"I've Joined the 'Club!'"

Scores are already echoing it! Hundreds WILL echo it! Midsummer is no barrier. Every indication points to a pace-creating disposal of pianos. It wouldn't surprise us if a second, even a THIRD club would become necessary.

I. J. PADEREWSKI, A Notable Purchaser of the Famed "Huntington" Piano.

"Paderewski" Chose and Purchased A Huntington of all Pianos!

And the "Huntington" is the self-same piano offered to members of the Bennett "Club" Here is Paderewski's Letter:

Read this letter written by the world's premier pianist, Paderewski, to the manufacturers of the "Huntington" pianos: Manhattan Hotel, May 13, 1900.

To the Huntington Piano Co. Dear Sirs: Having heard excellent accounts of your instruments, I hereby request that you will send one of your pianos to the Paderewski Singing Society at Chicago, Ill., for my account.

Yours very truly, I. J. PADEREWSKI.

Horrors! Who wants those dirty, oily worms in their face? Blackheads. A person with blackheads might not be considered clean, as these little worms are the result of dirt in the pores.

Real Foot Comfort. It's not a foot remedy you want—it's shoes that fit your feet and that are made so as to cure foot ills while you walk.

The optimist grew thoughtful. And his words were sadly terse—"The world is growing better. But the climate's getting worse!"

Now that the ascent of summer has been made and Omaha is in mid-season, society is resting on its oars, so to speak. Part of the resting takes the form of summer resort festivities, and Omaha is well represented at many of these lake, mountain, seashore and country summer places.

This week two large public events will interrupt the social siesta, the stereopticon, whose concerts open with the program Wednesday evening and continue Thursday and Friday afternoon and evenings, and the Midwest Aviation meet, which begins Saturday.

Traveling parties are rapidly becoming institutional in Omaha society. Already they are established as popular methods of entertainment and invitations to these private excursions of the modern picture craze are accepted with alacrity.

Mr. Charles Martin and Mr. Frank Martin have an excellent viewscope and among the other interesting slides which they use are the slides which show in their natural colors many interesting scenes photographed by Mr. Gordon W. Wattle in his tour of the world.

Interest in the coming Midwest Aviation meet is more than perfunctory for many of Omaha's women enthusiasts in the cause of science or athletics, or searchers for new thrills. At least this is the impression one gathers from a talk with those in charge of the meet.

Alrship sailing has not yet become a general pastime for womankind. The number of those who have ridden in aeroplanes is still small and the number who have aspired to drive their own cars into the clouds is much smaller.
