

Mid-West Aviation Meet

FIVE DAYS, COMMENCING JULY 23

Grounds 45th and Military Avenue Hours 3 to 6 P. M

THE MOST FAMOUS AVIATORS IN THIS COUNTRY TODAY WILL ASSIST

MR. GLENN H. CURTISS

The world's greatest aviator, in making this the greatest aeronautical event in this country since the International Meet at Los Angeles.

This is positively the only western meet in which MR. GLENN H. CURTISS himself will take part. He will use the same aeroplane in which he made his famous flight from Albany to New York.

J. C. MARS whose name is now known all over the civilized world, will give daily exhibitions of his daring "glide" in his Curtiss aeroplane. From a height hundreds of feet above the earth, he shuts off his motor and plunges like a bullet to the earth. It is a feat rarely attempted by any aviator.

This is one of the few opportunities that have been offered in this country to view every type of craft that flies, viz: **SPHERICAL BALLOONS, DIRIGIBLE BALLOONS, and HEAVIER THAN AIR MACHINES.**

Mr. Horace Wild, the most daring and famous operator of the Dirigible Balloon in the world today, will give daily exhibitions. His balloon is modeled after the famous Zeppelin Dirigible.

Crissey's Pharmacy 24th and Lake
 Saratoga Drug Company 24th and Ames
 Red Cross Pharmacy 17th and Cuming
 Walnut Hill Pharmacy 40th and Cuming
 Bemis Park Pharmacy 33rd and Cuming

 Fisher, McGill Co. 24th and N Sts., South Omaha

PRICES FOR THE MEET

Adults 50c, Children 25c, Grand Stand \$1.00, Automobiles \$1.00

EUGENE ELY one of the most intrepid and venturesome of the American aviators, will also take part in a special machine which is now being constructed in the Curtiss factory. It is the latest production of Curtiss' genius.

GOVERNMENT EXHIBIT

The Signal Corps from Fort Omaha will give daily exhibitions of the uses of the captive and dirigible balloons in modern warfare. This is one of the few opportunities which has been offered to the people of the Mid-West to witness a government exhibition of this kind.

It will be practically impossible to furnish tickets to the big crowds at the grounds to advantage, and the management has therefore placed tickets for sale at the following points:

SANSON HOST TO AD MEN

Space Sellers from All Over to See Halley's Comet.

LOCAL AD MEN JOIN KNIGHTS

Board of Governors Have Planned a Busy Season and Ask Omaha Men to Help Pay the Bills.

Omaha, particularly that part of Omaha made up of Ak-Sar-Ben's host, at last has an opportunity to prove its contention that it harbors the liveliest bunch of boosters west of the Missouri. What's more, it has an opportunity to display its array of proof before critics who are professional boosters themselves.

In other words, the delegates to the National Convention of Ad Clubs will be taken out to the den tomorrow night. Samson has extended an invitation to the Omaha Ad club asking their co-operation in making the entertainment of the advertisers outdo all previous ceremonies. Samson would like to see every member of the Omaha club a member of Ak-Sar-Ben before Monday night.

Although many Ad club members are already enrolled with the knights there are yet a great many who do not wear the little red, green and yellow button with a star on it. It is very likely that by the time the Ad men from afar begin to gather in Omaha the whole club will go into Ak-Sar-Ben. Samson's only regret is that all the knights can't join the Ad club.

Expenses of the fall festival are expected to be heavier this year than for years past. The great daylight parade, in which there will be about 5,000 United States troops, will alone call for an expenditure of \$4,000 or \$5,000. Other features are to be more elaborate than before and the expense will be accordingly greater.

Some of the Attractions.

By the way of emphasizing a few of the more important features which call for money, Samson is sending out "statements of account" to over 200 Omaha citizens, setting forth the following items:

September 3-To one visit from Theodore Roosevelt, ex-president, mighty hunter, citizen of renown.

October 5-To one electrical pageant unsurpassed in brilliancy and originality.

October 4-To one magnificent military parade—5,000 men—cavalry, infantry and artillery; a sight to quicken patriotism.

October 2-3-To one splendid series of military maneuvers—large bodies of troops in their different formations and evolutions.

October 2-3-To one great military encampment; an object lesson in army life and discipline.

June-September-To one initiatory feature affording a place of recreation throughout the summer for Omaha men and a unique entertainment for their visitors, making every one of these an Omaha booster.

September 28-October 3-To one great festival time, drawing vast crowds to our city, advertising Omaha and swelling the sales of Omaha merchants.

195-198-To sixteen years of devotion, heart and soul, to Omaha's interests, of planning early and late for her advancement, of earnest, sincere and hearty endeavor for the good of their home town and their splendid state.

Amusements

Dancing and Bathing the Popular Bill at Manawa—Gayety Offers a "Biggest" for Current Week's Headliner.

Among the features that have grown more popular this season over at Lake Manawa, dancing takes place only second to bathing. Time was when a class of people who are now regular patrons of the dance at Manawa would hesitate before indulging in this wholesome amusement. The character of the people who dance at Manawa and the prevailing decorum is such now that it is a common sight to see members of the exclusive clubs, who come in parties, indulge in dancing. A popular program with many of the best people this summer has been a good warning up on the dance floor followed by a plunge into the lake. As an exercise and invigorator, this is considered exceedingly good. As an incentive for the crack roller skaters to show what they can do, a prize is going to be hung up to be contested for. The first event of this kind will be pulled off just as soon as entries are secured. Expert skaters would like to enter are requested to make application at the roller skating rink or the park offices.

For the first half of this week, starting this afternoon, the Gayety management will offer in conjunction with the regular summer time vaudeville bill a veritable "squadron" in the form of the efforts of Billy Weaver, the fall breaker and handcuff expert to extricate himself from all manner of shackles such as are used to confine prisoners. Weaver invites any officer of the law to bring his own pet handcuffs and leg irons or any similar device and lock him up. He then agrees to free himself merely to show what a slippery customer he is. The management of the theater hasn't the confidence in his ability as a fall breaker that he has, and so would only consent to his appearing with the distinct understanding that if he does not free himself at every appearance he is to draw no salary. So it is purely up to Weaver. A novelty combination act will be presented by the two Rebhols—Minnie and Frank. They sing and dance, do baton spinning and expert whistling and bird imitations. Harry Lyons' song for the first half of the week will particularly appeal to spoony folks—it's entitled "When I Fell in Love With You." The moving picture section of the long program will, as usual, include one of the excellent Imp films that are invariably welcomed by a burst of applause on the screen. Many comedy subjects are also listed for display. The performance will be given continuously from 1 to 5 and 7 to 11 p. m. daily.

The Hillman stock company will be seen at the Airdome in a western farce comedy this week entitled "A Time Limit." This play contains musical numbers and is interspersed with vaudeville between acts and bids fair to be the most pleasing entertainment given by this company so far.

A Pleasant Surprise follows the first dose of Dr. King's New Life Pills, the painless regulators that strengthen you. Guaranteed. 50c. For sale by Beaton Drug Co.

Courtland Beach Offers Special Attraction.

Courtland Beach, aside from the many usual attractions, has secured Louis Dubec's interesting animal show for this week only. There will be performances every afternoon and evening.

The new roller skating rink affords unusual facilities for the entertainment of a very large number of people, there being accommodations for 500 people at one time. The beach is always attractive and realizing this, the management has recently purchased 400 new bathing suits.

Army Officers to Compete at Big Horse Show

Americans Expect to Compete with Best Horsemen of European Armies.

American cavalry officers, particularly those stationed at the western army posts are on edge awaiting the selection of the teams which will participate in the international competition at the National Horse show in New York next November against the crack riders of Great Britain's hussars and lancers, who have accepted the association's invitation to compete.

In addition to the British officers, President Alfred G. Vanderbilt is hopeful of securing the presence of the French and Belgian riders, who competed so successfully in the International Horse show at the London Olympia last month.

At the national show at Madison Square garden last year the American team, which included Lieutenant Ross Swift, Jr., Eleventh United States cavalry; Lieutenant John C. Montgomery, Seventh United States cavalry; Lieutenant J. S. Martin, Fourteenth United States Cavalry; Lieutenant Gordon Johnston, Third United States cavalry, and Lieutenant George W. Lee, Seventh United States cavalry, made a splendid showing, considering the short time at their disposal for shooting after the War department had sanctioned their participation in the big event.

In the International Horse show in London, Belgium and France sent their finest riders into the arena with the best of the sixteenth lancers in the competition for King Edward VI. cup, and the Britons were overwhelmed by the art and the wonderfully schooled animals of the continental officers. Only a single fault separated Belgium, which won from France, the second choice, while the lancers were humiliated by criticism urging a new system of schooling in riding along the lines of the continental armies. The United States army was not represented in the competition, but it has been reported to the officials of the national show that there is good reason to believe that the men in blue who will appear in the ring at Madison Square garden will represent the flower of the picked riders of the army.

Not a little of the success attending the jumping and riding exhibitions of the British army horsemen in the national and international horse shows held in New York and Chicago respectively, last winter was due to the direction of colonel, the Hon. J. G. Beresford, D. S. O., Seventh hussars, Aldershot, who again will have complete charge of the England team which will include Lieutenant Geoffrey Brooke, of the Sixteenth lancers, who led the British riders and jumpers in the international show at the Olympia in June. Added interest has been given to the promise of a team of English officers by the report from Lieutenant Winfield B. Sifton of Toronto, Can., that the dominion government will formally conclude arrangements soon, whereby a team of ten Canadian officers will attend the national show. These riders are quite likely to be provided with the best schooled mounts to be found in Canada, so eager are the officers of the War department to show the superiority of the Canadian soldiers over the team from the mother country as well as the teams of the continent.

JIM HALL GETS TWO YEARS
