CHOICE OF ANY STRAW HAT IN STOCK, Saturday Half Price

Men's and Boys' Clothing Half-Price Saturday
Brief and to the point. The whole story is told when we say half price. Select your suit from among 500, pay the man half the price it is marked and the suit is yours. You have saved 100 per cent on the deal. That's fair enough—and bear in mind, we haven't an ancient suit in the house. Every suit is fairly bristling with good style and is a marvel of tailoring exactness.
Men's \$30 Suits, Men's \$20 Suits, Boys' \$5 Suits, \$15 \$10.00 \$2.50
Men's \$25 Suits, Men's \$15 Suits, Boys' \$3.50 Suits \$12.50 \$7.50 \$1.75

PROTEST AGAINST SPEEDING
Omaha Automobile Club to Make Renewed Efforts.
SPEEDERS ARE TO BE EXPELLED
Officials Also Say Something Must Be Done in the Way of Prevention as Well as Punishment.
The killing of Harry Drefs has brought forth renewed protests against speeding of automobiles in Omaha. Even more feeling has been aroused than by the two previous accidents within the last month.
E. H. Sprague, president of the Omaha Automobile club announced that his organization will make renewed efforts to stop speeding.
"We shall set our own watch and at once expel all offenders from the club ranks," said Mr. Sprague. "It is necessary for drivers to use extra caution with respect to children. Older people can be educated to use ordinary care in crossing streets and this is all that fair drivers expect of pedestrians. Children will run all sorts of risks, running across the middle of the street without looking to right or left and even if a car is just creeping along the life of children is often endangered."
"For this reason, with respect to children, drivers must keep a constant watch. It is the only thing that can be done as long as children are allowed to play in the streets. Everyone knows that they cannot be kept off and since the automobile is here to stay, extra precaution is the only available means of preventing more distressing accidents."
Wants More Motorcycles.
Mayor Dahlmann says he deprecates the fact that lack of funds prevents putting out more policemen on motor bicycles to watch for speeding autos. "We have only two," said the mayor, "and we ought to have six or eight. The police department is to be again renewed orders to arrest every motor

car speeder and to exercise every ounce of diligence to prevent speeding.
"The death of the little Drefs boy is most distressing. It is the third fatality within a month and it brings a shock to everyone that a 9-year-old boy should be thus suddenly killed. A serious sense of responsibility must be inculcated in the driver of every car and offenders must be punished as severely as possible. The slaughter of children in the streets must stop."
County Attorney English said that "at the present rate prosecution of men for killing people through automobiles bids fair to become much the greatest part of our work. It is just monon since William Krug's life was snuffed out."
"Prosecutions will go on vigorously, but this is certainly a matter where prevention of accidents is more desirable than regrets afterward."
Licenses Are Needed.
Judge Estelle of the district court says he thinks the ordinary fine imposed on reckless drivers is not a sufficiently heavy penalty. He favors a jail sentence which cannot be escaped by the payment of a fine.
Sheriff Bralley believes in requiring all drivers to first secure a city license and back it up with a bond sufficiently large to make the penalty in case of a violation of the law one which the violator would really feel.
Judge Kennedy of the district court favors the adoption of a license system, the license to be withdrawn from any person violating the speed laws. A heavy penalty should also be inflicted upon persons who drive cars without a proper license, issued only after an exacting examination as to the qualifications of the applicant.
Robert Smith, clerk of the district court, gives his opinion that the present speed limit of twelve miles is too low. He advocates the license system to be granted only to persons who are fully qualified and who are over 21 years of age.
A Life Problem Solved
by that great health tonic, Electric Bitters, is the enrichment of poor, thin blood and strengthening the weak. 50c. For sale by Beaton Drug Co.

Ingratitude is Shown by Two Omaha Doctors
Former Recipients of Favours from World-Herald Boost Willis E. Reed.
Another case of base ingratitude has come to light in the distribution of a circular signed with the names of five doctors, in the interest of Willis E. Reed for United States senator. The excuse for the circular, which is going by mail to medical men generally, is that Reed promises to put a doctor in the cabinet as secretary of health, and the queer part of it is that it signed by at least two republicans, although Reed is running for the democratic nomination. The two republican doctors whose signatures are affixed are A. B. Somers and S. R. Towne, who have been recipients and beneficiaries of persistent boomer by Mr. Hitchcock's World-Herald, but for which they are now returning him his empty shell.

Two Oil Cars Knocked Over
Engine Strikes Train and Damages Tank Cars, but No Oil is Lost.
Two cars were turned over and a small amount of damage caused by a collision of an engine and a string of oil cars at Seventeenth and Pierce streets Thursday evening. Union Pacific engine No. 1202 bumped with considerable force into the side of the cars at a switching point.
Though two of the oil cars were toppled under their sides, not a drop of oil was lost. A wrecking crew righted the cars in a few minutes.
SCHALLER DECLARED SUICIDE
Coroner's Jury Finds He Took Nicotine Fumes While Under Mental Strain and Dependent.
Suicide was found to have been the cause of Robert C. Schaller's death Tuesday by a coroner's jury Friday morning. The jury returned the following verdict:
"We find that Robert C. Schaller came to his death by taking nicotine fumes while laboring under a mental strain and dependency."
Mr. Schaller's body was found in a cellar at the home of a relative, 3002 Davenport street, Tuesday evening. He had apparently taken the fatal poison between 4 and 6 o'clock.
Persistent Advertising in the Road to Big Returns.

TO SHOW RAILROAD SHOPS
Public Will Be Invited to Inspect the Union Pacific Plant.
McKEEN SHOP ALSO TO RECEIVE
Visitors Will Be Guided Through Machinery Departments July 30 and Interesting Things Will Be Explained.
Omaha people are to be given a rare treat by the Union Pacific Railroad and the McKeen Motor Power company on July 30. On that day both shops will be thrown open to the inspection of the people from 9 in the morning until 4 p. m. Capable men will be in each part of the buildings ready to explain to the onlookers the purpose and manner of working of each piece of the great machine shops.
When the plan of letting the shops be open for an afternoon was first thought of, it was thought that perhaps only the employees and their families would be permitted to pass through, but A. L. Mohler, vice-president and general manager, has decided that this should be made an opportunity for everyone wishing to view the famous shops to do so.
McKeen Shops Also.
President McKeen offered to open the McKeen works on the same day to the public as they are in the same inclosure with the Union Pacific works, and were formerly connected with them. Several motors are now in course of construction and as many people of this city have never seen the new cars, the chance to see them will be accepted with pleasure, it is expected.
"Omaha scarcely realizes the vastness of the works nor the great number of men that are employed at these shops," remarked T. M. Orr, assistant general manager, in speaking of the coming day. "Of course we receive many requests from individuals and different societies and clubs to allow them to pass through our shops while in operation, but this is somewhat

dangerous and one of our chief reasons in setting this day is to allow everyone to see them who wishes to."
Offer of New Fire Auto Taken
Five Thousand-Dollar Machine Will Be Purchased—Ed Morris New Warden.
A new fire automobile for the Omaha department will be purchased by the Board of Fire and Police Commissioners from the Seagraves company of Columbus. The contract was awarded Thursday evening from the bids on combination hose and chemical motor cars that were handed in to the board Tuesday. The price is to be \$5,400. A contract for a horse-drawn hook and ladder truck, to cost \$2,900, was awarded to the American La France Engine company of Elmira, N. Y.
As a settlement of the long dispute over the appointment of a fire warden, Ed Morris, the mayor's last appointee, was given the job. The board had been holding back from giving anyone a chance at the \$1,000 salary until it could be determined whether or not the holder could be held responsible to a higher office. The city attorney gave his opinion that the warden would be responsible to the board that appointed him, and the appointment was made on that basis.
BOYS FAIL TO APPEAR
Abernathy Lads Engage Rooms at Henshaw, but Do Not Occupy Them, as Expected.
Louis and Temple Abernathy, made famous by their trip on horseback from Oklahoma to New York to see Roosevelt, did not appear in Omaha last night according to schedule. They had engaged rooms at the Henshaw hotel, and it is supposed that they were merely detained for some unknown reason.

Explosion Jars New Street Car Power House
Basement of Building at Fifth and Jackson Damaged Five Hundred to Thousand Dollars.
Following the explosion of dynamite under a derrick at the new power house of the Omaha and Great Northern Railway company, Fifth and Pacific streets shortly after midnight, Friday morning, Assistant Manager Leusser gave out an interview declaring his belief an incendiary had perpetrated the damage.
"From the manner in which the explosive was evidently placed, from the threats that have come indirectly to our ears and from previous violence which has been enacted upon the contractors, I believe the explosion was a malicious piece of work," he said.
Mr. Leusser estimated the damage at \$1,000 and Detectives Maloney and Van Dusen, give it as their belief as amounting to not more than \$500.
"The Wisconsin Bridge and Iron company, which is doing the construction work," said Mr. Leusser, has suffered from a number of dynamite crises in the last several years. The company has trouble with structural iron workmen's unions and has been employing only nonunion men since. It is believed dissatisfied workmen for this reason have been doing the dynamiting.
Leusser then explained that the dynamite charge at the power house had been placed under the show of the derrick boom, intended probably to throw the huge boom against a wall and destroy both. That this did not occur as completely as expected, he said, probably was an accident.
Mr. Leusser announced the street railway company had offered a reward of \$500 for the conviction of the perpetrators of the deed and the construction company offered a like reward.
