Creighton Pasture May Be Chosen for Aero Meet

Committee Has Asked Park Board to Keep Site Clear for Some Time Until Decided.

Clark Powell of the committee arranging for the aviation meet to be held in Omaha in July, has secured the consent of the Park board to defer action on the grading of the section of the northwest pasture until next Wednesday, Permission of the owners of the tract known as the Creighton pasture has been secured to use dustry. it for the aviation meet, and, if this location meets with the approval of the representatives of the aviators, the local committee will request the Park board to defer action on awarding the grading contract until after the meet. At a meeting to be held next Wednesday, the committee will appear before the board and explain just what its desires are.

"It is very desirable," says Mr. Powell that we get the field located as handy the chancellor, as possible to the street car service. We would locate the meet at the ball park if the enclosed space was targe enough, but we found it would not do. We must have a level tract, and the Creighton pasture appears to be about the most available site

Lost Money in Victim's Pocket

Charles Bambush Thinks Robbers Get His Wallet, but Police Find it on Him.

Charles Bambush, 1126 North Twentieth street, reported to the police Friday night that he had been assaulted by highwaymen and robbed of \$90. Saturday morning the police, on examining his pocketbook, found the \$90 in a hidden compartment. Bambush also claims to have lost a watch. According to Mr. Bambush's account, he was walking across a lot between Nineteenth and Twentieth streets, when the two assallants rose from ambush in his path and one of them struck him a powerful blow on the body. As he sank senseless to the ground, they robbed him. His con-Mr. Bambush is foreman of the pipe gang

ADDRESS BY CHANCELLOR AVERY

Devotes Attention to Nebraska and Its Field of Opportunity-

> Scholarship for Ralph Elmer Curti.

the address.

the students before him were from a city in his former production. devoted to one of the fundamental industries, that of preparing the meat products of the nation. Such a practical ndustry he said would of necessity have direct influence toward the practical vocations and study.

The greater proportion of the state was devoted to a similar fundamental industry that of agriculture, the field where products were prepared or rather produced. Such an industry has had its effect on

wealth produced by it is better distributed than in most states. Yet the mineral resources of the state are practically absent. The chancellor said while in Europe he was asked "What are the mineral resources of Nebraska?"

He said, "We have no great mineral resources nor have we water power of such means of transportation."

"Then," said the questioner, "you have a good, sober, industrious class of citizens, for the rougher elements go where the gold is mined."

The beginning of the present university system, as brought out in the discussion, was in the Prussian empire when it lay prone under the feet of the conquering Napeoleon. The educational system was about the only thing which the great war-German people, which is destined to be one of the chief rivals of the Anglo Saxon for supremacy.

The, American university is largely influenced by the German. The west has boulevard that will pass through Creighton generally reacted on the old-time university also, and caused the introduction of more of the practical fields of science and in-

Growth of Education.

The growth of the educational system has been remarkable, so that the South Omaha High school graduate of today is doubtless a more accomplished scholar than was the Harvard graduate of 100 years ago. "It is not our object to detract from the old-time collegiate system, but to add to It the needed modern turn of industry and

The need of college transcer to of the need of a thirty-horsepower engine lowa Commission company.

in an automobile. Its full power is not needed in the ordinary events of life, but omes handy in case of necessity.

Chancellor Avery urged the class before him to retain the analytical and scholastic point of view. He said, even if a college course could not be continued, its need could be greatly substituted by effort on the part of the student with his present high school advantages.

Following the excellent address, which was brief on the whole, the diplomas were presented by Ralph Yechout, president of he Board of Education. After this the lonor graduate was named by Perry McD. Wheeler, principal of the high school

This coveted honor was won by Ralph Forty-two candidates received diplomas Elmer Curti, who received his honors, a ast night in honor of their graduation scholarship to the Nebraska Association of from the South Omaha High school. The Colleges, on a grade which was one-third function was one of more than the of one per cent higher than that of Earl ordinary importance owing both to the Sage. Earl Sage has had a full share of haracter of the class and the dignitaries honors in the class. His triumph in the of the occasion, Chancellor Samuel Avery high school dramatics of Wednesday night of the University of Nebraska delivered was such as to satisfy the most ardent ambition of a boy. He added another last Beginning with South Omaha, the chan- night by presenting a most finished plane cellor found much good in the fact that rolo with quite the same individuality as

The senior high school girls' quartet added to the pleasure of the occasion. They sang "Annie Laurie" and "Lights of Homeland." The program was introduced by the South Omaha High school chorus, composed of about fifty voices.

The South Omaha High school orchestra had an important role in the program. Diplomas were presented to the following candidates:

such an industry has had its effect on the thought of the people engaged in it and has in the fifty years of the life of the state produced a characteristic people. One of the concrete examples of the thought of the people is its educational system.

Nebraska Fortunate.

Nebraska Fortunate.

Nebraska is in a measure fortunate that few manufacturing industries are here established. The effect of a great manufacturing industry and especially those which require the labor of numbers of children is often very injurious to the intellectual insight of its people. In Nebraska the country is prosperous to a degree, the soil is inexhaustible and the wealth produced by it is better distributed than in most states. Yet the mineral response in the country is prosperous to a degree, the soil is inexhaustible and the wealth produced by it is better distributed than in most states. Yet the mineral response in the fifty years of the life of the people in the labor of numbers of children is often very injurious to the intellectual insight of its people. In Nebraska the country is prosperous to a degree, the soil is inexhaustible and the wealth produced by it is better distributed than in most states. Yet the mineral response in the fifty years of the life of the people in the labor of cancerdational both and both am Bothwell, Angelus Marie Berven, Lucy B. Chase, Bertha Alice Cuaghey, Iva Clark, Bernice Conaway, Eurice Conaway, Raiph E. Curt, Georgian Ruth Dickman, Carl A. Dickm Frances Marie Berry, Glenn W. Briggs, Clare Franklin Young.

Harry Nixon Appointed. Harry Nixon, who graduated from the University of Nebraska this year has been newly appoined in the office of the city engineer to one of the positions of assistance. He will take up his duties at once. He has been a resident of the city for a number of years and is well known among the younger people.

Magie City Gossip. The Modern Brotherhood of America gave a card party last night at their hall. Robert Anderson of Malvern, Ia., is the guest of Mr. and Mrs. J. C. Trouton, 519 North Twenty-fifth street.

Only in These Five Pianos Can You Secure the Famous Pianola Itself

Steinway - Weber -- Steck - Wheelock -- Stuyvesant Do not confuse these two widely contrasting terms-"Player Plano"

and "Planola Plano." On the printed pages, they look

somewhat alike; but— The "Player Piano" means any piano containing any playerwhile the "Pianola Piano" means a plane containing the real Planola itself.

In the musical result, the difference is vastly important. In cost, it is hardly apparent.

In only five pianos has the Pianola ever been built. Note well their names. For-price for price-the whole world cannot match them in value-STEINWAY-WEBER -STECK-WHEELOCK-STUY-

The Player Is the Thing

This is an immensely important fact. In choosing a player plane, you cannot be guided by the name or the fame of the plane alone.

For the greatest plane—even a Steinway or a Weber—must at once lose musical value if equipped with a poorly made player.

You cannot secure satisfaction unless both the plane and the player are Now Consider the Pianola

Few people today dispute the fact that the Planola is the one great planoplayer. In every country under the sun it is the actual, accepted leader.

Such unapproached prestige comes only through merit.

The Planola represents more experience—it has benefited by more experiments—it has eliminated more mistakes—it embodies more exclusive musical and mechanical inventions than all of its imitators combinde.

Two History-Making Inventions

Aside from the Pianola itself, no modern musical inventions compare in importance with the Metrostyle and the Themodist

By means of these two simple devices, the Pianola enables anyone to put into the music more expression more feeling, more delicate shadings than can be secured by any except the most skilled pianists.

These are two of the many great features that are exclusive with the Pianola and the Pianola Piano.

Your Visit to Schmoller & Mueller's

You are invited and urged to come to our warerooms and listen to the Pianola and the Pianola Piano. Or, better yet, to play these yourself.

For expert playing is not at all necessary to prove their simplicity or their superior musical power.

If You Prefer a Piano Without a Player At Acolian Hall you will also find as superb and complete a line of pianos, in various grades, as America can produce.

This wide range of choice runs the entire gamut through the unexcelled "Weber," the famous "Steck," and the well-known "Wheelock" to the modest but reliable "Stuyvesant.

Lowest Prices-Convenient Terms The Aeolian Company is by far the largest piano and piano piayer institution in the world. The daily volume of business here is unequaled anywhere else. That is why we can make the lowest prices and give the highest values at terms that suit your convenience.

Nowhere else can musical instruments be bought to better advantage than here.

Nowhere else can induct that the content of the con SCHMOLLER & MUELLER

WHAT PERPETUAL CARE MEANS

If you will visit any old time cemetery, where the lot owners are assessed anqually for the care of their lots, you will observe many neglected lots, rank with grass and weeds and a general appearance of neglect and decay. You may take the best of care of your lot, but the general effect is ruined by the neglect of your

IN WEST LAWN CEMETERY

perpetual care of every lot and every single grave purchased, as well as the buildings, inclosures, drives and walks is guaranteed by a special fund created by setting aside 20 per cent of the income from the sale of lots. The interest from this fund is available for no other purpose, hence, the work will be done one hundred years from now the same as it is today. The neglected condition, such as you have seen in some cemeteries, will never be seen in West Lawn cemetery, no matter how simple or inexpensive a lot or grave may be.

THE PRESENT PRICE

of a single grave or a lot in West Lawn cemetery is very reasonable when you consider that 20 per cent of the price is set aside for perpetual care, and once paid for there is no further charge in the years to come, whereas in some cemeteries, a single grave is paid for every ten or twenty years if the assessments for annual care are West Lawn cemetery gives the lot owner the full value of his purchase and the

steadily increasing perpetual care fund insures the permanency of the cemetery. The prices of lots are as low as it is possible to make them and carry out the perpetual care guaranty, and the terms of sale are most liberal, lots being sold on easy terms without interest or taxes.

COME TODAY TO WEST LAWN

Visitors are always welcome and will receive the same attention and courtesy as intending lot purchasers. Take West Leavenworth street car to Forty-eighth street, and change to the cemetery carryall which leaves Forty-eighth and Leavenworth on the hour from 2 to 6 P. M. every Sunday afternoon. The carryall is always in service and will meet you at Forty-eighth and Leavenworth any time upon fifteen minutes notice to the superintendent at the cemetery. Telephone Harney 4843. Telephone or write for our handsome booklet giving full particulars: mailed on application free of charge.

OXYPATHY

\$500,000,000

IS GOING TO BE SAVED EVERY YEAR.

John D. Rockefeller is giving millions away, but the science of Oxypathy will save the United States alone more every year than J. D.s' millions. A wonderful reformation has taken place during the last few years in science, but the most worthy of all is Oxypathy. The old world is getting too wise to trust deadly drugs. Drug and doctor bills are just as unnecessary as liquor, and have sent more edicts to ruin than has liquor, and to prove the statements we will gladly send you our free book on Oxypathy, which explains how easy it is to be cured in your home of any disease. Investigate, don't allow your loved ones to suffer any longer, to do so is ignorance. We can prove every claim we make by the people that have been cured right around Beatrice and all over the United States. Don't fail to send for our free book.
