DEMAND FOR TARIFF REFORM

Postal Savings Bank Bill Denounced—Clinton Price, Primary Nominee, Makes Address Along Same Lines.

DES MOINES, Ia., July 21.—(Special Telegram.)—The democrats of the Seventh district today held the last of the congressional district conventions here. There was a small attendance, as Clinton Price, editor of the Indianapolis Advocate, had already been nominated for congress at the primary.

The delegates adopted a platform, however, which will probably be a model for their state platform. They quoted Senator Aldrich in regard to alleged extravagance of the government and pledged the democratic nominee to a thorough investigation of all departments with a view to retrenchment.

The resolutions also demand tariff reform and reduction in schedules on cotton and woolen goods and free iron and steel. They also demanded a revision of the income tax, bank guaranty and denounced the postal savings bank bill as passed by congress.

Mr. Price, the nominee, made an address along the same lines.

Woman's Claim to Farm is Good

Interior Department Overrules Land Office in Case of South Dakota School Ma'am.

PIERRE, S. D., July 21.—(Special.)—In the case of Mrs. M. A. Baisley, a teacher as transferee for a tract of land in Hyde county the secretary of the interior overrules the decision of the general land office in cancelling the proof of Miss Walker to a tract of land in Hyde county. The claimant filed on the tract in 1906 and made residence on the claim and commuted the entry in the spring of 1906. Later she sold the tract and in August of 1906 a special agent of the government recommended cancellation of the proof on account of insufficient residence and cultivation.

On a hearing it was shown that the claimant had provided a comfortable small house on the tract; had broken five acres, which was cultivated and used the claim as a home while she taught school at a point about four miles from the tract. She boarded near her school during that time, but went to the claim every Friday evening, remaining until Monday morning, except during the holiday vacation, which she spent with her parents at Huron. The house was comfortably furnished and was supplied with sufficient food to sustain the severity of winter and the residence was held on the land up to the time of final proof.

When proof was made the claimant left her furniture in the building until a part of the structure and contents were stolen. When she sold what was left of the building and took away her belongings. This was given as one of the evidences of bad faith on her part. After a review of the case the holdings of the general land office are reversed and the proof sustained. This case will be of more than passing interest to many young women who are holding homesteads while teaching school and will likely be used as a precedent to many like cases which are numerous in the northwest.

Forest Fires in Wisconsin

Town of Galloway is Surrounded, but is in No Immediate Danger.

CHICAGO, July 21.—The reports that several hundred people are hemmed in by flames at Bloomfield and Gleason, Wis., are incorrect. This fact was established by telephone communication with Warsaw and Merrill, Wis. The only town in that vicinity which has been seriously damaged by fire is Galloway. The town of Galloway is surrounded by a wall of fire about ten miles wide, but it is not believed to be in immediate peril. No lives have as yet been lost, so far as known.

WAUSAU, Wis., July 21.—The forest fires in the southeastern portion of this county are probably the worst ever seen in Marquette county and unless the wind dies down 10,000,000 feet of standing timber will be destroyed. The fire covers an area ten miles in length. Two engines are being used for fighting the fire, but owing to the high winds they are of little help.

MERRILL, Wis., July 21.—Several hundred persons of Bloomfield and Heleman are hemmed in by forest fires at the former town with seemingly no means of escape. The fires have destroyed railroad tracks for some distance between Bloomfield and Merrill, making it impossible for the villagers to seek refuge in Merrill. The forty homeless of Heleman fled to Bloomfield only to be confronted by a similar peril.

IDENTITY OF PREACHER WHO KILLED HIMSELF

Rev. Athelstan Cornforth Was Formerly Successful Stock Broker

LONDON, July 21.—Rev. Athelstan Cornforth, who committed suicide in New York yesterday, is said to be identical with a London stock broker of that name whose creditors, ignorant of his fate, met today in the bankruptcy court.

Cornforth had been a clergyman, serving parsonages in this city and at Nottingham. He was married and leaves a family. Some years ago he left the ministry to engage in business. Beginning as a broker, he built up a big patronage and during the South African boom the turnover of his brokerage house was larger than that of any similar firm in London.

But domestic worries preyed severely on his mind. Last year his physicians ordered him to take a rest. He did. In the meantime his business was allowed to drift until today his affairs reached the bankruptcy court. His creditors met today, unaware that the bankrupt had taken his life.

CONSTIPATION MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They do not excite, they do not grip, they do not weaken, but they do effect all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion, constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. These pills contain no calomel, no dope, they are soothing, healing and stimulating. They soften the bowels so soft without physic. Price 25 cents.
