WARNING TO **MODEST WOMEN**

Do you realize that the medicine you are taking may be doing you harm instead of good? Have you noticed that the more you take the more you require to get relief? STOP AND THINK.

Are you using the same caution in the selection of the medicines you are taking for the protection of your health that you would exercise in selecting a trustee for the protection of your cash?

A woman's ailments are delicate subjects to discuss, and she will ofttimes bear the most torturing pains without confiding her trouble to her closest friend, or even her family doctor.

This natural feminine modesty makes many a suffering woman the innocent victm of merciless and avaricious manufacturers of advertised, but worthless, "cure all" nostrums.

If your ailment is serious you should see your family physician at once, but when this is impossible do the next best thing-take

CIVIC COUNCIL OF STATE Big Snag Boat Woman's Work Meeting at Commercial Club Decides Activities of the Organized Bodies Along the Lines of Un-dertaking of Concern to Women.

JOHN MITCHELL GIVES ADDRESS

At the close of a meeting held at the

Commercial club rooms Monday afternoon eligibility in studies. Each officer will get ready enlisted as assistants are Mrs.

action was taken to organize a state council of the National Civic federation. By a motion made by Victor Rosewater, Governor Shallenberger as chairman of the

meeting will appoint a committee to formulate a plan for the organization of such a council in Nebraska. The governor said

he will name the committee after giving the matter some further consideration. This action followed brief speeches by the governor, Ralph Breckentidge of Omaha, Dean Burnett of the State Agricultural school, John Mitchell, former president of the United Mine Workers of America, who is now the chairman of the trades agreement committee of the federation, and

Ralph M. Easley, chairman of the executive council of the same body. In opening the meeting, Governor Shal-

lenberger made the point that more uniformity is not the only thing to be desired in law, as uniformity might become merely another name for medlocrity. He did not believe it would be well to have in Nebraska such an organization, as was pro

posed, and expressed the belief the great western section of the country would yet be able to act successfully as mediator or referee for the warring factions of capital and labor congregated in the older sections, where population is congested and where the industrial struggle is severest.

of the work already done in the direction of bettering the statutes of states. He in-

stanced the securing of uniform negotiable instruments, merchandise receipts, bills of

lading and of sale, and similar features

in many of the states, and outlined many
