

GRAIN AND PRODUCE MARKET

Light, Shattered Showers Have Befuddled Situation in Northwest.

CORN IS NOT LACKING RAIN

Wheat Opens Firm and Rakes Sheds Higher, with the Shortest the Best Buyers—Bullish News from North Dakota.

OMAHA, July 1. There has been no general rain, but light scattered showers have relieved the situation in the northwest and the weather may bring a cloudy condition which may bring more rain.

General rains have not fallen in the corn belt. The growing crop is not actually suffering although moisture would be better. Late rains have the upper hand now.

Wheat was firm and ruled a shade higher, with short buyers and more buyers now from South Dakota. Trade was ruled by the short sellers who were in a majority of news from any source, operating being fully getting out of their holdings. It had been a week now since reports from the country are concerning again about dry weather. Values were stronger under conditions of better receipts and poor deliveries.

Primary wheat receipts were 160,000 bushels and shipments were 160,000 bushels, against receipts last year of 200,000 bushels and shipments were 160,000 bushels, against receipts last year of 200,000 bushels and shipments were 160,000 bushels.

Concerns were 20,000 bushels of corn, 4,000 bushels of oats and wheat and four bushels of barley.

Local range of opinion:
