## A Big Crowd is Promised

For our excursion to the Scott's Bluff country next Tuesday. People are interested in seeing the wonderful development that is taking place.

NO OTHER PART OF NEBRASKA

Is looking as thrifty as the Scott's Bluff country. Crops are in excellent condition, perfect stand of oats and wheat, sugar beets coming up, potatoes being planted. Everybody busy and everybody happy in the genial sunshine. In the Scott's Bluff country you have

SOIL, SUNSHINE AND WATER

And all that is needed is the MAN TO DO THE MIXING and put in the seed. The RESULTS ARE CERTAIN.

The men who are going into the Scott's Bluff country have unlimited confidence in its future. They believe in it and in its productive and wealth giving power. Do you presume the men building the Sugar factory would invest NEARLY $2,000,000 JUST AS A SPECULATION? They KNOW the country will produce good sugar beets and plenty of them.

FIFTEEN THOUSAND ACRES OF BEETS

Are now growing in the valley to supply the needs of that new factory. The contracts are signed by the factory to take the beets at $5 per ton. If the average crop is only 15 tons to the acre—and we have records of 28 and 30 tons—it means a distribution of A MILLION AND A QUARTER dollars to the growers of the beets alone.

The alfalfa crop will produce another million dollars this season. Are you doubtfull of these facts? Go with us on our
