

COMING MASTERY OF THE AIR

Aviator Hamilton Draws a Rainbow Picture of the Future.

INCREASING FACTORS OF SAFETY

Air Travel to Be More Popular and Safer Than Autoing on Land—Some Airy Problems.

Eventually I believe travel will be as safe in the air as the auto on land...

The factor of safety, Mr. Hamilton contends, lies in the increasing control of aircraft...

The general public is under the impression that when the aviator reaches a high altitude...

Another fallacy in the public mind is that the aviator is continually fighting air currents...

Speeding in Air and on Land. In my opinion driving an aeroplane at the speed of 120 miles an hour is not nearly so difficult...

In order to accommodate as many as possible at Manhattan Beach, Lake Manawa, today the bath houses will be opened at 10 o'clock...

At the Air Dome, corner of Eighteenth and Douglas streets, there were over 8,000 paid admissions last week...

Manawa Offers an Early Opening of the Bath Houses—Vaudeville at the Gayety—Drama at the Air Dome.

A new dramatic stock organization will appear for a limited engagement at the Krug theatre, starting Sunday matinee, July 24.

Also, with the coming of the airship, a very pretty problem will be presented to the legislators of the world...

But in an aeroplane it is an entirely different proposition. Once a man becomes accustomed to aeroplaning it becomes a matter of unconscious attention...

Evening at the Air Dome. A new dramatic stock organization will appear for a limited engagement at the Krug theatre...

Man-Bird in Tabloid

HISTORY OF THE NOTABLE ACHIEVEMENTS OF THE AEROPLANE.

Fourteen years ago Prof. Langley's little steam aeroplane flew a dozen rods or so above the Potomac river and then collapsed. A few weeks ago a man flew from London to Manchester; a little later another flew from Albany to New York city...

1907, November 7—Henry Farman, at Paris, flew 1,300 yards in Farman biplane.

1908, September 17—Orville Wright, at Fort Myer, flew fifty miles in 1:15.

1908, December 15—Wilbur Wright, at Avours, France, flew sixty-two miles in 1:54, attaining an altitude of 352 feet, a world's record.

1909, December 31—Wilbur Wright, at Avours, France, flew seventy-seven miles in 2:30, winning Michelin prize. Then world's record for distance.

1909, July 25—Louis Bleriot, in a Bleriot monoplane, flew across the English channel, thirty-two miles, in thirty-seven minutes. This spectacular flight attracted more attention than any other flight on record.

1909, July 30—Orville Wright, at Fort Meyer, carrying a passenger five miles and back, cross country, made forty-two miles an hour in official speed test before government officials.

1909, August 25—Glen Curtiss, at Reims, won the Gordon Bennett cup.

1909, October 4—Wilbur Wright flew from Governor's Island, New York harbor, to Grant's tomb and return. On the same day Orville Wright broke the world's record for altitude, ascending 1,900 feet at Berlin.

1910, January 12—Louis Paulhan, in Farman biplane, reached an altitude of 4,183 feet at Los Angeles, making new world's record.

1910, January 15—Louis Paulhan, at Los Angeles, made a cross-country flight of forty-seven and one-half miles, from Los Angeles aviation field to "Lucky" Baldwin's ranch and return, flying in a kite. A world's record for cross-country flight ending at starting point.

1910, April 18—Louis Paulhan flew from Orleans to Arcis-sur-Aube, 118 miles, in three and one-half hours.

1910, April 28—Louis Paulhan flew from London to Manchester, more than 180 miles, in twelve hours, with but two stops.

1910, May 30—Glen Curtiss flew from Albany to New York city, 137 miles, in 152 minutes, with but one stop, winning a \$10,000 prize. Speed, 64.8 miles per hour, faster than the average Twentieth Century Limited for the same run. A world's record for sustained speed.

1910, June 2—Charles Stuart Rollis, in a Wright biplane, flew from Dover, across the English channel to Sangatte and back, fifty miles, in ninety minutes.

1910, June 13—Charles K. Hamilton flew New York to Philadelphia and return.

used to smuggle diamonds across frontiers. The aeroplane as it exists today is by no means perfect, but for the purposes of war it is, in my opinion, practical for almost all purposes. We can ride it to great altitudes, drive it on long and continuous journeys, circle over cities and great masses of men, drop projectiles. We can also launch from ships and fly over water with safety. It has been demonstrated that skilled operators can do almost anything they will.

The eighth consecutive week of the immensely popular reign of summer time vaudeville at the Gayety theatre will contain in the program offered many things to amuse and instruct. Among the vaudeville acts engaged for the first half of the week is the well known impersonator of male characters, Miss Clare Collins, who is known over the eastern circuits as the Beau Brummel of Vaudeville. Miss Collins is a snappy dresser and has a bundle of songs which, sung as she promises to deliver them, ought to win for her the good will of all. Another contribution to the long program will be the juggling act of the Malcoms, who are famous for their dexterous manipulation of most any article they can lift. The musical end of the entertainment will be supplied by Temor Lyons, who will sing "I Would Die for You," with accompaniment on the big cathedral pipe organ. The performances are given continuously every day from 1 to 5 and 7 to 11 p. m.

At the Air Dome, corner of Eighteenth and Douglas streets, there were over 8,000 paid admissions last week to witness "The Time Limit." This week the Hillman Stock company will be seen in "The Genius and the Gentleman," which slightly resembles the well known play of "Dr. Jekyll and Mr. Hyde" in construction.

OLD GAME FAILS TO WORK

J. D. McChesney of Bellevue Declines to "Bite."

SPANISH SWINDLERS STILL BUSY

Write Same Old Story of Man Languishing in Jail, His Beautiful Daughter and Her Large Fortune.

Exposures of the great Spanish swindle, which has been in operation over twenty years and which has beguiled money from the purses of many Americans, brought to light the most recent attempt by the swindlers upon a resident of Bellevue several days ago. J. D. McChesney of the McChesney Lumber company of Bellevue was the intended victim.

A letter from an alleged political prisoner languishing in prison at the point of death with a bullet wound, telling of a fortune, was the medium of the attempt.

With a story that would have melted the heart of the Sphinx, Don Eduardo Blanco McChesney wrote Mr. McChesney of Bellevue, claiming kinship and telling of his awful plight.

After the same fashion as that used countless times before the letter described Don McChesney's plight. Then it told of the kinship, and pointed out how a great fortune could be gained.

Could Use a Little Cash. In other instances, the throbbing lines of anguish could be gained. The don had attacked the corruption of the Spanish government and for his pains was wounded and made a prisoner in a dark dungeon.

Beautiful Daughter. The beautiful daughter of the don, who was the good priest who was helping the don mail the letter, could be trusted in the unfortunate land of Spain. Therefore, the don wrote, he was appealing to his kinsman in America to become guardian of the beautiful daughter, kindly accept a fourth part of the great inheritance and send a trifling amount of ready money to the good priest that a grip might be gotten out of jail and its secretly contained key to the vaults in New York be obtained.

Couple Caught for Swindle. Detectives Get Man and Woman Charged with Clever Piece of Robbery.

Detectives Murphy and Thornton arrested C. E. Bates and May Thompson Saturday morning on a charge of robbing Grace Woods, 1508 Capitol avenue several weeks ago. The two prisoners are alleged to have operated a swindle upon the Woods woman, and to have disappeared with \$50 of her money through the maneuver.

Woman is Fined for Beating a Man

Judge Altstadt Assesses Mrs. Lambert \$5 and Costs for Whipping Jos. Jirasek.

One Mrs. Lambert, who refused to reveal the remainder of her name, was on trial Friday morning in Justice William Altstadt's court, charged with assault and battery on the person of Joseph Jirasek, the complaining witness, the deed having been committed a few days ago at Ninth and Highway streets. Jirasek alleged that he had been beaten and otherwise abused.

Mrs. Lambert pleaded not guilty, but after hearing the evidence, she was found guilty and ordered to contribute \$5 and costs.

GLENN CURTISS IS HERE!

July 23, 24, 25, 26, 27 Special Program Sunday

Grounds: 45th and Military Ave. Hours: 3 p. m. to 6 p. m.

J. C. MARS AND JOHN McCURDY ARE WITH HIM

Magnificent prizes have been put up for the first world's record broken and the most daring and spectacular flight during the Meet. These prizes will be awarded on the last day of the Meet. An opportunity will be given daily to view the Curtiss Biplane at close range. The machine will be run in front of the grandstand, and its principles and workings explained. On Tuesday afternoon a Diamond Ring, presented by the Ryan Jewelry Co., will be dropped into the crowd from an aeroplane. Government Exhibit This is the first opportunity given to the people of this territory to witness the evolutions of the war balloons now used by the United States Army. Lieutenant Haskell of Fort Omaha will be in charge of the War Balloons, and the Signal Corps from the Fort will give daily exhibitions of the uses made by aerial craft in modern warfare.

Table listing ticket agents and their addresses: Crissey's Pharmacy, Saratoga Pharmacy, Red Cross Pharmacy, Walnut Hill Pharmacy, Bemis Park Pharmacy, J. H.
