POLICE ORGANIZE TO GET CRIPPEN

Authorities at Every Port Warned to Keep Lookout for Alleged Wife Murderer.

HIS TYPIST IS ALSO MISSING

Dead Woman Objected to Girl's Presence in Dentist's Office.

CAUSES QUARREL BETWEEN THEM

Finding of Revolver Causes Report that Wife Was Shot First.

NEIGHBORS HEAR SCREAMS

Former Vaudeville Artist Leaves Books of Guild in Perfect Order and All Funds at Hand.

LONDON, July 15.—While the police authorities were exhausting their resources today to lay hands on Dr. Hawley H. Crippen, the American and his woman typist, physicians were examining the mutilated body of his wife with a view to determining the manner in which the murder was done.

The finding in the cellar of a revolver gave rise to the report that the vaudeville artist had been shot before the body was battered into an unrecognizable mass and buried in quicklime in the cellar of the Crippen home at Hilldrop Crescent, North London.

It also was reported that traces of poison had been found by the doctors. The latter will present their theories as to the cause of death at an inquest to be held tomorrow.

It has been a long time since a murder case in England has attracted such general attention. That the murdered woman was an American, as is the husband who is charged with the crime, has spurred the police to unusual activity. The full force of Scotland yard, under the personal direction of Superintendent Forest, is making a thorough search for the fugitive doctor and Miss Ethel Clara Leneve.

Dr. Crippen's Explanation.

Miss Leneve was employed by Dr. Crippen as a typist. It is stated that Mrs. Crippen objected to the presence of the young woman in her husband's office and that his refusal to dismiss her led to frequent quarrels between husband and wife. Some time after Mrs. Crippen disappeared Miss Leneve appeared in public with Dr. Crippen, who introduced her as his wife. To acquaintances the doctor explained that his former wife had left him following a quarrel, and that she had subsequently died.

The police say that Dr. Crippen and Miss Leneve left the Crippen home together some time the latter part of last week. They are still convinced that the two fled the country, sailing either for the United States or going to the continent. At the same time both have been reported as having been seen in different parts of this country, and if the authors of these reports are not mistaken the two have separated. If this is the case the police believe their separation is only temporary and in the hope of thus avoiding detection.

The officials are leaving no avenue of escape unguarded. They have notified the authorities at every port to which steamers have recently sailed from this country of the possibility that Dr. Crippen and Miss Leneve will be found among their passengers, and have asked for the arrest of the two wherever found. The police also are searching and following every clew throughout Great Britain.

Neighbor Tells of Hearing Screams.

The first story of what may have been the actual committing of the crime was told today by a neighbor of Dr. Hawley H. Crippen, in the cellars of whose home was unearthed the body believed by the police to be that of the physician's wife, who was known on the stage as Belle Elmore.

Since the discovery of the body and the disappearance of Dr. Crippen and his typist, Miss Ethel Clara Leneve, the Scotland Yard detectives have inquired diligently among those living in the vicinity of the Crippen home in Hilldrop Crescent, north London, for some information that would throw light on the domestic habits and relations of the American dreamer and his actress wife.

Nothing helpful was learned until today, when the proprietress of a small shop at the rear of the Crippen residence told of hearing a woman's screams and pleas for mercy arising seemingly from the cellar in which the burned and mutilated corpse was later found.

Mrs. Crippen disappeared in February last. It was four or five months ago when the screams were heard, the woman said. Her shop overlooks the little garden back of the Crippen home. To the police the shopkeeper said:

Revolver Practice in Yard.

"I had often heard revolver practice in the garden. One night about four or five months ago, I cannot place the time more exactly, I was awakened by a woman's cries. It was midnight. The screams appeared to come from Dr. Crippen's house. I listened and heard a woman's voice pleading: 'Don't, oh don't.'

"To me it seemed that the cries were from a woman in the basement of the house occupied by Dr. and Mrs. Crippen. As nothing developed further I soon forgot the occurrance and did not recall it until yesterday, when I learned of the tragic discovery."

The Music Hall Artists Guild issued an official statement today declaring that all of the books and accounts of Mrs. Crippen, who was treasurer of the guild, were found to be in perfect order and that no funds of the organization were missing.

Rumors of the whereabouts of Crippen and the Leneve woman from many sources reached the Scotland yard officials during the day, but while they were considered, they received little credence. This evening Superintendent Forest made the following declaration:

"All clues concerning Crippen and Miss Leneve received thus far have proved to be false. In my opinion Crippen has gone to America or is hiding in the suburbs of London."

Identification Not Complete.

The physicians who are examining the dismembered body were unable to complete their work today, and accordingly the inquest which was to have been held tomorrow has been postponed until Monday. At that time the medical men hope to be in a position to state the cause or causes of the woman's death.

Whether the matter of identification will

Automobile Hit by Locomotive Near Sutton

Ex-Mayor Steinhart and Wife and Mrs. Happy Van Wyck Benner Are Seriously Injured.

NEBRASKA CITY, Neb., July 15.—(Special Telegram.)—Ex-Mayor John W. Steinhart, his wife and Mrs. Happy Van Wyck Benner were injured last night when Mr. Steinhart's large touring car was struck by a locomotive near Sutton. The party was en route from this city to Hastings and when within a mile of Sutton they came onto the Burlington railway track, encountering a weed burner enroute to a siding.

Chauffeur Walter Armstrong tried to escape from being run down and put on full power. The engine caught the rear end of the car and threw it clear off the right-of-way, and hurling Mr. Steinhart and Miss Coe clear of the machine, while the others were pinioned under it. Mrs. Benner was severely bruised about the body and had her right arm broken in two places, while Mrs. Steinhart had several scalp wounds and severely bruised about the body. Mr. Steinhart escaped with severe bruises on the head and body. Miss Louise Coe, Mr. Steinhart's niece, and Walter Armstrong escaped uninjured.

The train crew stopped and picked up the injured and their machine and took them to Sutton. They got the flyer to Plattsmouth, where they were met with nurses and autos and brought to this city this morning. All of the parties were residents of this city.

Japan's Program in Korea Vague

New Resident General Says Real Interests of Koreans Will Not Be Antagonized.

TOKIO, July 15.—Lieutenant General Viscount Terauchi left today for Seoul to assume the duties of Japanese resident general of Korea. At the moment of departure he stated that Japan would not use the mailed fist in Korea or antagonize the real interests of Koreans or those of foreign powers. Radical changes in the system of government would, however, be thought be necessary.

In view of the beliefs that the annexation of the Hermit kingdom by Japan will not be long delayed, a formal expression from the viscount as to his proposed policy was sought. He replied:

"I am unable to outline a policy in detail, pending the future of Korea until after a full investigation on the spot. Koreans and the world may rest assured that there is no intention to use the mailed fist. The policy for the development of the country and the improvement of the condition of the people which was adopted by Prince Ito and Viscount Sone will be mine.

"Doubtless radical changes will be necessary in the present system of government in order to make it practical, but there is no intention on the part of the government of Japan to take any step antagonistic to the real interests either of the foreign powers or of the Koreans."

The viscount added that he regretted deeply that his appointments prevented him from remaining in Tokio to meet Secretary Dickinson of the American War department, who is coming here tonight.

The resident general was given a cordial farewell by the government officials, diplomats and others.

One Man Killed, Two Are Wounded

Bandits Raid Lake Shore Construction Camp Near Cleveland Day After Pay Day.

CLEVELAND, O., July 15.—One man is dead and two others are badly wounded as the result of a raid by bandits on a Lake Shore construction camp, near Olmstead Falls late last night. Charles Brunner, aged 30 years, who was shot through the abdomen died today. The injured men are James Counterwane, shot through the body, and Thomas Zarach, shot in the head. It is believed they will recover.

Sheriff Herstich and a posse covered the country for miles around the scene of the shooting, but could find no trace of the men who shot up the camp.

Shortly before midnight, five negroes appeared at one of the shanties used as sleeping quarters and awakening the laborers demanded their pay, which they received yesterday.

The first man handed over $25, the sole booty of the robbers. Three other men answered they had no money, and the robbers opened fire. There was a rush from the shacks. Many of the workmen had revolvers, but as the bandits ran as soon as they fired upon their victims, they were out of reach before the men from the camp had an opportunity to return the fire.

ATTEMPT TO BLOW UP BRIDGE

Effort Made to Destroy Structure Near Pittsburg Where Nonunion Men Were Employed.

PITTSBURG, July 15.—An attempt was made early today to blow up the West Belt Line's new bridge on West Carson street. The contractors who are building the bridge have been having some labor trouble because of their insistence on the open shop policy. The detonation probably of both nitroglycerin and dynamite, rocked buildings and broke windows throughout the west end district. No arrests have been made.

ULTIMAEUM IS GIVEN TRAINMEN

Negotiations Between Pennsylvania Railroad and Employes Are Broken Off.

LABOR WILL NOT ARBITRATE

Action on Part of Company Means Strike at Once.

WESTERNERS ALSO TO STRIKE

Employers May Invoke Erdman Act to Prevent Tieup of System.

SAY WAGES LARGE ENOUGH

Directors Pass Resolution Stating Position Will Be Firmly Maintained by Officials in Future.

PHILADELPHIA, July 15.—At a special meeting the directors of the Pennsylvania Railroad company adopted a resolution fully approving the course of its officials in resisting the demands of its employes.

The resolution follows:

Resolved, That the board does hereby approve of the position taken by its executive officers in relation to a demand for a further wage increase from certain classes of its employes and is of the opinion that such position should be firmly maintained.

A committee of the employes is now in session considering the strike question.

Following the conference of the railroad men, the declaration was made that a strike call would be issued tonight if word was received from Pittsburg that the railroad officials of the lines west had denied the demands. E. V. Katts, chairman of the trainmen's board of adjustment, said this afternoon that the men would absolutely make no further overtures to the company.

Negotiations Broken Off.

Negotiations were broken off yesterday between the company and representatives of the trainmen and conductors employed on the line east of Pittsburg, Buffalo and Erie, when, after two conferences between General Manager Myers, of the company, and the labor leaders, a settlement was not reached.

The labor men declare they do not propose to invoke arbitration as provided by the Erdman act, but it is said in some quarters that the railroad company, in order to prevent a tie up of the system, may take advantage of the Erdman act and appeal to the federal authorities to intervene in the settlement of the dispute.

Western Men Vote to Strike.

PITTSBURG, Pa., July 15.—Following last night's announcement that the men on the Pennsylvania railroad lines west of Pittsburg have voted to strike if necessary, the interest in the general situation involving nearly 25,000 men, rests on that question of the necessity. The fifty committeemen and officers of the three principal grand lodges of the railroad men—conductors, trainmen, and firemen and engineers—who are handling the western situation arranged today for another conference with General Manager Peck. To him was submitted yesterday the statement that a great majority of the western men favored a strike if necessary, and from him were expected today some statement of the company's position. The western headquarters of the men here is continually in close touch with the Philadelphia conferences of the eastern men, and it is said whatever action is taken in one camp is certain to influence the other.

RAISE FOR LACKAWANNA MEN

Engineers Given an Advance Averaging About Thirteen Per Cent.

SCRANTON, Pa., July 15.—Negotiations between the Lackawanna railroad management and its engineers with respect to a new wage scale came to an amicable ending this afternoon, when the officials representing the parties signed an agreement carrying with it an increase in wages which will average almost 13 per cent.

Substantial wage increases were obtained by the men in all branches of the service, and the new scale is a compromise between the New York Central and Delaware & Hudson scales.

The new scale is as follows:

Passenger Service—First-class, $4.10 a hundred miles and $4 for all other classes. The maximum heretofore was $3.90 a hundred miles. Suburban service, $4.20; old rate, from $3.65 to $3.85.

Through freight, $4.50, $4.65 and $4.80; old rates, $4, $4.20 and $4.30. Local and pick-up, $4.75 and $4.90; no specific rate before. Mixed service, wrecking, roustabout, etc., $4.65 for large classes of engines and $4.20 for all others. Switching service, large class, $4.50, all others, $4; old rates, $3.50 to $3.80.

END OF SHALE ROCK CASES

Men Accused of Defrauding City of Chicago Are Acquitted.

CHICAGO, July 15.—M. H. McGovern, the contractor who was indicted on charges of grafting from the city in the "shale rock" scandal, was cleared today when Judge Barnes refused to allow his case to go to the jury. Judge Barnes had already taken the case of Paul Rebbleski, former deputy commissioner of public works, and John Erickson, city engineer, who were indicted on the same charges, from the jury.

The state announced that it would nonsuit the case against Ralph A. Bonnell, former assistant city engineer, but the defense objected to it, and Judge Barnes instructed the jury to find Bonnell not guilty.

Fierce Dog Guards Suit Case to Save a Dime

Many are the dodges which wily travelers work out so that their grips and suitcases will not be stolen and still they will not be obliged to check them. Some ask the clerks in the information bureau to watch, others request the officer on duty to sit on their luggage, while they go up town, but a man who wandered into the Union station Friday had the prize plan.

By a long chain he was leading a large bulldog—one with a square jaw and what is popularly called a baleful eye. He carefully placed the suitcase he carried on the end of a seat and then induced the dog, whose name, by the way, was Leander, to sit on it. The end of the chain that was loose was then fastened to the seat and the displacement of that suitcase without disturbing the peace of mind of Leander was a problem in geometry that required the fourth or fifth dimension.

It is needless to say that the suitcase was not disturbed and probably would not have been as long as Leander was on the job.

Well Earned Rest

From the Washington Evening Star.

SIGNAL MEN READY TO FLY

Activity at Fort Omaha in Preparation for Aviation Meet.

STANDS ARE BEING BUILT

Large Force of Workmen Erecting Seats for Ten Thousand People on Old Creighton Pasture at Forty-Fifth and Grant.

Fort Omaha is throbbing with activity preparatory to its part in the Mid-West Aviation meet. The Baldwin Army War Dirigible No. 1 is being overhauled by a force of men, who are putting the gas bag in shape for inflation, while other soldiers of the Signal corps are working on the great hydrogen generator and tank.

The grandstand of the Creighton field is already assuming proportions and is being erected so that the spectators will have a clear sweeping view of the course at all times. It will have a seating capacity of 10,000 when completed.

Preparations are now being made for the establishment of the aviation camp at the grounds. Each aeroplane will be housed under a huge tent. The machinists, two of whom accompany each machine, will live in the tent with the giant mechanical birds.

Tents for the Ships.

There will be three of these large tents for the Curtiss aeroplanes, and a huge, especially designed dirigible balloon tent for the "Comet," the Zeppelin type balloon, that Horace B. Wild will operate daily. The government balloons will be taken care of by a special detachment of Signal corps men.

It is expected that the car load of aeroplanes will arrive in Omaha by express about the middle of next week. Each machine comes knocked down in four especially designed trunks which weigh less than 1,500 pounds. The mechanics travel on the same train with the aeroplanes and handle them in and out of the express cars.

Lieutenant Haskell has issued orders to the chief signal sergeant at the post to resume the recording of the anemometer so that a complete record of the velocity of the winds hourly may be made for the use of the aviators when they arrive.

This, in connection with the records of the United States weather bureau of this city, is one of the things that interests the aviator as much as the grounds where the flying is to take place or the humidity.

AEROPLANE FLIGHTS OVER SEA

Drexel and Morane Make Twenty-One-Mile Trips at Bournemouth.

BOURNEMOUTH, Eng., July 15.—J. Armstrong Drexel, a son of Anthony Drexel of Philadelphia and London, and the French aviator, Leon Morane today engaged in brilliant performances of over-sea speed flights. The start of the contest was at the Aerodrome, across the Solent in the direction of the Isle of Wight, thence around the Needles lighthouse and back, a distance of twenty-one miles. The Frenchman covered the distance in twenty-five minutes and the American in thirty-four minutes.

ELEVENTH IOWA DEMOCRATS NAME WHITE FOR CONGRESS

Ida Grove Attorney is Selected to Make Race Against E. H. Hubbard.

SIOUX CITY, Ia., July 15.—(Special Telegram.)—M. M. White of Ida Grove was nominated this morning by the democrats of the Eleventh district to make the race for congress against E. H. Hubbard, the present republican incumbent. Mr. White is a well known attorney, having served as county attorney of his county for three terms, declining renomination to make the race for congress. The democrats were in an optimistic mood, declaring that E. L. Crow of Mapleton would defeat Carl Kuehle of Denison, the republican candidate for state senator from the Thirty-fourth district, which comprises Monona, Crawford and Harrison counties.

Roosevelt Will Visit Exposition at Knoxville

Delegation of Eight from Eastern Tennessee Calls Upon Colonel at New York Office.

NEW YORK, July 15.—Theodore Roosevelt arrived in New York from Oyster Bay by automobile this morning. When he reached his editorial offices he found the waiting room filled with visitors to see him, eight of whom had come all the way from Tennessee. They were headed by Congressman R. W. Austin of Knoxville.

The delegation asked Colonel Roosevelt to go to Knoxville in the middle of September when the exposition opens and to speak there. Colonel Roosevelt agreed to stop off at Knoxville on October 1. President Taft already has agreed to speak at the exposition on September 30. Congressman Austin said after his interview with Colonel Roosevelt that politics had not been touched upon.

"The delegation is composed of both democrats and republicans," said he, "Colonel Roosevelt was not asked to take any hand in the campaign in Tennessee."

One of Colonel Roosevelt's callers was David E. Thompson, former ambassador of the United States to Brazil and Mexico. He is a close personal friend of the former president and was received by him with marked cordiality.

"The west will receive Roosevelt with open arms. The west is for Roosevelt, to the backbone," declared Mr. Thompson, as he came out of the editorial offices.

Mr. Thompson is a large employer of labor throughout the west.

IOWA MAN CHARGED WITH SHOOTING THREE ELK

J. C. Nichols of Brooklyn Accused of Killing Animals in Yellowstone Park.

DES MOINES, Ia., July 15.—J. C. Nichols was arrested at Brooklyn, Ia., today by United States Marshal Bidwell, charged with shooting three elk in Yellowstone park, several months ago. Although he broke his ankle in his flight Nichols escaped from the Wyoming officers at the time of the shooting.

BELGIAN AERONAUT DIES OF HIS INJURIES

Daniel Kinet, Who Fell When Rudder of Aeroplane Broke, is Dead.

GAND, Belgium, July 15.—Daniel Kinet, the Belgian aeronaut who fell when the rudder of his aeroplane broke last Sunday, died today from his injuries. Kinet held the world's record for an aeroplane flight with a passenger. On May 15 he remained in the air with a companion for two hours and fifty-one minutes.

BEEF RATE NOT SUSPENDED

New Tariff on Cattle and Meat, New York to Chicago, Stands.

EFFECTIVE FIRST OF MONTH

Increase is Five Cents a Hundred Pounds on Each Commodity—Statement of Commerce Commission.

WASHINGTON, July 15.—The Interstate Commerce commission announced today that the recently filed tariffs making advances in the freight rates on cattle and dressed beef between Chicago and New York had not been suspended.

The matter arose through an inquiry from an important New York business house as to the proposed rates. The new tariff fixes the rates on cattle at 30 cents a hundred pounds and on dressed beef at 50 cents a hundred between Chicago and New York. The present rates are 25 cents on cattle and 45 cents on dressed beef. The increases will become effective on August 1.

This was one of the advances which George W. Perkins of the banking house of J. Pierpont Morgan & Co. discussed with the Chicago shippers with a view to obtaining their consent to its becoming effective. What the result was of Mr. Perkins' negotiations was not disclosed definitely at the time.

July Squeeze in Cotton is On

Net Advance of Five Dollars a Bale Since Covering Movement Began on Wednesday.

NEW YORK, July 15.—There was increased excitement in the cotton market today with every indication that the talked of July squeeze was at last on, owing to an even more urgent demand from July and August shorts. Prices had a further sensational advance, with July cotton selling at 16.45c, or 55 points above the closing point of last night, and fully 35 per bale above the prices ruling just before the covering movement started on Wednesday. August shorts seemed to be almost as much worried as those of July, and the price of that month advanced to 15.12c, or 36 points net higher, but the new crop positions were comparatively quiet, and, owing to improved weather and crop accounts, sold off 2@4 points over the closing figures of yesterday.

Hughes Returns to New York.

WASHINGTON, July 15.—Governor Hughes of New York finished his nine hunting tour of the capital and left for Albany today. It was said he went without finally selecting the home he will occupy when he comes here to go on the supreme court bench in October. Mrs. Hughes will make the final selection.

Secretary Dickinson's Party Given a Warm Welcome

YOKOHAMA, July 15.—J. M. Dickinson, secretary of war of the United States, and party arrived here today on the steamer Siberia. The arrival was announced by salutes from the American gunboat Wheeling and the American supply ship Supply, which were anchored in the harbor.

Launches, on board of which were Thomas Sammons, the American consul general; George T. Summerly, second secretary of the American embassy at Tokio; Major Harry L. Hawthorne, the military attache; Commander John H. Shipley, the naval attache; representatives of the Japanese government and seventy members of the war office, met the Siberia down the harbor and escorted it to the pier.

A great crowd of natives and foreigners lined the shore and adjacent streets when the guests and the welcoming party disembarked. Secretary Dickinson was greeted cordially and as he was driven to the American consulate he was kept busy bowing his acknowledgements. At the consulate an informal reception was held.

All of the Americans, who included Brigadier General Clarence Edwards, chief of the American bureau of insular affairs, are well and report a splendid trip.

At 4:30 today the tourists left by train for Tokio, where Secretary Dickinson and Mrs. Dickinson will be guests at the American embassy. Tonight the whole party will be entertained at dinner by Count Komura, the foreign secretary. Later the secretary will visit the Philippines.

LANCASTER BOWS TO BRYAN'S WISH

Both Conventions Adopt Resolutions in Line with Expressed Policy of Peerless Leader.

CENSORS 'REPUBLICAN' PLATFORM

Brother Charley Looks it Over Along with Dick Metcalfe.

A. E. CADY FILES FOR GOVERNOR

St. Paul Man Makes Formal Bid for Place on Ticket.

PRICE GIVES UP FOR METCALFE

Another Sting of Ingratitude is Fixed Up for the Congressman-Editor of the Omaha World-Herald.

(From a Staff Correspondent.)

LINCOLN, July 15.—(Special.)—For the first time in fifteen days Nebraska democrats are able to retire without having to look under their beds for Bryan, and, incidentally, for the present a number of alleged or self-styled republicans here are without their leader. Mr. Bryan has left Nebraska and gone over into Colorado for awhile to harvest a few shekels while the seeds of discord he has sowed in Nebraska take root.

Mr. Bryan, however, does not leave the works unprovided with a boss. C. W. Bryan will have charge of the statements and of the organization of the county option forces and the bossing will be well done, for it is very evident in Lancaster county that Brother Charlie has been more successful than W. J. in doing business with the republicans.

At the Lancaster county republican convention—that was the official title of the gathering, though it could hardly have been identified otherwise—Brother Charlie was on hand with advice to those who had the run of the county option part of the proceedings and he passed on the plank providing for the direct legislation amendment which was submitted to him and to Richard L. Metcalfe in advance of the reading of the platform to the convention.

Bryan and Clark Confer.

The democrats also had a hand in the action of Judge England in asking Senator Burkett how he stood on county option. Several days before the convention C. W. Bryan and Paul Clark held several conferences, Bryan going out to Clark's house, where the two plotted and conferred for the salvation of the people.

Colonel Purse, secretary to Governor Shallenberger, insisted to several of the leaders of the convention that the administration of Governor Shallenberger be endorsed, but he expressed his satisfaction when the motion was adopted to neither endorse or condemn any candidates. He at least succeeded in preventing the administration being criticised.

Paul Clark, for years the Burlington war horse, got into the Bryan band wagon last winter when he assisted in pulling off a so-called insurgent meeting. The failure of that meeting has not discouraged him and now he and Bryan are as thick as men can be, and he was used in the republican convention to boost the Bryan game.

Senator Burkett was more concerned about the delegation to the state convention than anything else, and he succeeded in having C. O. Whedon left at home, while Mayor Love was also left off the delegation, so that he may loo kafter the affairs of the city on convention day.

In many respects the convention looked like the democratic convention, in that the same persons did the fixing of the platform and whipped the delegates in line. Had Senator Burkett insisted on making his fight for chairman after the convention convened Jasper L. McBrien would have made a speech against him, and that speech would have been just like the Bryan speech, which would have made the conventions practically table.

A. E. Cady Files for Governor.

A. E. Cady of St. Paul has filed his name as a candidate for the republican nomination for governor, the papers being deposited with the secretary of state this afternoon. Mr. Cady has served in the state senate on several occasions and in 1905 fathered the railway commission. Mr. Cady has business interests at St. Paul and at Grand Island. He recently returned from a trip abroad and was at once solicited by many republicans to make the race for governor.

Price Quits the Game.

W. B. Price is out of it. He withdrew this afternoon from the race for the democratic nomination for United States senator to make room for Richard L. Metcalfe, at the solicitation of a number of democrats and a thump or two from the big stick. Democrats believe that no democratic candidate stands a chance of election without the support of Mr. Bryan, and they know that Mr. Hitchcock can never get that support and that Price did not have it, so they fell upon Metcalfe to take up the fight, first to beat Hitchcock, and Willis Reed, and then to go after the republicans.

This is not a new experience for Price. He was sidetracked by his friends two years ago and John Maguire now occupies a seat in congress which he might have had. But Price is known for his big heart and his generous nature and he bears no malice, so the democrats felt no hesitancy in asking him to give up the ambitions of a lifetime, for what they considered the good of the cause.

Petition for Metcalfe.

Immediately following the withdrawal of W. B. Price for senator, a petition was filed with the secretary of state asking that the name of Richard L. Metcalfe be placed on the democratic ballot. Mr. Metcalfe said he would say nothing today regarding the petition, but will make a statement tomorrow. There is no doubt Mr. Metcalfe will accept the filing and make the race.

Tobey Files for Congress.

George E. Tobey of Lincoln today filed his name as a candidate for congress on the republican ticket in the First district. Mr. Tobey announced himself some months ago and has already made quite a campaign. He is secretary of the State Epworth assembly.

More Candidates.

The following candidates filed their names with the secretary of state today:

C. B. Diehl, Stratton, republican, representative Sixty-seventh district. Agreed to vote for the candidate for United States senator who receives the most votes at the primary.

Benjamin F. Wills, Hebron, republican,
