Maidstone-Drexel Wedding, Set for Next Wednesday, the Chief Topic of Social Concern—Other International Matches Scheduled—Plans for the Wedding of Mr. Theodore Roosevelt Jr., and Miss Alexander.

BY MARGARET WATTS DE PEYSTER. NEW YORK, June 4.—(Special Dispatch to The Bee)—The next big international matrimonial alliance of importance is that of Miss Margaret Drexel, daughter of Mr. and Mrs. Anthony Drexel, of Philadelphia, and the Viscount Maidstone in St. Margaret, Westminster, London, on next Wednesday.

The latest report I hear concerning Miss Helen Gould's charitable work is that she will give the financial assistance to the conversion of the Wilson Memorial academy near Nyack, N. Y., into a college. Miss Gould has taken an active interest in this school for several years, which is conducted under the control of the Christian and Missionary alliance.

There were no less than four big weddings in New York today. The present month, always noted for the number of its marriages, will be no exception. Among the most interesting of the recent engagements is that of Miss Margaret G. Dix, a daughter of the late Morgan Dix, for many years pastor of Trinity church, to Mr. Charles Lanier Lawrence, Mr. Lawrence is a son of Mr. and Mrs. Francis Lawrence and grandson of Charles Lanier. The wedding date was not announced.

Among the big establishments at Newport to be closed for the summer are those of Mrs. Vanderbilt and Mrs. Harlan, Oelrichs, both of whom are to be abroad, and Marble House and Belmont, both owned by Mrs. William B. Leidesdorff, for many summers the home of Mr. and Mrs. Frederick R. Vanderbilt, who will not be opened, Mrs. Vanderbilt being abroad, and Mrs. Harlan Alen, now over for his annual fishing trip at the Restigouche club, may open Wakenhurst.

Government Farm Lands \$1.00 Per Acre Cash

"A Word to the Wise"

The cost of food has become so alarmingly high as to demand investigation. Government bureaus, state legislatures and labor organizations have been stirred to action. Thus far what is the result? Why the attention of everybody—millions—the whole nation has been turned to the source of food—THE FARMS—and thus far it appears the farmer is receiving the benefits.

"Back to the Farm"

and the march to the land is on, as never before in history. The man who wants a piece of land can ill afford to delay as land is rising so rapidly in value. How about that land you were once going to buy in Nebraska or Iowa, but waited and didn't, and now you want to and can't? Delay and postponement are the destroyers of opportunity.

The California of Canada

Fort George is on the line of the Grand Trunk Pacific, half way between Edmonton and Prince Rupert. The situation of Fort George is such that it will be the largest city on the Grand Trunk Pacific between Edmonton and Prince Rupert. Fort George is the center and distributing point for Central British Columbia today; and is central geographical location and strategic situation is such that it will continue to be the chief commercial place of Central British Columbia for all time.

Government Land at Government Price

We are in a position to secure from 160 to 640 acres of rich farm land for you within ten miles of the line of the Grand Trunk Pacific Railway now building to Prince Rupert, and you do not have to live on it, improve it or become a Canadian citizen to own it.

\$1.00 Per Acre Cash

Balance three years 6 per cent. Total cost \$7.50 per acre, including government title. Land owned by private parties all around in this beautiful district is selling at from three to five times above price, and will soon be worth \$50, \$75, \$100 and more per acre. This opportunity won't last long.

GRAND TRUNK PACIFIC LAND CO. 309 N. Y. Life Bldg., Omaha

The men were according to the vacancies existing in the companies.

IMMANUEL BAPTIST CHURCH'S NEW PASTOR

Members of Immanuel Baptist church are congratulating themselves upon the fact that Rev. J. Scott Ebersole of Canadaigua, N. Y., has accepted a call to be pastor of their church. He is expected to arrive in Omaha the latter part of June and will immediately take charge of the Immanuel parish upon his arrival.

Rev. Mr. Ebersole is a man of middle age and is an active worker in the Baptist church. He comes from Canadaigua, where he has been in charge of a church in that place for seven years. He is a first and foremost a worker and his labors in New York were accompanied by great success.

Read This Letter

This letter was written by our president, Senator Frank Riblett, to a friend of his at Boise, Idaho. It tells in his words what he thinks of this mine. You want to make more money, don't you? Read this letter. He is absolutely reliable. Write today for a free prospectus. It may do you a great deal of good; it can't do you any harm. Write right now.

Albion, Cassia Co., Idaho March 14, 1910. Dear Mr. Shaw, Boise, Idaho: I have been waiting for some developments in the line of mining down here before writing to you, but cannot very well get up for awhile on account of the snow, that is, I could, but it would be somewhat disagreeable. When snow gets packed and crusted a little more it will be an easy matter to make the trip. If we were working a force of men all the time the roads could easily be kept open the entire year, but not working all the time and then only a small force in the winter time the roads get obstructed with snow. Some can be dug for the mines on Connor Creek, eight miles south of here, but from the essays and reports of the miners, as well as personal observation, I am of the opinion that we can safely count on the present time one foot of ore averaging at least fifty dollars (50). The experienced miners all tell us that a permanent vein of six inches averaging that much in this locality will pay. Our ore is a very desirable one for smelters, being a very clean ore—silver, gold, lead and copper, no antimony, arsenic or other deleterious substance. No zinc. They, the smelters, are hunting for this class of ore.
