CAIRO, Neb., June 14. - (Special.)-Frank Dunlap, a young man of this place, was accidentally drowned while with a party seining a small lake on the Loup river bottom north of here, yesterday afternoon. Dunlap, who was unable to swim, was warned when they were about to get into deep water, and told to stay back, but tried to go through. After getting out of his depth he loosened his hold on the seine and tried to regain the shallow water he had left, but was unable to do so and went down. None of the others, most of whom are good swimmers, was near him at the time, and when they discovered his danger were unable to save him, though they did everything they could. The body was recovered from twelve feet of water after two hours' Mr Duniap leaves a widow and one child. He was a member of the Modern Woodmen and Western Bees.

it is hard to realize that they were not finished by a master of the trade.

A piece of work which is arousing much comment from the visitors is a chess table constructed by Sam Peterson, a second year youth. It is about the size of an ordinary parlor table. The top is inlaid with twelve different kinds of wood, which form the chess board in the center Around the edges the figures are formed by use of different colors of wood working out an ingenious design. The specimen shows extreme care, both in construction and finish.

Another excellent piece of work is hall clock which was made by R. M. Parkinson. It is of weathered oak and stands about six feet high. The young man who built this clock also designed it and made the blue prints.

A library table anod writing desk com bined, made by H. O. Fisher, is a novelty, He has constructed the writing desk in the shape of a drawer that can be pulled out at the side of the table and give plenty of room for work with pencil or pen. This same boy built a davenport which is excellent both in design and construction, Oother pieces which were made by the boys show much care and study.
