ADMIT CONTENTION IS GOOD
 Attorneys for Democrats in Primary Injunction Resort to Technicality.
BAY WRONG PLAINTIFF IN ACTION
 Lawyers for State Committee Avers Mr. Rosewater is Not Interested Financially, Hence the Case Should Fall.

(From a Staff Correspondent.)
 LINCOLN, Neb., July 27.—(Special Telegram.)—The application of Walter Rosewater, republican national committeeman, for an injunction to prevent the secretary of state from certifying out to the county clerks the names of democratic and populist candidates for office who filed double, and presented only one receipt showing that only one filing fee was paid was heard before District Judge Frost this afternoon. The democratic committee was represented by former Supreme Judge John J. Sullivan, democrat, and T. J. Doyle, a democrat representing Dick Metcalfe, assisted with Assistant Attorney General Ayres. Mr. Rosewater was represented by John O. Yeiser. Thomas M. C. B. Birmingham, who is trying to get his name on four ballots as a candidate for United States senator, appeared in his own behalf and made a stump speech.
 The attorneys representing Mr. Junkin practically admitted that the law required two filing fees in cases of double filing, so they based their objection to the injunction on the ground that Mr. Rosewater was not the proper party to institute the suit, as he was not financially interested. Judge Frost has taken the case under advisement.
Isaac Pankhurst Killed.
 Isaac Pankhurst, aged 13 years, residing at Belmont, was instantly killed by the explosion of a traction engine Wednesday morning. The traction engine, which belonged to Nick Kramer, was working on the farm of Maxey, five miles north of the city on First street. The top of the young man's head was blown off.
 The explosion occurred at 11:30 on Wednesday morning. Pankhurst was working on the engine. Death was instantaneous. Kramer, the owner of the machine, was injured, the side of his face being scored with thousands of little cuts. Harry Rasmussen, employed by the threshing gang and on the separator 100 feet away, was thrown to the ground and severely bruised. The stacks of grain were destroyed by fire and the separator itself was partially destroyed.
 Little is known about the cause of the accident. Both ends of the engine blew out at once, showing that it was probably not due to defective boiler heads, but to excessive steam pressure, lack of water or some other cause.

BOY HAS A NARROW ESCAPE
 Mother Tries to Save Him from Wheat Bin and is Nearly Driven In Herself.
 TECUMSEH, Neb., July 27.—(Special Telegram.)—The 12-year-old son of Mr. and Mrs. D. Morrow, as well as the lad's mother, came near being killed at Minersville, a station on the Burlington, not far from Brownville. The boy was playing in a bin of wheat at the elevator as the wheat was being loaded into a car. He was caught in the suction of the escaping grain and drawn under it. His mother, in an attempt to save him, also got in the wheat and had the neck caught hold of a rod running across the bin would have been drawn under. The mother was soon released from her position, but the boy was under the wheat for several minutes, being released finally by one of the workmen grabbing an axe and chopping a hole in the bin, allowing the grain to run out upon the ground until the boy's body became uncovered. It is thought the boy will recover, though he had a rough experience and certainly a close call for his life.

BOY DROWNED NEAR BROKEN BOW
 Guy Meeker Taken with Cramps While in Swimming.
 BROKEN BOW, Neb., July 27.—(Special Telegram.)—Late yesterday afternoon, Guy Meeker, aged 12 years, lost his life while bathing in a swimming pool on J. O. Taylor's farm, eight miles east of here. Meeker was considered somewhat of an athlete and had given several exhibitions, so when he went into the water life preservers on the pool's edge commenced bawling and making fun of him in a good natured way. He thereupon took the life preservers off, and had hardly entered the water the second time when he was seized with cramps and disappeared beneath the surface. When Dr. Talbot, of this city, arrived at the scene in answer to a hasty summons by phone, the body had not been recovered, and it was some time later before it was located and brought to shore. Life by that time was extinct. L. E. Cole left here today to take charge of the body and make funeral arrangements. The interment will be made at Lee's Park, near where the boy resided. Meeker belonged to the Modern Woodmen, at Brown, and was insured in that order for \$1,000.

FARM HOUSE IN CUSTER COUNTY
 Family of Austin Loyd Has Narrow Escape from Death.
 BROKEN BOW, July 27.—(Special Telegram.)—The home of Austin Loyd, a farmer living ten miles north of Broken Bow, was completely destroyed by fire, the family barely escaping with their lives. The fire occurred in the early morning and Mr. Loyd was awakened by the smoke and flames rushing into his sleeping room; he then discovered that the whole interior of the house was ablaze. His wife and children had awakened in the meantime and a dash was made for the open. Nothing was saved in the way of personal goods, and the insurance on the building and furniture is small. It is thought the fire originated with a can of disinfectant, which had been placed on the stove in the kitchen over night. There had probably been fire in the stove, and during the night the ingredients of the disinfectant gradually heated until an explosion was the result. This is the second farm house destroyed by fire within a week.

This fine new home of the Methodist congregation provides ample room for the large Sunday school, and a seating capacity for church services of over 700, and one of the finest churches in this part of the state.

SOUTHEAST NEBRASKA IS DRY
 Dearth in Working Serious Injury to Corn Crop.
 STELLA, Neb., July 27.—(Special.)—Rain is seriously needed in southeastern Nebraska and the corn is suffering. On good ground the corn is holding its own fairly well, but on the poorer land much of the corn is practically ruined.
 Experienced farmers today conservatively estimated that if there is a rain within a day or two there will be at least a half crop or perhaps a trifle better than half a crop. The heat today is intense with no clouds, and this afternoon the thermometer registers 107.
 If the heat continues until the last of the week without rain the corn crop here will be a total failure. The usual good soaking rain was June 8, and no more until July 2, when there was a good three-hour shower, since which time the rainfall has only been a very light shower or more drizzle.

Stolts, accompanied by John Tolly, was called to Horton, Kan., this morning to identify the horse and buggy stolen from him Monday night by the thief who made his escape Monday afternoon. The thief made his escape in a corn field, which was guarded at night and today the pursuit was to be kept up.
 The horse was a big bay, but identification of the rig was from a big milk can tied to the back of the buggy, the thief having taken the can filled with milk from the Stolts farm. As word was telephoned far and wide the milk can was mentioned and so as the rig passed through Brown county, passers-by noticed the outfit and in this way the sheriff was able to keep on the trail.

AFAIRS AT SOUTH OMAHA
 Stockmen Plan Big Delegation to Frontier Day at Cheyenne.
AK-SAR-BEN GOVERNORS GOING
 Tommy Breenahan and Miss Mary Meehan Married at St. Mary's Church—Two Butchers Cut Each Other.

Unusual interest is taken in the coming Frontier Day excursion to Cheyenne, Wyo., August 25 to 27, from the fact that the Ak-Sar-Ben governors will accompany the stockmen on this trip. The South Omaha livestock exchange has sent large delegations for several years past, and it is a sign of the importance of the celebration of Frontier Day and of the high class of entertainment provided that these delegations have been growing every year. In addition to the Ak-Sar-Ben, a number of important officials of the Union Pacific will attend. A special train service will be provided, and the dining car will accompany the excursion for the entire trip.
 The Union Stock Yards company has taken great interest in the past and this year has offered two fine silver loving cups as trophies. One is for the best woman rider and the other for the best relay team. It will be remembered in this connection that ex-President Theodore Roosevelt will be present, which, aside from any other attraction, insures a great demonstration and great success.
 It is possible that the Ak-Sar-Ben may secure some of the best attractions for the autumn carnival.

 Charles Lester cut John Friesch on the arm yesterday at one of the local packing houses while the two men were playing, as each now maintains. It was reported to the police that they were butchers of the sheep gang of the Omaha Packing company and that they got into a quarrel and each had his knife. Lester struck at Friesch and the latter, throwing up his arm in defense, received a bad cut. The wounded man was taken to the South Omaha jail, where Dr. A. H. Koenig took several stitches to close the wound. It is likely that both men will be released, as they claim they were playing in a careless fashion with their knives.

Carrying the finest line of Italy's products ever placed on the Omaha market.

There has long been a great demand by the Omaha people for the line we will carry, so that we feel we will indeed be welcome.

Most people, at some time, have been served with some of the delicacies grown in sunny Italy. If it was genuine it undoubtedly left an impression as pleasant as that genial sunny country itself, because the Italian products sold all over the world today are the results of painstaking care in production, and they have the advantage of being grown on soil unequalled the world over. It is only in Italy and southern France, with their ideal climatic conditions and wonderful soil, combined with intensive agricultural methods, that these wonderfully delicate flavors are imparted to the fruits and vegetables.

Along with our complete line of macaroni and spaghetti, for which the Italian manufacturers are famed, we will carry a large stock of the rarer vegetable products, fish, relishes, olives, etc.

We will also carry a complete stock of the finest and most high grade olive oil on the market—the Antinotti Brand—especially grown and imported for table use; the Calbas Brand, noted for its wonderful medicinal properties.

As is well known Italy retains its pre-eminence in olive culture on account of the large deposit of calcareous soil in which the tree attains perfection, combined with the sea breezes toward which the plant shows a marked partiality.

The foremost horticulturists believe, after much research on this subject, that the narrow leaved varieties of the olive, such as are found in Italy today, are the descendants of the famed Licinian olive described by Pliny as that being held in highest esteem by his cotemporary Roman friends, and it is the fruit from this variety that produces the oil we are placing before you.

Table Delicacies of Superior Quality
 Antinotti Olive Oil. Olives (ripe and green). Artichokes—plain and in tomato sauce. Several Brands Imported Tomato Sauce. Italian Peeled Tomatoes. Tunny Fish in Olive Oil. Egg Plant Salad. Italian and Spanish Sweet Peppers. Macaroni (genuine imported). Spaghetti (imported, superior quality).
