coal.

We can mine and mill this gold ore at a profit. But none of us have money enough to go ahead with the necessary construction.

Here are the facts: We can SELL THE WHOLE MINE at a profit. It was mined thirty years ago and the ore sent to Pueblo, Colorado, to be smelted. The men who owned it got rich so that they shut it down when the Sherman Act was passed. We can wait for the country to grow and wait and wait, until we can get the money together for ourselves. We don't do either of these things for the same reason that the Kuhns didn't do it. THE KUHNS, the Pittsburg millionaires, HAVE SPENT ONE HUN-DRED AND THIRTY MILLIONS

OF DOLLARS DEVELOPING IDAHO. You don't suppose they used their own money, do you? CERTAIN-LY NOT. They got their friends in and their friends got other friends in. They advertised their bonds for sale and they asked public subscriptions to their stock. That's the way Idaho HAS BEEN DEVELOPED. And that's the reason why we are doing' what the Kuhns did. IT IS ESTI-MATED THAT THEY WILL MAKE SIX HUNDRED MILLIONS OF MONEY OUT OF IDAHO. We are doing what the Kuhns did with their projects. We are doing it with ours. Now if you will do what the people did who subscribed to the Kuhn stock, bonds, and debentures, then you will reap in the exact proportion just as their friends reaped.
