids, Mich. In discussing the resolution Commissioner Thacker said:

"There should be an old fashioned brimstone hell for those engaged in this terrible business."

There were numerous informal conferences among representatives today with indications that the republican caucus in the house tonight over postal savings bank again would be fruitless of action. It was predicted that the republicans would have to caucus for three nights at least before reaching an agreement and that the fight would center on the disposition of the funds deposited with the postal banks.

Convict on Way Back to Prison

St. Louis Man Who Escaped Nine Years Ago Captured as He Was Leaving British Jail.

NEW YORK, May 25.—Nine years after his escape from a prison in Missouri, M. B. Bates was brought back to this country on his way to St. Louis, arriving here today on the steamship Germania from Liverpool, in charge of two St. Louis police officers. Bates, whose home was in St. Louis, was serving a sentence of twelve years for robbery when he broke jail. The Missouri authorities heard of his arrest in England for robbery, and officers went out to bring him back on the expiration of his sentence.

Work Among Indians

Speaking of Indian missions, the report says: "With only 300,545 Indians in the United States, exclusive of Alaska, there is a larger per cent of heathen unenlightened by the gospel among this people than among any other element of American population. The report says that the well-advanced of the Presbyterian faith among the Indians are 15,000 and that not a people in the world is more devoted than these Christian Indians."

Body of Man in River

CENTRAL CITY, Neb., May 25.—(Special Telegram)—The body of a man was discovered by John McMahon while speaking fish in the Platte river this afternoon. The man was five feet seven inches in height and was clothed in a cheap suit and shirt, and wore No. 8 Sunflower shoes, but had no papers or other marks of identification. His pockets contained only a comb and a pocket knife. A hole in the skull, above the ear, would indicate that he was shot or may have shot himself. Evidently the body had been in the river a month or six weeks. The body was brought to town and is at Kombrink's undertaking rooms.

Scott's Bluff High School Banquet

SCOTT'S BLUFF, Neb., May 25.—(Special Telegram)—The Scott's Bluff high school junior-senior reception and banquet was held last Monday night at the Emery and plates were laid for thirty-five.

Fremont Man Killed

FREMONT, May 25.—(Special Telegram)—Herbert Rockmeyer, a son of the late Henry Rockmeyer and until within a few years ago a resident of this city, accidentally shot himself while out in the mountains near Sand Point, Idaho, Monday. He was cashier of a bank at Mountain Home, Idaho, and had gone to the northern part of the state to spend a few months in a camp for the benefit of his health. He started alone from Sand Point to find a suitable site and was found dead near the place. His body will be brought to Fremont for burial. He leaves one child, a boy 1 year old. His wife died several months ago. He was 32 years of age.

Prof. Eichorn at Convention

BEATRICE, Neb., May 25.—(Special Telegram)—Not the least important part of a successful convention is the music, and the State Sunday school convention at Beatrice, June 7, 8 and 9, is to be particularly fortunate in this respect. Prof. L. D. Eichorn of Denver, Colo., will have charge of the music and will be assisted by a large chorus choir from all the churches of the city. The local committee already has this matter in preparation and rehearsals arranged. Prof. Eichorn has been several years been the leader of the music at the Epworth assembly in Lincoln.

Building and Loan League in Annual Session

Total Assets of Local Associations in United States is Now Near Billion Dollar Mark.

CHARLOTTE, N. C., May 25.—The seventh annual convention of the United States League of Local Building and Loan associations, began a two days' session in this city today. Delegates representing fourteen state leagues in the east, south and middle west are in attendance.

The annual report of the Secretary, Herman F. Cellarius, of Cincinnati, exhibits in detail the developments of these co-operative savings societies, their success in promoting thrift and home ownership and the notable prosperity enjoyed during 1909. The number of associations is 5,713, having 2,916,521 members and assets aggregating \$568,329,712. This is an increase for the year of 114 associations, 66,294 members and \$72,156,099 in total assets, the largest increase in any single year in their history. Their general condition is very satisfactory, and favorable reports come from all parts of the union. Ohio shows the greatest gain in total assets, followed by Pennsylvania, \$12,865,335; New Jersey, \$3,529,527; Massachusetts, \$4,605,731; Illinois, \$4,121,590; Nebraska, \$5,678,919; New York, \$2,598,328; Louisiana, \$1,297,437; and Indiana, \$1,893,602.

There has been a net increase since 1901 in the number of associations, of 411, or 7.3 per cent, and in the membership, which in 1901 was 1,829,303, increased in 1909 to 2,916,521, a gain of 47,068, or 30.9 per cent. The total assets during the same period increased from \$207,223 to \$568,329,712, a gain of \$361,106,489, or 174 per cent.

The annual receipts increased from \$385,967,216 in 1901 to \$797,592,352 in 1909, a gain of \$411,625,136, or 106 per cent.

Pennsylvania, the parent state of associations, reports 1,490 associations, Ohio second with 947, Illinois third with 531. Nebraska is credited with seventy associations, 64,441 members, and assets of \$17,044,771, ranking eighth among the states. Iowa has forty-eight associations and 15,209 members and assets of \$1,300,441. Kansas reports fifty-eight associations, 39,114 members and assets of \$10,107,693.

Hastings Auto Tour

HARVARD, Neb., May 25.—(Special Telegram)—Last evening Hastings Automobile club made a visit to Harvard with fifty machines all well filled. The Harvard club with some thirty-five machines met Hastings three miles south of this city and falling in behind, guided by Mayor Phillips, followed the Hastings delegation and the procession led by R. D. Herzog of this city and his company, passed through the various streets of Harvard, bringing up in front of Stokes opera house, where all the machines were "anchored" for the night.

On request of Mayor Phillips, Dr. A. J. Jensen welcomed the visitors, closing with the presentation of W. A. Taylor, president of the Commercial club. Delegations were present from Clay Center, Inland and the surrounding country generally and all joined in making the occasion one of pleasure and interest.

Beatrice to Have Park

BEATRICE, Neb., May 25.—(Special Telegram)—The city council tonight purchased the property of Mrs. Mary Miller, which adjoins the plat selected for a city park, for \$2,300. This is one step further in solving the park question for Beatrice. The property has been in litigation for a long time. An ordinance to curb Washington street from Fourth to Seventeenth street was vetoed by the mayor because he believed the expense was too heavy for the city to carry at this time.

OSTEOPATHS ASK OWN BOARD

Fight Going On in Iowa Between New and Old Schools.

STATE BOARD CALLED HOSTILE

DES MOINES, Ia., May 25.—(Special Telegram)—The annual state convention of the osteopathic doctors of Iowa began here today. It is their intention to demand a separate state board to issue certificates to them and to cut loose from the board of medical examiners. They state that they are very much aggrieved, because of alleged bad treatment by the state.

The tendency, they say, on the part of the state board of health, is to prevent any advancement that the osteopathic profession may want to make. The osteopaths declare the attitude of the state board of health is hostile, and because of this feeling of antagonism want a board separate from the state board of health and especially created to look after the interests of the osteopathic profession in Iowa.

Preventive tuberculosis was the main subject given discussion this afternoon at the opening session of the convention. The proposed legislative measures to be asked of the next general assembly were discussed at length.

The state association of undertakers was also in session all day, but considered only matters of technical nature.

Student Mystery Disposed

Carl Schemann, the state college student who disappeared from Ames mysteriously last Saturday morning, has been found very ill in a hospital at Marshalltown. He is apparently unbalanced in mind and suffering greatly. His illness was undoubtedly due to hard study.

Will Condemn Lee Statue

It is regarded as certain that the Department of Iowa, Grand Army of the Republic, at its session next month in this city, will condemn the placing of a statue of General Lee in the capitol at Washington. A number of the posts have taken action along that line and are prepared to bring it before the department meeting.

NICARAGUANS SEARCH AMERICAN SCHOONER

Party from the Venus Boards Ship Flying Stars and Stripes—Fighting Near Bluefields Continues.

BLUEFIELDS, Nicaragua, May 25.—A Nicaraguan government force from the gunboat Venus today boarded and searched the American schooner Estefano, flying the Stars and Stripes. The action was in defiance of a ruling from Washington that the Venus had forfeited its rights of search. Following the search the Venus and the other Nicaraguan gunboat, San Jacinto, were seen approaching Bluefields. The American gunboats Paducah and Duquesne were lying off Bluefields and it was expected here that the commanders would take prompt action.

ANNOUNCEMENT

During the week beginning Saturday, May 28th, we will have in active operation in our south show window a **WHITTALL RUG LOOM** assembling yarns of different colors and weaving them into carpets and rugs of various designs, just as they are woven in the large carpet mills of the east.

At the same time our contract department will have a special display of interior furnishings arranged in booths on the first floor in charge of experts from that department.

You are cordially invited to witness this interesting exhibit.

General Estrada's artillery fire and sustained small losses

The situation at Rama remains unchanged. General Mena of the insurgents is checking every move made by General Chavarria, who has directed his strength against Rama unsuccessfully.

The insurgent strength in the city has been increased by the enlistment of 1,000 volunteers. So far General Estrada has sustained no losses among his forces in this city.

Make Ready for Yard Rate Case

Report on Physical Valuation of Union Stock Yards is Reported to State Railroad Commission.

(From a Staff Correspondent.) LINCOLN, May 25.—(Special)—E. C. Hurd, engineer in charge of the physical valuation department of the State Railroad commission, has made a report to the commission showing the valuation of the Union Stock Yards at South Omaha. This report will be passed upon by the commission, and then used in the hearing on the application of the stock yards to increase rates.

Mr. Hurd reported the present value of the company's property to be \$1,725,719.80, and the reproduction value (new) \$1,715,432.49. The value as reported by the company is \$1,400,000.00. The present value, \$1,725,719.80, reproduction value, \$1,715,432.49. Mr. Hurd's present valuation is \$565,719.80 less than the value placed on the property by the company. The value refers only to the railroad property.

The item upon which the engineer and the company differ mostly is the right-of-way. Mr. Hurd valued the right-of-way and the station grounds at \$677,498 and the company returned it at \$1,873,800. Mr. Hurd treats the rails in his report as being new, when in fact, he said they were second-hand, for the reason the rails were not new from the mill as represented in price by the Stock Yards company's report, and in other items, where difference occurred, Mr. Hurd has treated the property in question as though the plant was put in within a reasonable period of construction and not spread over a number of years with incidental periods of construction. The engineer said he deemed the report of the Stock Yards company one representing a fair service value in many respects and not strictly a physical value of the property.

CAUCUS ON POSTAL SAVINGS

House Republicans Will Make Final Draft of Bill.

GARDNER BILL IS THE BASIS

Measure Approved Expected to Differ Largely from Bill Passed by Senate—Several Insurgents Refuse to Assent.

WASHINGTON, May 25.—The caucus of republican members of the house on the subject of the postal savings bank will be held tonight at 8 o'clock in the chamber of the house of representatives. Not all of the members of the majority party will attend, but the exact number that will purpose absent themselves to prevent their being bound by the majority tonight is unknown. Less than a dozen, all insurgents, so far as is known, have declined to sign the call for the caucus. About 170 names were signed to the petition, out of a total representative membership of 211, but a large number are absent from the city that would attach their names to the call had they been in Washington.

The action to be taken is to be decided as far as the house is concerned. The bill introduced by Representative Gardner of New Jersey, which is the product of the republican members of the committee on postoffices and post roads, will be used as a basis for party agreement on the subject.

The freest discussion and amendment will be had tonight, and it is expected the bill which the caucus will approve will differ

Actress Tells How Youth Is Preserved

(From New York Theatrical News.)

One of America's leading actresses—who for thirty years has stood in the front rank of her profession, and who still plays young girls' parts in a manner to cause our fathers to say, "She doesn't look a day older than when I first saw her," recently told an interviewer how she retained her beauty.

"I never use paint, powder or other cosmetic, except on the stage. I attribute my complexion today to the use of mayonise, the only thing I know that preserves a woman's complexion in its natural condition. I buy an original package of mayonise from my druggist and dissolve it in eight ounces of witch hazel to make a solution with which to massage my face, arms and neck, daily."

"I have been on the stage more years than I care to tell, but you see my skin is not coarse or saggy. Mayonise keeps my face free from pimples, blotches and blemishes and prevents the growth of downy hair that annoys so many women. This treatment is not harsh indeed, it is absolutely harmless and I would advise any woman not satisfied with her complexion to try mayonise. It certainly does wonders for me."—Adv.

PLAYER PIANO

A simple explanation of the Player Piano situation that gives you the correct basis for your investigation.

Is it not a fact that Paderwiski or any other pianist plays the piano by a downward stroke on the Piano key?

Do you know what we mean by touching down on the key?

Is it not a fact that no other point contact in a player piano is correct except that which the human fingers would naturally seek?

IT IS A FACT that the APOLLO is the only Player piano in the world, in which the pneumatic finger touches down on the piano key just as a pianist plays the piano. We can make it very plain to you, why no other manufacturer employs this correct method of construction. This information is bound to better satisfy you to use your own judgment in deciding the player piano question.

Send for catalogue. Old pianos taken in exchange.
Sold on easy payments.
