HOWELL TALKS ON WATER

Thinks Plant Will be Turned Over Before First of the Year.

CIVIL SERVICE TO BE ENFORCED

Says that More Money Must be Raised to Run the Plant by Additional Bond Issue.

R. B. Howell of the Omaha Water board returned Thursday morning from Annapolis, Md., where he addressed the midshipmen. On arrival home he had a brief conference with President Harlow, but as yet no date has been agreed on for a meeting of the board, although one may be held this week.

On the question of taking over the water works plant, Mr. Howell does not agree with those who think it will require the time between now and January 1 to complete the transfer. Neither does he think the water company has offered the board, up to date, the kind of deal that will be called for when the court has finally passed on the details.

"The company will have to liquidate its obligations," said Mr. Howell. "The water board certainly will not undertake settlement with mortgages. We must have a clean deal, and until liquidation of its obligations is made by the company, I doubt if the city will be held for interest; certainly, in my judgment, the city will not be held for interest from the date the award was made by the appraisers."

Civil Service Rules.
 Touching the civil service requirement of the law under which the plant is being acquired, Mr. Howell said that will hardly govern the employment of men from the start. "Civil service will be in force after the staff is made up and the men selected have made good; that is, after a man enters the employ of the board and is dis-

charging his duties in a competent manner, he cannot be let out without cause. Naturally, the board will select its own force of employees at the start, with a view to their qualifications for the work to be done."

Mr. Howell also expresses belief that it will be necessary to raise more money by additional bond issue after the city takes the plant. "New capital is necessary in any large business of that kind," he said, "if it is to be made a success. The city of Omaha will have to go about the conduct of the new branch of its business just as any private concern would do."

Farm Not to Go to William Labs
 Judge Sutton Says He Will Have to Stand By Will of the Father.

William Labs will not get the Bennington farm on which he worked thirty-four years for his father. Labs contended in district court that he worked all this time without pay on the understanding that he was to get the farm. Instead his father, Ferdinand Labs, made a will in which William Labs was only a one-fifth participant.

"There is no certainty here," said Judge Sutton, "of an express contract—no certainty of a contract at all. The parents may have talked over what they intended to do with their property without definitely deciding or promising. The leaving a will is some evidence to the effect that the father did not consider himself under a contract."

WILLIAM BAILEY BOUND OVER
 Man Who Shot Arthur Standish is Held to the District Court for Trial.

William Bailey must stand trial in district court for shooting Arthur Standish in South Omaha two weeks ago. Bailey was arraigned in police court and bound over under bond of \$1,000 on Thursday morning.

Standish was shot by the negro, who was infuriated by his discharge from employment as a laborer on the construction of a building at the Cudahy packing plant. Standish is a structural engineer.

THIRTEEN TAKE EXAMINATION
 Young Women at Quits on Teachers' Training Course for Professional Diplomas.

Examinations of the attendants on the teachers' training course is now under way at the rooms of the Board of Education. The work will be completed today and then the thirteen young women will be given diplomas as teachers. They have already been placed on the "assigned" list for the next school year, giving them the right to teach as called on. For the grades the following girls are taking the examination: Anna Carruthers, Lincoln; Johanna Chapman, Forest; Mamie Chapman, Leavenworth; Mildred F. Cooper, Omaha View; Blanche Marshall, Saunders; Frances Nieman, Bancroft; Pearl Norton, Windsor; Myrtle Rourke, Druid Hill; Grace M. Steinhilber, Kelton.

Taking the examination for kindergarten work are: Hazel Harstep, Druid Hill; Inez Marks, Forest; May Nichols, Columbian; Eileen Patterson, Leavenworth.

Caught in the Act
 and arrested by Dr. King's New Life Pill: Billon headache, quins and liver and drugs at right. For sale by Beaton Drug Co.

“Gas Service”
 Users of Industrial Gas—

There may be some who think that gas could not be used to advantage in their business.

For their information we give a PARTIAL list of uses of gas for industrial purposes:

Japanning, small quantities of steam, hardening, tempering, coloring, soldering and brazing of metals, singeing of cloth, melting of soft metals, boiling of water and liquid compounds, drying of materials, fast clothes pressing, roasting of coffee, popcorn and peanuts and fast candy making.

If your business appears on this list and you are not using gas, are you not allowing competitors to gain an advantage over you?

And if your business does not appear on this list, might YOU not gain an advantage by using gas?

One of our experts could tell you, and his advice would cost you nothing.
