

# Hatters!

There are all kinds of boosters—Commercial Club boosters, Ak-Sar-Ben boosters, Ad Club boosters, Sampeck boosters—and the most enthusiastic bunch are the "Sampeck" boosters—the young business and college men who wear the celebrated Sampeck clothes. It takes faith in a proposition to be a booster and we are pleased to know that the young men of this vicinity have faith enough in our good clothes to boost them to their friends.

We call special attention to our Sampeck true blue serge suits at—

**\$15.00, \$20.00, \$25.00**

Opting Trousers in fine flannels and worsteds, medium or light shades, at—  
**\$4.00, \$5.00, \$6.00**

Our line of Underwear for young men is very complete. Two-piece garments at 50c to \$1.50; Union Suits at \$1.00 to \$2.25.

Sampeck Clothes

## DAKOTA WESLEYAN GALA DAY

Citizens of Mitchell Raise Fifty Thousand for Buildings.

Addressed by Bishop Nuelson

Ground for New Structure Broken with Plow Drawn by Hundred Students—Campaign for Funds to Continue.

MITCHELL, S. D., June 10.—(Special.)—Yesterday ended the short and strenuous campaign instituted by Dr. Kerfoot, president of Dakota Wesleyan university, to secure the subscription of \$50,000 from the citizens of Mitchell for the extension of the building of Dakota Wesleyan. The campaign started ten days ago and was carried on in the most strenuous manner. Dinners were served every noon in the basement of the Methodist church, where the thirteen captains of the soliciting teams met and gave their reports. At the last meeting held the result was announced. Instead of \$50,000 being raised the total amount is \$20,000. Fifty business men of the city each gave \$500 to the enterprise, and the entire city was canvassed to secure the rest. It was the greatest money raising campaign the university ever conducted in the city. With this amount raised the campaign will be carried out over the state to bring the amount up to \$50,000, and with this amount \$50,000 will be given by James J. Hill of St. Paul, of Great Northern railroad fame. Mr. Hill has agreed to give \$20,000 when \$50,000 has been raised. With this \$100,000 two buildings will be constructed at once—one a gymnasium and social hall, and the other a science hall. Today the ceremony of breaking the ground for the new building before a large assemblage of people who stood in a drizzling rain and watched the proceedings. One hundred students took hold of a rope attached to a plow and broke a furrow through the building lot, the plow handles being manned by President Kerfoot and Dr. Nicholson, a former president of the institution. The addresses delivered in the chapel were made by Bishop Nuelson.

**Huron Confers Degrees.**  
HURON, S. D., June 10.—(Special.)—Commencement of Huron college for the year 1910 closed Thursday evening with a music recital by Prof. Garnet Hedge and Mrs. Ruth Plinch. The exercises throughout were largely attended and intensely interesting. Those graduating were: Miss Miriam Crawford, Miss Edna Dreyer, Miss Daisy Seash, Roscoe E. Moshier and L. Howard Smith. The baccalaureate address was delivered by President French and the annual address before the college Christian association was given by Rev. Hugh Robinson of Brookings. Commencement exercises for the School of Music were under the direction of Prof. J. W. Brown. "Christian Work in the World" was the subject of an interesting address before the academy and normal departments by Dr. Hugh Morris of Evanston. Wednesday afternoon "As You Like It" was given by the students of the college. The same evening the Thomas Maynard declamation contest took place. First prize was won by Miss Beck and second by Miss Swain; sheriff, county attorney, Sheriff Taylor, Blumner, Mary S. Bell. Commencement exercises proper closed Thursday morning, when Dr. Joseph W. Cochrane of Philadelphia delivered the address and degree were conferred. In the afternoon the alumni banquet was served at Elizabeth Voorhes dormitory, with a meeting of the alumni at Voorhes hall.

**DEGREES CONFERRED AT TABOR**  
Excercises Held in Congregational Church Thursday.  
TABOR, Ia., June 10.—(Special.)—The forty-fourth annual commencement of Tabor college, Thursday, was the president's reception at 4 o'clock p. m. upon the college campus. The graduation exercises were held in the Congregational church in the presence of a large audience. President Long, in behalf of the trustees, presented diplomas to the class of fourteen members graduating from the college department, the republic and same number of graduates from the academy and commercial departments. Miss Elizabeth Swanson won class honors in the college class and Miss Catherine Barbour in the academy.

Other degrees conferred were a bachelor of arts degree to Miss Myrtle E. Rice of Tabor, doctor of divinity degrees to Rev. Alexander Cooke of Wayne, Neb., and Rev. A. S. Henderson of Muscatine, Ia.; bachelor of arts degree to Miss Jessie Field of Shenandoah and bachelor of literature to Miss Della Simons of Sidney. In the oratorical contest, in which members of three college classes participated, first place was awarded to Miss Louisa Wyman and second to Miss Harriet Wyman.

**Young Woman Killed in Runaway.**  
HURON, S. D., June 10.—(Special.)—As the result of a runaway accident, Miss Minnie Bauman died of her injuries at 2 o'clock p. m. last night, aged 24 years. She is in company with Miss Babbie Rosen, a white girl, with a huge stone as she was returning to her home in Ottumwa from choir practice one night in the winter of 1908.

**Huron Pioneer Dies in California.**  
HURON, S. D., June 10.—(Special.)—Announcement of the death of Milo Booth, formerly of this city, comes from Los Angeles, where he went some months since, hoping that a change of climate would benefit his health. Mr. Booth was among Huron's pioneer business men, having been engaged in the dry goods trade here for a quarter of a century. Because of a stroke of paralysis he was obliged to retire from business and went to California, accompanied by his three daughters.

**INTERNATIONAL COMMERCE SHOWS BIG IMPROVEMENT**  
Trade Among All Principal Countries of the World is Increasing.  
WASHINGTON, June 10.—International commerce, according to statistics procured by the Department of Commerce and Labor, showed a marked improvement in all the principal countries of the world for the year ending in April, 1910. A report of the bureau just issued states: "International trade, as is well known, fell off in the period following the financial depression of 1907-8, as a consequence, the import and export figures of nearly all countries were smaller in 1908 than in the immediately preceding year. The increase shown by the figures of the current year is therefore in most cases more distinctly a return to normal conditions than an actual advance over those which existed in 1907-8. In many cases, however, the figures of the current year are materially larger than ever before, and it is probable the total of international trade in the calendar year 1910 will surpass that of any other former year."

**APPROVE NEW IDAHO ROAD**  
Oregon Short Line Will Construct Line from Saline to Burley, Distance of Seventy-Five Miles.  
OGDEN, Utah, June 10.—Word has been received that the Oregon Short Line has definitely approved the construction of a new line to extend from Saline, on the main line of the Southern Pacific system, to Burley, Idaho, a distance of 75 miles, which, when constructed, will shorten the line between Ogden and the northwest by fully seventy-five miles. Surveys have been at work on various routes for a long time, but the definite route was not accepted until this week.

**Brodie L. Duke to Marry Again.**  
WASHINGTON, June 10.—Brodie L. Duke, a member of the North Carolina family of that name, with extensive tobacco interests, obtained license here today to marry Miss Mylania Roschelle of Durham, N. C. This will be Duke's fourth marriage, according to the license application.

to Burley will put Burley on the main line. With branch now being constructed from Burley to Oakley, which will be completed within thirty to sixty days, the line from Minidoka in operation, and with an electric line proposed from Burley to Albion, Burley will shortly rank as one of the railroad centers of Idaho.

**SECRETARY NOW DECLARES THE COMMITTEE DID ACT**  
Official of Democratic State Body New Remembers Oregon Plan Was Taken Up.  
(From a Staff Correspondent.)  
LINCOLN, June 10.—(Special.)—Secretary Matthews of the democratic state committee has had his memory jogged and now he is satisfied that the democratic state committee did take action on the Oregon plan of electing United States senators. Last Monday Mr. Matthews was sure his records contained no mention of the Oregon plan because the matter had simply been discussed informally following a substitute motion by Dr. Hall, in a motion to have the chairman of the committee to have candidates file under statement No. 1. Today, following his visit to Kearney last night the secretary discovered that he did have something about the Oregon plan in his minutes.

When asked why he could not produce a record of the discussion, hearing on this question, when he said they showed no endorsement of the law, Mr. Matthews said: "I forgot."  
Mr. Matthews denied that he had been taken up by the ears by Harney Newbranch or that he had even seen the manager of Mr. Harney's business by meeting, or that anyone had jumped on him for intimating that his records were silent on that Oregon proposition. It was just simply a case of "forgetting" what the committee did. "Just forgetting," he said, "needs no explanation."  
The fact that Arthur Mullen made a trip to the state house today and denied that he made the motion to endorse the Oregon plan in face of statements by several democrats that he did, it is positive had nothing to do with the discovery of the overlooked record on the question.

The record discovered, however, since Secretary Matthews now hands out as a part of the minutes of the committee meeting is as follows:  
"Moved by Mr. Placek and seconded that the state central committee notify the different county chairmen and that they be instructed to see that legislative candidates file under statement No. 1 of the Oregon plan of electing United States senators."  
"Hall moved as a substitute, which was accepted by Mr. Placek and seconded that it is the sense of this meeting that all democratic candidates file accepting statement No. 1 of the so-called Oregon plan. Carried."

**HOW BUTTONS CAME TO BE**  
Necessity in Action Centuries Ago—Growth of the Industry in the United States.  
The Elizabethan era gave vogue to the button and buttonhole, two inventions which may fairly be regarded as important, since they did much to revolutionize dress. The original button was wholly a product of needwork, which was soon improved by the use of the wooden mould. The brass button is said to have been introduced by a Birmingham merchant in 1685. It took 200 years to improve on the method of sewing the cloth upon the covered button. Then an ingenious Dane hit upon the idea of making the button in two parts and clamping them together with the cloth between.

The most important branch of the button industry in the United States is the making of pearl buttons, the material for which is obtained from shells gathered along the Mississippi river. The industry has grown up within the last fifteen years or so. Its introduction was due entirely to a native of Germany, who learned the art abroad. He saw that millions of dollars were going to waste in the shells known as "niggerheads," of which tons were piled up on the banks of the river. Thousands of people are now employed in turning these shells into buttons, the small manufacturers being found all the way from Minnesota to the Gulf-Harper's Weekly.

**Washington's Latest Peril.**  
The visitor shook his head ominously. "You'd better hurry to get under cover," he said, "the day is getting on."  
"Why so?" inquired the noted legislator.  
"As I came up the roadway," replied the visitor, "I saw your private secretary standing along in company with the fascinating woman reporter of the Daily Blinks—she had her hand in her hair."  
"Good gracious!" said the frightened senator.—Cleveland Plain Dealer.

**Night Rider Witness Assassinated.**  
PRINCETON, Ky., June 10.—Julius Robinson, an important witness in the night rider case, which will be brought to court tomorrow at Hopkinsville, was assassinated last night on the farm of George Goodman, near Citter Ford, Ky.

## FOR GREATER SOUTH DAKOTA

Propaganda for Development Congress is in Full Swing.

COMMISSION MAKING PROGRAM

Pierre Board of Trade Offers Rich Silver Cup to the County that Sends the Largest Delegation.

The propaganda for the South Dakota conservation and development congress is now in full swing, and there is every reason to believe that not less than 2,500 of the most public spirited and intelligent citizens of the state will assemble at Pierre June 20-29 and July 1 to discuss the subjects of conservation of the soil, the public health, mineral, water powers, artesian waters, forestry and kindred topics, and the development of the natural resources of the state, for the promotion of immigration and business enterprise. The general line of the activities of the congress will be patterned after the very successful congress held in Minnesota in March last, and the nation is being drawn upon for the first talent in the way of specialists upon the different subjects to be considered. Business men and farmers in every section are showing the utmost interest in the conservation and development are receiving an impulse that is certain to result in attracting the attention of the world to our great resources and to the opportunities which South Dakota presents for the home-seeker and for investment.

**Greater South Dakota Movement.**  
The Greater South Dakota movement has been a matter of slow growth, dating from a period some ten or twelve years ago when a few business men assembled at Sioux Falls to consider ways and means to exploit the resources of the state. There it was resolved that the first duty of every South Dakotan was to develop state pride; to bring our own people to realize the great advantages we possessed and the special privileges which are ours. The growth of this sentiment has been steady until pride in the commonwealth has become a dominant sentiment among the people generally, and its substantial basis is shown in the tremendous production and the constant growth of bank deposits and every other material evidence of the prosperity of the people. The underlying motive in the present movement is to secure co-operation and concerted action among all of the people for the preservation of the resources we possess and their development for the advancement and glorification of the commonwealth.

**Judge Chamberlain Takes Lead.**  
Specifically the congress was brought about by the suggestion of Judge A. E. Chamberlain, state superintendent of farmers' institutes, and was called by Governor Vesey, who thus gives it his official sanction. The general management is placed in the hands of the state conservation commission, which consists of Senator Gamble, Representative Martin, Land Commissioner Robinson, State Engineer Lea and Doane Robinson.

Pierre is making comprehensive preparations to take care of the crowd which is expected. The hotels are preparing to take care of a vast throng. In addition to these accommodations, the citizens will open their homes, and Governor Vesey is providing several hundred of the militia tents for camping parties.

The railroads are showing the deepest interest and will provide sleepers for those desiring that method of accommodation. Already it is shown that most of the delegations from the large towns will come in special cars. About two-thirds of the county delegations have been nominated and commissioned to the extent of about 2,000 persons. They comprise the ablest men of every county.

**Prize for Largest Delegation.**  
The conservation commission, in charge of the enterprise, has a large force of clerks engaged in preparing material and mailing the same to delegates and citizens. Throughout the month the rooms of the commission will be the busiest place about Pierre capital.

The Pierre Board of Trade has provided a rich silver cup to be given to the county delegations which have the largest number of delegates. Hughes and Stanley are precluded from competing for this prize.

**A Burning Shame**  
is not to have Buckskin Arsenic Salve to cure burns, sores, piles, cuts, wounds and ulcers. 25c. For sale by Beaton Drug Co.

**DEATH RECORD.**  
Henry Barron.  
BOONE, Ia., June 10.—(Special Telegram.)—Henry Barron, a retired Northwestern engineer, died here today. He was in service for forty-five years and never had a wreck and his engine never left the track.

tender came alongside the band on the steamer's deck played "The Star Spangled Banner," and there was a good deal of cheering. Many of those on the steamer carried miniature American flags and the vessel itself was in holiday attire, with colors flying from stem to stern.

**Mrs. Roosevelt Leaves London.**  
LONDON, June 10.—Mrs. Theodore Roosevelt, Mrs. Nicholas Longworth, Miss Ethel and Kermit Roosevelt left London on the boat train this morning to join Mr. Roosevelt at Southampton, where they will take the steamer this afternoon for New York.

The Roosevelt party will be carried home by the Hamburg-American liner Kaiserin Auguste Victoria.

**BAKERS ON BLEACHED FLOUR**  
Testify in Case Now Being Heard at Kansas City—Some Do Not Like It at All.

KANSAS CITY, Mo., June 10.—Bakers occupied the stand as government witnesses in the bleached flour case in the federal court here today.  
Frank Westerman, a baker of Chicago, said he filed a complaint with Society of Agriculture at Washington, D. C., when he discovered that bleached flour had been purchased of a St. Louis broker gave him biscuits and crackers an undesirable flavor. Alexander Taggart of Indianapolis testified that bread made from bleached flour did not have the good rich flavor of bread made from unbleached flour. The witness on cross-examination admitted that he had never used any bleached flour made by the Lexington Mill and Elevator company of Lexington, Neb., or any bleached flour made from Missouri, Nebraska or Kansas wheat. The attorney for the millers then moved that all the witness testimony be stricken out as irrelevant, but the motion was overruled. F. H. Krite of East St. Louis, Ill., who was on the stand when court adjourned yesterday, was the first witness called today. Krite testified yesterday that at one time when his mill was equipped with a bleaching system, the flour with which the bleaching was done had eaten up the wrought and cast iron pipes, and it was necessary for him to replace these pipes every year.

Merton F. Dennison of Red Wing, Minn., a miller, testified yesterday that dough made from bleached flour was less elastic than that made from unbleached flour.

William Graham, a miller of Groton, S. D., testified that he had used a bleaching process for two years in his mill. He had not used the Alsop process, but on that treated the flour similarly in bleaching. He said that his experiment had proven that using a given amount of flour the unbleached product gave a better volume of bread than the bleached and that the bread made from the unbleached flour retained the natural flavor of the wheat, but that the bread made from the bleached product was less palatable.

**MORE BUCKETSHOP BILLS**  
Grand Jury in Washington Indicts Western Union Telegraph Company.

WASHINGTON, June 10.—The federal grand jury today returned an indictment against the Western Union Telegraph company, charging it with forty-two violations of the bucketshop law of March 1, 1909. The claim is made that the Western Union company, by means of a telegraph wire and a ticker, aided and abetted the conduct of the bucketshop in the District of Columbia.

The forty-two counts in the indictment vary only in the date on which the alleged violations are said to have occurred. The indictment also charges that on the various dates mentioned the company with intent to aid Edward, Altemus, Louis Cella, Angelo Cella, Samuel Adler, C. A. Tillis, Henry C. Stumper, William C. Fox, Robert Hall, Samuel Raymond, Oscar J. Hapner, E. M. Browning, Henry R. Durfe and Charles A. Allen, who were said to be interested in or agents of the Standard Stock and Grain Dealers of Jersey City, in making and offering to make divers contracts prohibited by the bucket shop act of March 1, 1909, "did unlawfully communicate to said keepers of said bucket shops by means of a telegraph wire and an instrument known as a ticker, a large number, to wit:

"One thousand quotations and prices of divers securities."  
An additional indictment charging the conduct of a bucketshop in the district was filed today against William E. Price, Virgil P. Randolph, Henry M. Randolph, Charles T. Moorehead, Edward Waldon, James A. Anderson, all of Baltimore, Md.; Thomas H. Campbell, John P. Aitberger of Philadelphia, Joseph F. Gatins of New York and Edward Everett Taylor of this city.

**Manassas Pioneer Dead.**  
LAKE CITY, Ia., June 10.—(Special.)—E. L. Ebersole, a pioneer resident and business man of Calhoun county, passed away yesterday at his home in Manassas, after a year's painful illness of heart trouble. He was born in 1846, in Ohio, and came to this state in the sixties. He was the founder of the successful Manassas Bolt Mills, in 1873, with his father and brother, and was a member of the Masonic lodge, which will have charge of the funeral.

**IOWA GRAND ARMY ADJOURNS**  
Review Given at Fort Des Moines for Old Soldiers.

**COWNIE, CASE UNDER PROBE**  
Damage Suits Will Follow if Charges in Several Newspapers Are Not Sustained by Grand Jury.

DES MOINES, Ia., June 10.—(Special.) (From a Staff Correspondent.)  
The closing business sessions of the department encampment of the Grand Army of the Republic and allied organizations were held today, with installation of officers and the formal reports and making up of delegations. A military review was given at the army post for the old soldiers. General G. M. Dodge, who goes to the national encampment as delegate-at-large, returned to his home today.

The department adopted the recommendation of Department Commander McDonald in regard to the removal of the Iowa Soldiers monument to a more suitable location and named a committee to wait upon the legislature to secure that result.

**Probe into Cownie Charges.**  
The Polk county grand jury is evidently making a thorough investigation of the charges against Governor Carroll with respect to the management of state affairs, through the Board of Control and especially with regard to the alleged misconduct of John Cownie, the deposed chairman. Editors of several Iowa newspapers were called before the grand jury today to give evidence which they are supposed to have as a basis for various editorial utterances attacking Mr. Cownie. The latter asked a full investigation, and in case the grand jury finds that accusations are not well founded damage suits will follow.

Mr. Cownie has also asked that the government indict the criminal libel. The editors summoned today are "The Register" and include Bernard Murphy of the Vinton Eagle, C. F. Chase of the Atlantic Telegraph, J. W. Jarnagin of the Cedar Falls Record and Howard Rann of the Manchester Press.

**Carroll Thanks Supporters.**  
Governor Carroll issued a short statement today thanking his friends for their support and expressing satisfaction with the result. His majority is 7,200. He said: "We shall now have about five months before the fall election, and I shall use all the influence that I have to win an old-time victory for the party, not only in the state, but in the congressional and legislative districts and counties of the state."

**Two Murder Cases Decided.**  
The supreme court of Iowa rendered decisions today in two cases involving first degree murder. In the case of James Watkins, who was convicted in this county of murdering James Weaver, the trouble arose over a woman who had lived with Watkins eight years as his wife then suddenly left him and married Weaver. In the case of Jesse Finly of Potosi county, he had killed T. W. Reed in a quarrel and got a life sentence. The court affirmed both cases.

**Game Law Case Decided.**  
In the case of the state against J. D. Carson of Clay county, the game law of the state was involved. He had shipped some prairie chickens out of season, starting them outside the state, but the box was intercepted and he was prosecuted. He claimed that the shipment was incomplete and therefore he was not amenable to the law. But the court held that when he delivered the box to the carrier it was a legal shipment.

**Court Decisions.**  
State against Charles Dean, appellant. Affirmed from Lucas county, affirmed. State against Jesse Finly, appellant. Affirmed from Potosi county, affirmed. State against D. Carson, appellant. Affirmed from Clay county, affirmed. State against E. F. Daugherty, appellant. Affirmed from Lucas county, affirmed. State against James W. Watkins, appellant. Affirmed from Polk county, affirmed. O. D. Fulkerson against Joseph Husting, appellant. Affirmed from Washington county, dismissed. D. E. Schuchert, appellant, against Mary Watta. Affirmed from Polk county, reversed.

**FULL RETURNS FROM SHELBY**  
Two-Thirds of Republican Vote Drawn by Fight.

HARLAN, Ia., June 10.—(Special.)—In the Harlan primary fight ever waged in the Ninth congressional district it is apparent that Walter I. Smith, the present congressman and standpat leader has defeated Attorney General Byers of this city, the progressive candidate for the nomination by 1,600 majority.  
In Shelby county, the home county of Byers, he was given a splendid vote and twenty-three precincts out of twenty-four give Byers a majority of 52. The city of Harlan gave Byers a majority of 37.  
In the governorship race in Shelby county, Carroll, the standpat, republican candidate, received 600 against 573 for Garst, the progressive opponent. In the democratic race for governor Shelby county

gives Claude S. Porter, 250; Bashlor, 75; Moon, 62.  
For state senator in the Eighteenth senatorial district, composed of Cass and Shelby counties, Attorney Thomas H. Smith of this city carried this county by 18 majority over Rush Benedict, his progressive opponent. Twelve precincts in Cass county out of twenty give Smith a majority of 25 over Benedict, thus insuring Smith's nomination by 300 in the two counties which compose this district. Representative C. F. Swift of this county was not opposed for the democratic nomination as senator.

On the republican state ticket Shelby county gives Cosson, 66; Peesley, 34, and Chantland, 192. For superintendent of public instruction, Pickett leads, with 34; Brainard, 31; Riggs, 28; Lark, 26, and Wiley, 12. For clerk of the Supreme court, Grubb received 431 votes; Bouquet, 34; Garrett, 21. For supreme court reporter, Cornwall received 642 against 421 for Ferguson. For railroad commissioner, Palmer received 513; Thorne, 328; Wilson, 305; Ferguson, 140; and Sisk, 101.

In the democratic race for congressman in the Ninth district Former State Senator W. F. Cleveland of this city carried this, his home county, over his democratic opponent, Henry B. Holsman of Guthrie county, by the remarkable vote of 474 to 27. Indications are that Cleveland has carried every county but large majorities. In Shelby county the republican candidates chosen at the primary were Representative Frank D. Nelson, auditor, William Smith, treasurer, George H. Miller, clerk, Charles O. White, recorder, Rasmus Christensen, sheriff, Taylor Blumner, county attorney, Shelby Cullison, county superintendent, Rose M. Parker, and county supervisors, Eli Wilson and Clarence Jacobsen.

The democrats nominated Charles Escher, jr., of Botina for representative; auditor, E. A. Schell, treasurer, Henry Breister, clerk, H. A. Swain, sheriff, J. J. McMahon, recorder, George E. Stewart, superintendent, Albert McGinn; surveyor, Peter I. Petersen; coroner, Dr. E. A. Moore, with Jorgen H. Petersen and George E. Miller for supervisors.

In the county nearly two-thirds of the republican vote was cast on account of the strenuous fight between Smith and Byers for congress. The democrats polled only a light vote, as they had no contests to settle particularly.

The standpaters and progressives carried their fight for the delegates to the county convention and in every precinct in the county there was two candidates for party committee on the republican side. In these contests the progressives have a small majority and will control the county convention here by a majority of fifteen delegates.

**JOHN JUNKIN TO BE HANGED**  
Supreme Court of Iowa Affirms Sentence of Man Convicted of Murder of Miss Rosen.

DES MOINES, Ia., June 10.—The Iowa supreme court today handed down an opinion affirming the lower court in sentencing John Junkin to be hanged Friday, July 29, in the penitentiary yards at Fort Madison. Junkin, a negro, murdered Clara Rosen, a white girl, with a huge stone as she was returning to her home in Ottumwa from choir practice one night in the winter of 1908.

**Trade Among All Principal Countries of the World is Increasing.**  
WASHINGTON, June 10.—International commerce, according to statistics procured by the Department of Commerce and Labor, showed a marked improvement in all the principal countries of the world for the year ending in April, 1910.

A report of the bureau just issued states: "International trade, as is well known, fell off in the period following the financial depression of 1907-8, as a consequence, the import and
