Hayden Bros.' Special Clearing Sale

Tomorrow morning we will place on sale several magnificent piano bargains in slightly used pianos. Magnificent because few of them have not been used to any extent. They were received in exchange from people who purchased pianos and piano players from our great Smith & Nixon, Richmond and Piano Player stock.

Quite a number of these pianos came in exchange for players because of their inability to play a piano, therefore some of them are almost new. We also have a large number of pianos that came in from rent, little used. These pianos have gone through our factory and are almost new, and now on our floor and we must have the room. THEY MUST AND WILL BE SOLD AT ONCE.

The usual low price made, marked plain on each one, removes all doubt on that score. This is no BIG SALE. It lasts only the time necessary to dispose of these pianos for semi-annual inventory, but shrewd and economical buyers will find this the real piano opportunity of the season. Don't fail to call and investigate at least.
