GRAIN AND PRODUCE MARKET

Lower Cables Cause Heavy Selling at Opening of Wheat Market.

DROUTH DAMAGE DISCOUNTED

Short Selling Starts with General Rains Over Big Corn Belt States and with Weakness in Wheat.

OMAHA, July 11, 1910.

General showers and lower Liverpool cables caused heavy selling at the opening and wheat values closed off 2c from yesterday's close. The general opinion is that with more favorable weather from now on the damage by drouth in the northwest has been well discounted.

Corn was soft with the weakness in wheat. Showers have fallen generally over the belt during the last week and the growing crop is reported in excellent condition.

Wheat was weak and profit taking sales caused opening values to sag another cent lower.

The spring wheat belt received good rains over Sunday and sentiment turned bearish with the more favorable outlook.

With rains pretty general over the big corn states and weather conditions ideal, short selling and short values broke in. Cash prices were easier, samples selling 2@3c lower than Saturday.

Primary wheat receipts were 781,000 bu. and shipments were 767,000 bu. against receipts last year of 221,000 bu. and shipments of 405,000 bu.

Primary corn receipts were 427,000 bu. and shipments were 407,000 bu. against receipts last year of 276,000 bu. and shipments of 101,000 bu.

Clearances were some of corn, none of oats and wheat and flour equal to 427,000 bu.

Liverpool closed 1@1½d lower on wheat and ½@¾d lower on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 11.—Winter wheat began moving to market today on large scale. Simultaneously rain was drenching the spring crop which is yet to be harvested and which has long been at the mercy of drought. Prices here corresponded with a net decline of 1¾c to 2½c. Other staples too all showed sinks—corn ¾@1¼c; oats, ¾@1c, and hog products 5c to 25c.

Assertions were freely voiced that today's developments seemed to indicate satisfaction of farmers with present prices for wheat, even if some speculators thought otherwise and notwithstanding that quotations at this date a year ago were much higher. Primary receipts today aggregated 781,000 bushels against 221,000 bushels twelve months ago. Kansas City received 250,000 bushels compared with 200,000 bushels.

The big stocks of wheat, laden cars awaiting unloading and other things, showed a hard tangible cause for weakness when general rain was reported in the northwest. Prices are now almost back where they were before the recent sensational report by the government on the crop situation. The world's shipments for last week were larger than expected. September ranged between 97¾@99c and closed at 97½@97¾c, a net decline of 2c to 2½c.

Crop advices today regarding corn were excellent. September fluctuations were from 55¼c to 56¼c, with the close weak at the bottom figures of the day, a net loss of 1¼@1½c. No. 2 yellow closed at 57@57½c.

Business in oats was relatively small. High and low limits were only ¼c apart with September closing at the minimum figure, being a price 4½c below the final figure of Saturday.

Packers shielded provisions on soft specs and sold during the swells. Last sales left pork 5c to 7½c off; lard, 7½c to 10c, and ribs, 2½@25c to 30c.

Leading futures ranged as follows:

Visible Supply of Grain.

NEW YORK, July 11.—The visible supply of grain in the United States Saturday, July 9, as compiled by the New York Produce Exchange, was as follows: Wheat, 31,621,000 bu.; increase, 422,000 bushels. Corn, 1,617,000 bushels; decrease, 60,000 bushels. Oats, 9,967,000 bushels; decrease, 22,000 bushels. Rye, 302,000 bushels; decrease, 17,000 bushels. The visible supply increase, 1,000 bushels. The visible supply of wheat in Canada last Saturday was 4,541,000 bushels, a decrease of 34,000 bushels.

WEATHER IN THE GRAIN BELT

Cooler Weather is Predicted for the Valleys Tonight and Tuesday.

OMAHA, July 11, 1910.

Within the last twenty-four hours some very light and scattered showers occurred in southwestern Nebraska, Colorado, New Mexico, Oklahoma and Texas, and light rains are reported falling in western Minnesota and eastern South Dakota this morning. The weather is generally cloudy west of the Mississippi river to the Rocky mountains, and conditions are favorable for showers in this vicinity tonight or Tuesday. The weather continues cool in the west and northwest. Temperatures have continued about normal in the plains states, but very warm weather has prevailed east of the Mississippi river since the last report, and temperatures continue high throughout the east this morning. The weather is generally clear in the west and northwest. An area of high pressure is moving down over the central valleys from the northwest, and this increase in pressure over the valleys will cause slightly cooler weather in this vicinity Tuesday.

	1910.	1909.	1908.	1907.
Minimum temperature	69	62	72	62
Precipitation	.00	.01	.30	.09

Normal temperature for today, 78 degrees.

Deficiency in precipitation since March 1, 11.37 inches.

Excess corresponding period in 1909, .38 of an inch.

Excess corresponding period in 1908, 4.94 inches.

NEW YORK STOCKS AND BONDS

Money Supplies Loosen Up to Large Extent.

WEEK'S STOCK LEVELS ADVANCE

Opinion is Divided Over Benefit of Recent Rains to Wheat Crop—London Copper Slumps.

NEW YORK, July 11.—There were reports that the drouth in the spring wheat region had been relieved by rains. There was an engagement of $1,000,000 gold in London for shipment to New York. That and the weekly New York bank statement, published late Saturday indicated abundance of money supplies in the local market. There were surprising influences on the price of stocks today and they advanced in response over the closing level of last week.

The stock speculation had gone a good way towards discounting a crop disaster in the spring wheat states. Opinion was divided over the availability of the rains to effect great benefit at this belated period. That further deterioration has been arrested is cause for congratulation. The better crop news was given credit for some of the new demand for stocks which was reported to be in evidence in commission house circles.

The slump in the London price of copper was taken seriously to heart by the speculative element in stocks and threatened a re-opening of an admittedly weak point in the industrial situation. The price was the lowest quotation for standard copper touched for several years past. The recent heavy export from this country made poor assurance for relief of the embarrassment of plethora of stocks with such an effect on the mining market. The news of the week's reduction in prices of crude steel rails to conform to the lowered price of iron, gave the copper news additional influence as an industrial symptom. The weight of this burden on the general market proved a drag.

The liberality of the importer of the gold engaged in London could not be learned. Some of the large international banking houses were candid in expressing criticism of the government and frank in impugning its motive as designed to stimulate the stock market. The response of the two money markets affected was proof, however, of the forces at work to favor the movement. The private discount rate declined in London in spite of the taking of gold.

Foreign exchange here was weak and fell back to last week's low level.

Bonds were firm. Total sales, par value, $1,820,000. U. S. bonds were unchanged on call.

Number of sales and leading quotations on stocks were:
