THE LAND OF LAST GREAT OPPORTUNITIES

The official publication of the Grand Trunk Pacific Railway states: "It is possible that no other area in North America can equal this portion of British Columbia in her natural resources. It is in truth a northern Eldorado, which future events are bound to verify. The climatic conditions have in the past been supposed to be severe during the Winter season, but the fallacy of this impression is rapidly being made known on account of the reverse conditions actually existing, due in large part to the proximity of this territory to the Pacific Ocean and the influence of the propositions. What Makes the Value?

The productiveness of the soil and the water supply. These produce crops that pay a big interest on land even at a value of \$500 an acre. Do you know that

Scott's Bluff Irrigated Lands

are just as good as the Colorado lands? The Scott's Bluff lands lie much better for irrigating, are smoother and just as fertile. Do you know that the water supply for the Scott's Bluff lands is more abundant than that in the Colorado district. There is often a shortage of water in the Colorado district, but no one ever sells his land cheaper because of such shortage.
