

over the signatures of William J. Davidson, Lytle I. Abbott and Morna S. Foulson. Immediately upon adjournment of the trustees and the headquarters committee the superintendent, disregarding his last promise, resumed operations under his own plan.

At the meeting of the headquarters committee on February 14 a committee of fifteen lawyers favorable to county option was appointed to draft a bill which when completed and adopted by the headquarters committee was to be the official county option bill of the league. Disregarding this action of the committee, the superintendent had printed and distributed over the state a synopsis by paragraph of his own bill. Realizing the embarrassment of his position by reason of this action of the superintendent the chairman of the committee of lawyers resigned without completing the preparation of a bill.

"Mystery" in Finance. At the meeting of the headquarters committee the district superintendents reported from time to time, their reports consisting of a simple recital of meetings held in churches and large sums of money collected. The members of the committee were nevertheless to learn the details of these collections nor the manner in which the money was expended. The expenditure was solely under the direction of the superintendent and the committee was neither consulted nor advised with respect to the details thereof.

"The report of the treasurer to the trustees on March 4 was prepared by the superintendent, and the treasurer in presenting it stated he had no personal knowledge of the contents except as advised by the superintendent. "Before deciding to take the radical step of resignation we sought a remedy for these conditions within the league. We found that our superintendent was a creature of the national superintendent, Arthur A. Baker of Ohio. No charges against the state superintendent can be considered by the judicial machinery of the league without the consent of the national superintendent. If this consent is given, the tribunal to hear the charges is composed of three elements, one of which is the national superintendent, another the national headquarters committee and the third the state superintendent committee. An appeal lies from the decision of this court to the national board of trustees. The national organization sent us our superintendent. By the above machinery it decides whether he shall stay.

"The Nebraska County Option league, now organizing in every county of the state, is obeying the directions of the York convention.

"Allegation of Inefficiency. "Our personal preference would have been to retire quietly from all connection with the Nebraska Anti-Saloon league in view of the foregoing facts, but we believe our duties to the temperance people of this state require us to inform them that in our judgment, no campaign worthy of the name is being made by the Nebraska Anti-Saloon league to elect a legislature favorable to county option. We appeal to the temperance people in every county to join the Nebraska County Option league and assist it by securing the filing for nomination of acceptable candidates pledged to county option, in all parties, at the coming primaries.

"We believe that the espousal of county option by prominent public men in Nebraska calls for an effective organization within all political parties which will furnish the machinery, without which the battle cannot be won. We respectfully, "REV. SAMUEL Z. STEVEN, "REV. B. W. FELLMAN, "T. W. WIMBERLEY, "J. L. M'BRIEN, "WILLIAM R. PATRICK, "LESLIE I. ABBOTT."

MAN LOSES WIFE, ALSO SAYS HORSE WAS STOLEN

Central City Resident Misses Animal and Blames Man Who, He Says, Eloped with Wife.

CENTRAL CITY, Neb., June 25.—(Special.)—Find the man who ran off with my wife and you will find the man who stole that horse." This was the statement made by Charles Durreen, lately of Hamilton county, when accused by Sheriff Iler of Merrick county at Sterling, Colo., and charged with the kidnapping of Bradshaw and selling it at Central City. Last week a man giving his name as Charles Durreen and accompanied by C. Stalaker, a liverman from Marquette, came to Central City and attempted to dispose of a horse. He approached William Porter and the latter, being acquainted with Stalaker, and understanding that Stalaker knew the man with the horse was all right, purchased the animal, paying over \$100 for it. The next day a man by the name of Eberley, from near Bradshaw, showed up and claimed the horse, saying that he had been stolen from him the day before. Inquiry was made in the neighborhood of Durreen's former residence, and it was found that he had relatives in Central City. These relatives stated that he was at Sterling, Colo., and the Sheriff hastened there to apprehend him. When he was arrested Sheriff Iler found Durreen equipped enough, but it soon became evident that he was not the man that had given that name at Central City, although relatives and friends there testified readily that he was the real Durreen who had formerly resided in Hamilton county. Some time ago a man eloped with Durreen's wife, and he believes that this was the man who stole the horse near Bradshaw and sold it under his name at Central City. Now the officers are looking for the impostor, who has the prospect, if he is caught, of having to face two serious charges.

of its benefits. The state bought land in the same neighborhood for \$125 an acre, which was considered a good price, and this state land could be used for agricultural purposes. As a private park it is said the proposition has never failed, so there are many who believe the owners should simply donate the land to the city and thus establish themselves permanently in the future history of the community. Were this done it is considered reasonably certain that the conscience of the city administration would be pricked for not permitting the First National bank to construct that temporary sign across the sidewalk.

A "boosters" committee has been placed in charge of the campaign for the bonds and considerable money is being spent in circular letters and advertising matter in the interests of the bonds. A good many critics have tried to discover whether the owners of the park have set a price on the land or who will be the appraisers to pass on its value before voting for the bonds. The bond boosters claim that only that portion of the issue of \$50,000 is to be used in buying Lincoln park. This has given rise to the story that probably \$45,000 would be about sufficient. The boosters have secured the aid of the women and children of the city, and there is likely to be a heavy vote polled as some of the most prominent citizens of the community are back of the proposition. No critic has said that Lincoln does not need the parks, but many have expressed a doubt of the wisdom of making people rich under the guise of taking care of the coming generation.

PROMINENT DEAF COUPLE WED

Marriage of Pair at Friend in Occasion of Big Social

FRIEND, Neb., June 25.—(Special.)—The uniting of a deaf couple served as a pretty social function here Wednesday. The couple were Miss Laura Peterson and Richard Bingham. Miss Lillian Kasmussen acted as bride's maid and Mr. John Peterson as best man, both being from Omaha and deaf persons. Rev. Mr. Darby of Friend officiated and Superintendent R. E. Stewart of the Omaha institution where all the parties had attended school, interpreted the services. Two hundred guests helped celebrate the occasion and partook of the wedding dinner which was served sumptuously. The bride's home is a farm mansion. Mr. Bingham, the groom, is the only son of Mr. and Mrs. W. W. Bingham of 1912 Spencer street, Omaha. He is a mechanic employed by the Union Pacific railway, and a favorite among friends and acquaintances. After a wedding trip through Colorado and Utah, Mr. and Mrs. Bingham will be at home in Omaha by August 1.

LAKE AT ERICKSON IS SOLD

Hard Work Falls to Materialize Dream of Merrick County Man.

CENTRAL CITY, Neb., June 25.—(Special.)—The culmination of the dreams of C. A. Stitzer occurred last week at Bartlett, Wheeler county, when the lake at Erickson and the surrounding property was sold by the sheriff to satisfy debts against it. It was bid in by G. H. Gray of this place, holder of the mortgages. Ten years ago C. A. Stitzer was a prosperous druggist. He was always an enthusiastic hunter and fisherman and when he went up to Lake Erickson he found fishing exceedingly fine and in love with the place. He conceived the idea of making it a great summer resort and soon his ideas assumed tangible shape. He formed a company to exploit the proposition and succeeded in selling a great many shares over the state. Lake Erickson is a sort of a widening of the Cedar river to the dam. He had a dam made it permanent. Mr. Stitzer built a great cement dam in the river. The floods came and carried the dam away. Nothing daunted, he built again on a different plan. Again the dam was washed out and again he built. The third dam did not last as long as either the second or the first. He was in the day after it was completed and accepted by him. In all he sunk about \$25,000 in the project before he gave it up. At one time he intended to operate an electric plant with the vast water power which he found light and power down the line of the Burlington. He also proposed building a line of ice houses to be supplied with pure lake ice. The money lost on the successive washing out of the dams so crippled him financially that he was forced to give up these projects and now the sale of the Erickson property under the sheriff's hammer marks the closing chapter of a project which in its inception gave every promise of being crowned with success.

Merrick Has Many Candidates.

FULLERTON, Neb., June 25.—(Special.)—Following the banishment of the republicans here last week interest in politics in Merrick county has been considerably aroused and already several candidates have declared themselves. On the republican side two candidates for county attorney have been presented, Judge W. H. C. Rice being the incumbent. The democratic side has been represented by numerous signed petitions and the name of Attorney W. E. Hill has also been presented. Editor H. G. Taylor of the Central City Nonpartisan has announced his candidacy for the legislature on a platform of county option and progressive republicanism and it is understood that the names of two other candidates will soon be announced for the same position on the republican ticket. On the democratic side the only candidates who have been mentioned are for the legislature. John G. Boelts, the present incumbent, has signified his willingness to run for a second term on a county option platform and the name of Mayor George E. Schiller is being prominently mentioned. For the state senate Merrick county has no candidates. It is generally expected that the republican nomination for senator from this district will go to either Dr. B. Stephenson or J. H. Kemp, both of Fullerton. E. L. King of Osceola is not a candidate for re-election.

Fair for Merrick County.

CENTRAL CITY, Neb., June 25.—(Special.)—Merrick county is now certain to have a fair this year, as the Board of Supervisors has voted an appropriation of \$300 toward the project, and this, together with other funds raised, will form a nucleus which will make the venture a safe one financially. There was a meeting of the board of directors in the city Saturday, and arrangements will be made for an extensive program of amusements. An effort is being made to secure the two leading teams in the Nebraska State league for games during the fair. There will be one of more brass bands and numerous carnival attractions have been arranged for. The fair will be held at Clarke, September 13, 14 and 15.

Nebraska BOOSTERS OF LINCOLN CHEER HEBRON BAND

Union Organization Hired to Welcome Hisses Competing Men—Boosters Cheer.

LINCOLN, Neb., June 25.—(Special Telegram.)—The Lincoln Commercial Club boosters, who have been on a week's trade-seeking tour, returned to Lincoln tonight and were welcomed royally by the stay-at-homes. The boosters took with them the Hebron band instead of home talent, and this caused somewhat of a demonstration in front of the Commercial club rooms tonight. A Lincoln union band was pressed into service to greet the boosters, and marched in the parade, but when the head of the parade reached the Commercial club rooms, the union musicians dropped out of line and proceeded to hoot the Hebron boys. This was resented by the boosters, who lined up and gave cheer after cheer for the imported musicians.

Mayor Love welcomed the boosters home, and President Sellick of the Commercial club responded to the speech, and then presented Secretary Whitten with a silver loving-cup as a mark of respect from the boosters. Upon it is engraved the names of the women and children of the city, and there is likely to be a heavy vote polled as some of the most prominent citizens of the community are back of the proposition. No critic has said that Lincoln does not need the parks, but many have expressed a doubt of the wisdom of making people rich under the guise of taking care of the coming generation.

Automobile Burned Up.

GOTENBURG, Neb., June 25.—(Special.)—Yesterday afternoon an Oakland touring car belonging to Henry Johnson was completely destroyed by fire. Mr. Johnson runs an automobile livery, and when about six miles north of town with a load of people, stopped at the home of a friend to wait for a team. While waiting the fire was discovered and attempts were made to put it out with sand, but were futile, by waiting for the team a serious accident was probably averted as the gasoline tank exploded very soon after the people were out of the machine.

Red Cloud Leads in State Batting

President Sievers of State League Issues Month's Standing of League Players.

GRAND ISLAND, Neb., June 25.—(Special.)—President Sievers of the Nebraska State league of base ball clubs has issued a bulletin giving the batting and pitching averages of the state league for the first month of the league's playing. Of those who have played any considerable number of games Jarrot, a Red Cloud pitcher leads, with forty-nine times at bat and eighteen hits, a percentage of 367. Harms of Hastings, manager of that team, comes second, with thirty-one times at bat and thirty-three hits, a percentage of 382. Donnelly of Hastings is third with a percentage of 348. Agnew fourth with 345. Allen of Superior is fifth with 337 and Mason of Fremont, Ellis of Superior, Ling of Seward and Fagan of Red Cloud, who come next, are the six next in line. The batting average of J. E. "Pop" Cook of Grand Island following at 320. Twenty-eight are batting over .300, though ten of these have only been in one or two games—less than ten times at bat. One hundred and forty-five players are listed, the count including the tryout squads of two weeks' championship ball, after which the various teams were limited to twelve players.

Blazing Vessel Driven Ashore, People Escape

Steamship Captain Gives Prompt Orders and Crew's Heroism Prevents Many Deaths.

LA CROSSE, Wis., June 25.—With 1,300 excursionists on board, the Acme Packet company's big steamer J. S. caught fire in the Mississippi river between Genoa and Victory tonight, and although the steamer was burned to the water's edge, prompt action of Captain Strebeck in beaching the island, nearly all on board, and saved woman lost her life. The head rank from the boat to the island on which the boat was beached. The dead, drowned: MRS. EMMA RANDALL, New Albin, Ia. Burned: JOHN PLANE, Waukon, Ia. NORMAN FOX, Victory, Wis. UNKNOWN MAN. Dozens sustained injury, some of them serious. Hundreds of people jumped into the river when the steamer J. S. approached the island. The fire broke out at the top deck and sustained injuries, some of them of a serious nature. Mrs. Emma Randall of New Albin, Ia., jumped as soon as the alarm was sounded and drowned. The men who perished were locked up nearly all the valued, having become burned to death. The boat was valued at \$50,000 and is a total loss. The steamer brought 1,000 people from Lansing, Ia., and 500 from intermediate points to La Crosse today, leaving here on the night trip at 6 o'clock tonight. The boat caught fire about five miles above Victory, Wis., the blaze breaking out in the lower works close to the boiler room. The captain headed the vessel for Bad Axe island in midriver, which, fortunately, was but a short distance away.

Browne Jurors Have Not Agreed

After Fifty Hours of Balloting, They Have Not Come to Decision.

CHICAGO, June 25.—Apparently no nearer decision than at the beginning of their deliberation the jurymen in the Lee O'Neill Browne case are still out having not the fifth hour at 6 o'clock tonight. Both sides seem to have abandoned hope for a verdict, but the jury will not be discharged until tomorrow when court convenes and possibly not then. States Attorney Wayman maintains that the jury is now 11 for 1 for conviction and that it has stood thus from the early balloting. Mr. B. F. Kelley, Springfield, Ill., writes: "A year ago I began to be troubled with my kidneys and bladder which grew worse until I became alarmed at my condition. I suffered also with dull, heavy headaches, and the action of my bladder was annoying and painful. I read of Foley Kidney Pills and, after taking them a few weeks, the headaches left me, the action of my bladder was again normal and I was free of all distress."—Sold by all druggists.

IOWA RAILROADS PROTEST

Officers Insist that Assessments Are Growing Too Rapidly.

SAY NET EARNINGS DECREASE

State Executive Council Will Begin Considering Matter of Assessments Within Next Two Weeks.

(From a Staff Correspondent.)

DES MOINES, Ia., June 25.—(Special.)—Within two weeks the state executive council, sitting as an assessment board, will take under consideration the valuation of the railroad property in Iowa and undertake to make an assessment that will conform to the general average of valuation on other property. The reports of the railroad companies which have all been filed and tabulated make such a showing that there is very little doubt that the assessments will be reduced this year. The railroads as a whole have not been as prosperous in the past few years as in the previous year, but some larger than the net profits have been invariably. The total net earnings of all the railroads in Iowa, on Iowa business, as they are able to figure it out, was \$15,144,000 or \$1,500 a mile. For a number of years under previous administrations the tonnage has been to increase the railroad assessments. Now the railroads are paying nearly a million dollars a year more taxes in Iowa than they were ten years ago and with very little larger mileage. The railroad men claim that the increase in assessment of their property has been a heavy burden. As soon as the railroad assessment is completed the council will fix the assessment on real property and then figure out the tax levy in accordance with the orders of the general assembly. The council has very little power over the tax levy except as to assessment of railroad property, so as to raise \$2,500,000 of taxes on the state levy.

Iowa Farms Look Prosperous.

A large number of business men of Des Moines last week took the trip across Iowa in automobiles to Spirit Lake and returned. The trip took four days. They saw a large part of northern Iowa and are unanimous in saying that the farms look more prosperous than ever before, that the farmers are taking great interest in the highways, that the roads are far better than they were a few years ago, and that the crops are good. The corn is in excellent condition, so that with the seasonable weather which is being experienced the corn crop is gaining rapidly on the season. There was much corn that had to be replanted and it is therefore not all of one size, but the farmers say that the farmers have no doubt of a good crop in the fall.

A New Office Wanted.

The next legislature will be asked on behalf of the labor unions to create a new office, that of chief mine inspector. The state has a committee of mine inspectors, each one acting independently of the other. It is proposed to add another who will be chief mine inspector to oversee the entire work. The labor organizations will also ask a law to provide for building hospitals in all cities of over 10,000 inhabitants. A committee was formed for the purpose of pushing these bills through the legislature.

CONSTIPATION

MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives of cathartics. They coax the liver into active by gentle methods. They do not scour; they do not grip; they do not weaken; but they do loosen the bowels to get all the nourishment from food.

These pills contain no calomel, no opium, they are soothing, acting on the bowels without physic. Price 25 cents.

ADS. HEPATIC SALTS

This is a preparation which contains all of the medicinal properties of the famous European mineral springs of Valsbad, Pullna, Marienbad and Carlsbad, where so many Americans go every year to have their systems cured.

With a glass of clear, cold water and a spoonful of A. D. S. Hepatic Salts you can prepare a drink which in every way—in taste, action and result—is like those springs. It is very pleasant to take and its medicinal properties are very pronounced.

If you have a torpid liver or sluggish bowels, if you have indigestion arising from constipation, if you have gout or rheumatism, or if your blood or nerves need stimulating, this is the preparation to use for quick results—if you cannot see a good doctor.

It is almost a specific for gravel. It supplies the normal constituents of the body when they have been wasted by tuberculosis, scrofula, or other maladies. It rebuilds the wasted cell tissue and supplies phosphorus to the brain and nervous system. It cleanses the kidneys and eases their burden by devoting a portion of their functions to the skin and bowels.

Probably no remedy was ever more beneficial to the demands of the human anatomy than A. D. S. Hepatic Salts, and it is one of the few preparations that can be safely given to children, as well as to adults.

The great American Druggists' Syndicate of 1200 druggists makes it and guarantees it in every way, and if not entirely satisfactory your money will be promptly refunded.

MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives of cathartics. They coax the liver into active by gentle methods. They do not scour; they do not grip; they do not weaken; but they do loosen the bowels to get all the nourishment from food.

These pills contain no calomel, no opium, they are soothing, acting on the bowels without physic. Price 25 cents.

ADS. HEPATIC SALTS

This is a preparation which contains all of the medicinal properties of the famous European mineral springs of Valsbad, Pullna, Marienbad and Carlsbad, where so many Americans go every year to have their systems cured.

With a glass of clear, cold water and a spoonful of A. D. S. Hepatic Salts you can prepare a drink which in every way—in taste, action and result—is like those springs. It is very pleasant to take and its medicinal properties are very pronounced.

If you have a torpid liver or sluggish bowels, if you have indigestion arising from constipation, if you have gout or rheumatism, or if your blood or nerves need stimulating, this is the preparation to use for quick results—if you cannot see a good doctor.
