Fair and Continued Warm Predicted for Tonight and Sunday.

OMAHA, June 25, 1916. Within the last twenty-four hours fairly good rains were quite general throughout the Miseouri valley and scattered showers OMAHA, June 25, 1916.

No general rains as yet in the apring wheat belt. Only lighter scattered showers and prospects are for more dry weather following.

Damaging reports are very numerous, the most serious coming from South Dakota. Present damage by the dwouth estimated from 15 to 50 per cent.

The corn belt has been relieved of the extreme dry conditions, particularly in Neutranska. Showers were fairly general in the western portion of the state. A more active fush demand is evident and prices firm. Wheat opened slightly lower on proper taking sales. Later reports from the north-values firmed up and closed well over years reday's close.

Corn held firm again, with the strength in wheat. Weather conditions are some improved, but prospects are not good for the vicinity tonight and scattered showers were generally light and scattered over the eastern portion, but were nearly at Broken Edw. Excessive rains continued at Broken in this vicinity tenight and Sunday.

The minimum temperature and precipitation compared with the last three years:
1910, 1909, 1906, 1909.

> SILVER—Bar, 85%; Mexican dollars, 44c. BONDS—Government, steady; railroad, steady. the market say that political and general business conductors are giving rise to fluor tuntions. The program before congress and the attitude of the legal department of the administration have a great deal to do with the restless countion of the market.
>
> June finishes the first half of the present montax year. The end of the present montax writes finis upon a very uncertain six writes finis upon a very uncertain six months, so far as the affairs of Wall street are concerned. Looking out beyond this period July promises to be a very important month. Statistics show that \$235, 099,98 will be disbursed next month in interest and dividend payments by corporations. The dividend payments by corporations will pay out in flydends \$53,21,090. This is a big increase over July of last year and shows a healthy business condition of the market. Industrial and miscellaneous corporations will pay out in dividends \$53,21,090. They will pay out \$83,734,090. Industrial and other corporations aside from railroads will pay \$15,53,090 in interest.
>
> Morgan is Not Talking.
>
> An utterance made this week by Thomas F. Ryan, who is now enroute for Europe, insolar as it shows the vast financial power of J. P. Morgan, says that it will require the combined genius of seven of the most brilliant business minus in the world to handle the affairs of Mr. Morgan in case the Napoleon should suddenly face a condition compaling him to relinquish active control of his present enterprises. Mr. Morgan arrived this week form Europe, but asade from his declaration that he would reappoint three trustees to administer the affairs of the Equitable Life Assurance society, he had nothing to say.
>
> Weather conditions in the northwest have given rise to some trepidation, but rains

from Europe, but ande from his declaration that he would reappoint three trustees to administer the affairs of the Equitable Life Assurance society, he had nothing to say.

Weather conditions in the northwest have given rise to some trepidation, but rains have now been reported through Minneysota and the Dakotas, which is a very y good thing for the crops. The protracted drouth promised for a time to be disastrous.

The advent of easy money in London at this time of the year is always more or less of an influence upon the American money market. What effect it will have upon the present occasion is more or less problematical. Bankers here may avail themselves of the opportunity to borrow money abroad at cheap rates. There is no immediate demand for money, although a bull movement may be started for personal advantage. If this is done there is no doubt that the monetary situation here this fall would feel it. A firmer tone is asserting itself in the call money market.

More is ref. 62.

105 gives rise to Some trustees have a series in the Equitable to Some trepidation, but rains have and the Dakotas. Which is a very y good thing for the crops. The protracted drouth promised for a time to be disastrous.

The advent of easy money in London at this time of the year is always more or less of an influence upon the American money market. What effect it will have upon the present occasion is more or less problematical. Bankers here may avail themselves of the opportunity to borrow money abroad at cheap rates. There is no immediate demand for money, although a bull movement may be started for personal advantage. If this is done there is no doubt that the monetary situation here and by July 1 business will be done to a much higher rate.

The week in the hog yards has been one of heavy receipts and widening prices. Lighte hogs are closing just about steady with a week ago, while heavies are fully a dime lower. Demand has been broad and active on most days and, while shippers have not bought very freely, practically everything has sold on the day of arrival.

Cattle, heep and Lambs Steady-Hog Spirited Controversy Between Roads and Shippers.

PROBLEM HARD TO

Traffic Managers Point to Increased Living Expenses as an Excase for Increase of Tariffs.

CHARGE ORAN NAT PROVISED AND ADDRESS AND A

ment station.

The Rock Island has 7,500 miles of line, and in its territory every agricultural problem has to be met; it covers not only that corn, but the winter and spring wheat sections, as well as the cotton belt and the rice-growing sections. The company already has an immigration bureau, employing 5,000 agents. Each family located by them is to come under the personal care of the new agricultural commissioner, and must be converted through practical results into a booster for the particular section in which he locates.

The commissioner will be expected to organize a correspondence bureau, through which questions put by prospective settlers will be intelligently answered; to organize a bulletin and pamphlet service; arrange for co-operation between the bureau and agricultural colleges and experiment stations of thirteen states; arrange for lectures, farmers' institutes and special institute trains; co-operate with the United States Department of Agriculture experts; arrange for publication in agricultural newspands. arrange for publication in agricultura news-papers of articles that will benefit Rock Island settlers; prepare articles to be used by country weeklies and dallies, and pub-lish an official news sheet.

Midway Pacific

VESTMENT IN AN OIL COMPANY IN THE GREAT MID-WAY FIELD OF CALIFORNIA.

CHANCE TO BE-CURE AN IN-

This company will stand the closest investigation and invites capital only upon the strict merits of its proposition.

The Ground is the Cream

The company owns 400 acres in fee simple. No leases, and therefore no royalties to pay. Three hundred and twenty acres of this are on the axis of the anticline, and are recommended by Oil Expert W. R. Jeweil, formerly in the employ of the U. S. government. Eighty acres are surrounded by the Ploneer Midway and a dozen other gushers. Every acre is worth big money.

The Company is Reliable

The officers of the Midway Pacific Oil Co. are: James L. Boyle, oil operator, president; Don W. Carlton, chief teller First National Bank Los Angeles, vice-president and treasurer; Lester F. Scott, attorney, secretary; Amos H. Stevens, deputy attorney general of the State of New York, and Walter W. Griffith, of Lord & Thomas, directors. Banking and commercial references afforded for individual officers or the company.

The Price is a Snap

A block of stock is offered for public subscription (subject to prior sale) at 35 cents a share, par value \$1.00. At that price every investor may make big profits. We confidently expect our stock to double in six months, and quadruple in a year. We hope to pay dividends within the year. Take as much of this Midway Pacific stock as you can. Do it today. Don't wait. This offer is limited, both in time and in allot-ment. This advertisement may not appear again.
