### REWARD FOR MURDERER OF LITTLE KELLNER GIRL

Two Thousand Dollars Already Offered and Sum Will Probably Be Doubled.

LOUISVILLE, June 1.—Rewards of \$2,000 have been offered for the capture of the murderer of Alma Kellner, whose dismembered body was found Monday in a cellar beneath St. John's Parochial school.

The city council will be asked by Mayor Head tonight to add another thousand. Governor Wilson is expected to increase the sum as soon as a request is made on him by the county judge here. The board of public safety has instructed the police and detective departments to spare no expense in the pursuit of the murderer.

The police do not believe that Joseph Wendling, the missing French janitor under suspicion, has returned to France, but think he may be found in some French settlement in this country or Canada. His wife, held under a charge of accessory to the murder, still declares she knows nothing about the crime.

The truth has been kept from Mrs. Fred F. Kellner, mother of Alma, that the body was horribly mutilated when found. Since Monday she has remained within the seclusion of her room on the border of collapse. She cannot understand why the body was not brought to the house, or how there should be any doubt about the identification.

### Want Rehearing in the Missouri River Rate Case

Railroads Hope to Get Case Before Supreme Court Again This Fall.

WASHINGTON, June 1.—With the probability of two more members being on the bench next October, the railroads between the Mississippi and the Missouri rivers and shippers in the central freight territory are said to be preparing to ask for a rehearing of the Missouri river rate case, decided yesterday by the supreme court of the United States in favor of the Interstate Commerce commission.

The order of the court putting the reduced rates into effect will be held soon to allow the railroads to file an application for a rehearing. If this is done, the application cannot be passed upon till next October. By that time Governor Hughes of New York will have taken his place on the bench and Justice Moody may have resumed his work.

In these two members the roads see some hope of rehearing.

### BREAK IN STOCK MARKET Order Prohibiting Advance in Freight Rates Affect Railroad Issues.

ST. PAUL LEADS THE DECLINE

Union Pacific is Off Three Points and a Number of Other Lines Lose from One to Two Points.

NEW YORK, June 1.—There was another break in prices of stocks today when the market opened as a further effect of the granting of an injunction against the proposed advance in western railroad rates. The market had to absorb liquidation from foreign sources which had the first news of the government's action today.

Stocks of the railroads immediately affected by the injunction were the weakest. Missile that Creates Consternation at Maneuvers is Can Filled with Uncooked Beans.

BERLIN, June 1.—There was a commotion among the royal party returning from the annual joint review of the Berlin and Potsdam garrisons at Tempelhof field today when a man who had followed at a distance hurled a missile at Crown Prince Frederick William. The object missed its mark and fell harmlessly at the feet of a policeman. It was found to be an ordinary tin can, such as used for the preservation of fruit and vegetables, and was filled with uncooked beans.

The party was about to enter the palace at the time and for a moment it was believed a bomb had been thrown. The police seized the assailant, who proved to be a Russian named Abraham Elerewich, a resident of this city. It is thought he is not responsible for his action.

The crown prince represented the emperor at the review, as the absence on the emperor's right wrist he still bothering him. Among the Americans present were Herman Kilder and Mrs. Kilder of New York; Harold McCormick of Chicago; H. C. Emery of the tariff board and the German-American veterans, who are visiting the fatherland.

Liquidation continued in the market and prices yielded steadily without effect from the occasional supporting orders. The railroads which are enjoined from putting advance freight rates into effect today still led the decline, but the whole list was exceedingly weak.

### Strong Criticisms Made of Roosevelt's Speech

LONDON, June 1.—Mr. Roosevelt's speech at Guild Hall yesterday continued today to be the sensation of the newspapers throughout the country.

The editorial comments on his startling utterances concerning British rule in Egypt were influenced as a rule by partisanship. The conservative press defends the conclusions drawn by the American statesman, while the liberal papers oppose his deductions with equal seriousness.

But outside the questions of fact set forth the newspapers almost without exception challenge the propriety of a foreign policy of the empire.

Of the comments of the conservative press the following are samples: The Globe: "It was not the time nor the place, nor was the ex-president the person, to display this particular form of interest in the business of his hosts." The Pall Mall Gazette: "The unconventionality is justified only by success. If he prefers realities to the properties where vital interests are concerned, so does the judgment of the British people." The Standard: "That he should lay hands on one of the nation's private and

### MRS. DORA DOXEY NOT WELL

Night Session of the St. Louis Court is Abandoned.

WILL BECOME A WITNESS TODAY

Willing to Admit Relations with Erder, but Will Deny She Was Cause of His Death.

ST. LOUIS, June 1.—Because of the illness of the defendant, the night session in the case of Mrs. Dora E. Doxey, accused of poisoning William J. Erder, was abandoned tonight. She will take the stand the first thing in the morning.

According to her attorneys, Mrs. Doxey will deny that she caused Erder's death, but she will admit many of the other charges concerning her relations with him. She will endeavor to excuse these acts on the ground that she was a morphia fiend.

Dr. R. B. H. Gradwohl, the first witness in defense of Mrs. Doxey this afternoon, described the symptoms that attended Erder's last illness as arsenical poisoning, but declared they were also the symptoms of several diseases. He produced on the stand dogs and a rabbit to which he had been feeding cacodylate of soda, the arsenical compound which she is alleged to have given Erder. To one dog he had fed 50 grains of the drug in three days, and it showed no ill effects.

Dr. C. D. Evans of Columbus, Neb., testified that he attended Mrs. Doxey last November while she was suffering from the effects of the drug. He declared she took fourteen grains of the drug a day for two days and that she was not responsible for statements she made, which the state claims damage her case.

Dr. H. Morrow, also of Columbus, who was called in for consultation by Dr. Evans, corroborated his testimony.

### Jury Will Try Flour Cases

Department of Justice Objects to Suggestion that Commission Hear Evidence.

KANSAS CITY, MO., June 1.—Pierce Butler of St. Paul, special assistant attorney general appointed by the government to try the bleached flour case, announced that he had received a message from the Department of Justice objecting to the suggestion that the case be heard before a special commissioner. It was then agreed by the attorneys on both sides that the evidence be heard by a jury and Judge McPherson ordered that the jury be summoned at once and the case proceed. The work of securing a jury was not completed at noon.

It was announced that it would require about ten days to hear all the evidence in the case.

### RAILROADS THAT ARE NAMED

The roads restrained from increasing their freight rates are: The Missouri Pacific railway, Chicago & Northwestern, Chicago, Burlington & Quincy, Chicago, Rock Island & Pacific, Wabash company, Chicago, Milwaukee & St. Paul, Illinois Central, Chicago & Alton, Atchison, Topeka & Santa Fe, Chicago, Great Western, Missouri, Kansas & Texas, St. Louis & San Francisco, Quincy, Omaha & Kansas City, St. Paul & Des Moines, the Minneapolis & St. Louis, Iowa Central, Fort Dodge, Des Moines & Southern, Chicago, St. Paul, Minneapolis & Omaha, Elgin, Joliet & Eastern, Chicago, Peoria & St. Louis, Chicago, Milwaukee & Gary, Minneapolis, St. Paul & Sault Ste. Marie, Kansas City Southern, Chicago, Indiana & Southern. The Western Trunk Line committee. The title of the suit is "The United States of America, complainant, versus the twenty-five defendants, restrained in injunction."

It alleges "unlawful combination and conspiracy."

### BILL DRAWN UP LAST WEEK

Agent of Department of Justice Left St. Washington with It Sunday.

WASHINGTON, June 1.—Attorney General Wickensham talked today regarding the steps which led up to the administration move against the railroads. The first intimation he had, of the condition alleged, he said, were in the shape of a dispatch which came from somewhere in the west last Thursday night.

### NOT COVERED BY THE INJUNCTION

Advanced Tariff on Wool from the West is Now in Force on Lines.

FLAT INCREASE OF 10 CENTS

Matter is of Much Concern to the Western Shipper.

INCREASE APPLIES OVER WEST

Extends East as Far as the Atlantic Tidewater.

PART OF THE RAILROAD SCHEME

Intention of Transportation Line Officials to File All Schedules at One and the Same Time.

WASHINGTON, June 1.—Rates of the Western Trunk Line association, which were prevented from becoming effective at midnight last night by the temporary injunction granted by the United States circuit court at Hannibal, Mo., constitute only a part of the advances made by the Western Trunk Line association. The injunction applies only to tariff A 115, mentioned in the bill filed before the circuit court by representatives of the Department of Justice.

The tariffs filed practically simultaneously with the Interstate Commerce commission by the Western Trunk Line association make advances in the rates on commodities between Milwaukee and Chicago and St. Paul and between St. Paul and eastern destinations on wool are in effect today. While these tariffs are not so important as those making advances in general commodities between Missouri and Mississippi river transfers they are nevertheless of considerable concern to shippers in western trunk line territory to Atlantic seaboard points.

The increase in the freight transportation of wool from St. Paul points to New York and Boston particularly is of immense interest to consignors, as it means a flat advance of 10 cents per 100 pounds. This increase applies to all western wool passing through Minneapolis or St. Paul destined to Atlantic tide water destinations.

It is not explained why the injunction sought by the Department of Justice was not made applicable to all of the advances recently made by the Western Trunk Line association.

Rate Order Certified. ST. LOUIS, June 1.—The temporary restraining order which Federal Judge D. P. Dyer issued last night at Hannibal, Mo., prohibiting twenty-five railroads from advancing freight rates was certified to the United States circuit court here this morning.

Processes against the defendants were prepared and will be served by United States marshals in the districts where the different railroads have their general offices.

Under orders of Attorney General Wickensham an expediting certificate providing for a speedy determination of the issues was filed. A copy of the expediting order was mailed this morning to Circuit Judges Hook, Nathan, Van Liew and Means.

Railroad officials here generally refused to be quoted concerning the suit this morning. They said it was too early to express opinions, and explained they would prefer to keep silence for awhile, because interviews could not benefit their cause. The action of the government, however, was a surprise to them.

Say Business Men Are Divided.

It was pointed out, however, that the attack on the railroads is unique in one respect. It is the first time in which the commercial interests of the chief western cities are not proceeding in full harmony; in fact, several of the strong organizations are siding with the carriers. The St. Louis League of Business men is not antagonizing the proposed increase in freight rates, but in other cities opposition has developed.

The most important forces in opposing the increase in rates are said to be the Missouri Manufacturers' association of St. Louis and the Illinois Manufacturers' association.

It was stated this morning that it was not the purpose of the railroads to increase all rates in this territory today. Only commodity rates were to have been advanced, which apply almost solely to freight. The general public is not directly interested in it.
