

### York's New Odd Fellows' Temple

York Odd Fellows are to have a new home, ground for which was recently broken. Hon. G. L. Loomis of Fremont turned the first shovel of dirt for the building, a photograph of the operation being appended. It is planned to lay the cornerstone of the new building on July 4, at which time the Odd Fellows expect to have a glorious celebration in York. All the Odd Fellows of the state are invited to be present, and an extensive program is being arranged. The York Commercial club is taking an active part in the affair, and its president, A. B. Christian, is sending out invitations to every Odd Fellow to come to York and join in the festivities. Several hundred members of the order are expected on that occasion. The building will be one of the handsomest in the city. Its exact cost is not fully determined because of interior decoration plans.

#### NORMAL STUDENTS TO WEEP

Sorrow Awaits Many from Peru Who Hold White Paper.

#### FIFTY-SIX WILL GET DIPLOMAS

Of Hundred Eighty-Six Announced as Entitled to Graduate, Smaller Number Only Have Full Credits.

(From a Staff Correspondent.)

LINCOLN, June 11.—(Special.)—Disappointment, sorrow and humiliation awaits a large per cent of the graduating class of the Peru Normal school, due to the false hopes raised by Principal Crabtree in his talk to the students on commencement day. Mr. Crabtree has been given credit for turning out the largest graduating class in the history of the school, but the records of the state examining board, which has passed on the credits of the students, will show that the number has been materially reduced. In fact of the 182 announced as having graduated only fifty-six had sufficient credits to get them through with first grade certificates.

In a talk to the students when he presented them to the State Normal board, Mr. Crabtree is quoted as having said in substance: "You have finished your work here and you are entitled to certificates," then turning to the members of the Normal board present, he continued, "and recommend that you be given certificates."

When this information was brought to State Superintendent Bishop he was very much surprised and somewhat aroused that the normal school president would make such a statement when he knew the credits of each student were not entitled and that the Normal board is in no way responsible for the credits or the sales. Astandard has been set for graduation from the normal schools, and it can be easily told on the first day of school whether a student is able to receive sufficient credits to be graduated.

The large graduating class was lined up on the stage at the Peru normal on commencement day and each was presented with unsigned diplomas or rather white paper rolled and each was given to understand that his diploma or certificate would be signed in due time without further effort or cost on his part. When the examining board checked over the credits it was discovered that many did not graduate and cannot be graduated until much more work is done.

#### Records of Board.

The records of the examining board show this: Fifty-six students received first grade certificates and twenty applicants were rejected; for junior certificates twenty-one were approved and ten rejected for trainers' certificates, five were approved and one rejected. Of candidates for first grade certificates at the close of the summer school, thirty-eight will be accepted and thirty-four will not; for junior certificates at the close of the summer school, four will pass and fourteen will be rejected; for trainers' certificates at the close of the summer school, six will receive certificates and six will not.

Mr. Crabtree in his talk to the students gave each of them to understand he was entitled to certificates. At this time there are a great number of students graduated from the Peru normal school in 1909, the late defunct democratic board and Principal Crabtree, who are teaching, who have no legal certificate, because they have failed to come up to the standard fixed by the committee of which Mr. Crabtree was a member.

The records of the examining board on that class of 1909 show this: Recommended for diplomas, 182; rejected, five; diplomas in hands of the board, nine; elementary certificates recommended, fifty-four; no certificates on file for twenty-nine; withheld for lack of credits, nine; certificates withheld because of a lack of credits and credits, thirty.

#### Checking Up Credits.

When the democratic board was declared unconstitutional by the supreme court, the regular board ordered Mr. Crabtree to file at once credits to which all students were entitled, so that new and legal certificates might be issued. In some instances the normal school requested copies of the records from the state superintendent in order to check up the students. Some of these records have been changed after leaving the hands of the state superintendent. In one instance a student who had in the original record been given credit for eighty-four weeks was given credit for 184 weeks before the records were returned to the state superintendent. Mr. Bishop has given orders that hereafter requests for these records be refused. The law fixes the standard maintained by the normal schools as the standard to be maintained by the private schools, so State Superintendent Bishop and other members

### Nebraska

#### Flag Day Proclamation.

Governor Shallenberger has issued the following Flag Day proclamation: By virtue of the authority in me vested, I hereby designate and proclaim Tuesday, June 14th, Flag day. On this 133rd anniversary of the day when by act of congress the stars and stripes were adopted as the national emblem, we are again reminded that the devotion to liberty and justice of our countrymen is as fervent and enduring as the foundation upon which rests the greatest achievement in popular government recorded in all history.

Let our observance of the day be such as to inculcate in our young men and women a lofty patriotism, a sense of duty, and a love and veneration for the flag be renewed in a sincere appreciation of the price human liberty. It is accordingly directed that on this day Old Glory be displayed from the capitol building and all other public buildings. It is earnestly requested that the citizens of Nebraska exhibit the flag on their homes, places of business and all public buildings and may there be a general and appropriate observance of the day.

#### National Guard Recognized.

Adjutant General Hartigan has received information from the War department that the postmaster general has ruled that employees of the postoffice who are members of the National Guard are entitled to leave their duties without pay whenever called out by one in authority of the guard. The postmaster general said it was the aim of the department to encourage the guard as much as possible. A number of guardsmen are affected in Nebraska.

#### Graduate from Military School.

The graduates of Shattuck school, Fairbury, Minn., have been certified to the adjutant general as follows: Herbert M. Grainger, Lincoln; Robert J. Williams, Omaha; and Crawford J. Mortensen of Ord. The names of these young men will be kept in the office of the adjutant general, and in case of need they will be called on to take commissions in the National Guard.

#### Ludden Hearing Monday.

The hearing on the application of Luther P. Ludden for a mandamus to compel the state auditor to pay him salary as secretary to the State Normal board has been set for Monday afternoon. Arthur Mullen will appear for the auditor and fight the order.

#### Queer Democratic Doings.

The question of who really made the motion to endorse the Oregon plan of electing United States senators at the meeting of the democratic state committee will not be permitted to go down to history alongside "Who struck Billy Patterson?" Arthur Mullen, state oil inspector, regardless of his statement yesterday, has come forward to stop the discussion, take the responsibility and tell just what happened on that all important question which caused the secretary of the committee to have a lapse of memory.

"I made the speech to the committee suggesting that we should endorse the plan," said Mr. Mullen. "It was the first speech made regarding resolutions. When I sat down I suggested to Mr. Placek to follow my talk with the motion, and he did. So, while I technically did not make the motion, I did suggest the action to the committee, and then asked Mr. Placek to make the formal motion."

Before the committee met Harvey Nebraska branch and Mullen discussed the advisability of passing a resolution endorsing the Oregon plan, and Mr. Mullen agreed that he would stand for the endorsement, though opposed to any other resolutions that might be suggested.

Now the only mystery that remains about that committee meeting is who inspired Leo Matthews, secretary, to write the minutes of that action, after he had said his minutes contained no mention of any action on the question. If he wrote the minutes as the action occurred, who inspired him to forget that he had done so?

#### Nebraska News Notes.

BEATRICE—The returns of the assessors' schedules show that the amount of \$20,000 was expended last year for improvements on farm and city property in Gage county. WYMORE—The Booster's club has engaged Jimmie S. Burnham to direct the Wymore band during the summer months, and to furnish concerts every Saturday, and for all special attractions. M'COOK—Mrs. Nick Hoffman died of pneumonia Thursday night in this city. Deceased was 74 years old and leaves a husband and one small child. The body was shipped this evening to Republic City for burial. WYMORE—Mayor James C. Dahlgren of Omaha has accepted an invitation to deliver an address here the morning of the Fourth of July in connection with other events held here that day to commemorate the nation's birthday.
