CORN AT A CRITICAL STAGE Experts of The Twentieth Century Farmer Analyze the Present Situation of the Crop.

Concerning the condition of the corn crop, The Twentieth Century Farmer, the leading farm magazine of the west, has this

The present growing corn crop is now at its critical period. Large sections of the big corn-producing country are experiencing dry weather, a condition verging into crop damage. In such districts reiter by rain must come very soon or the crop will be shortened, and the extent of this shortening will depend on how soon it gets the needed moisture. Corn cannot be produced without rain or artificial moisture. At the present period of corn crop growth a big fain of two inches or more insures the crop for ten days or two weeks, no longer, and this depends entirely upon the kind of weather intervening. Very hot, windy weather soon takes up the moisture, then more is demanded to help mature the

The critical period for the corn plant is just approaching, the creation of the crop. the tasseling, the sending out of the ear, the process of fertilization, without which there can be no grain. This period demands the very best of conditions for strong. vigorous growth of stalk. The corn crop demand, in general terms, is a good, big general rain every ten days from new until the last of August . From the erratic conditions of the season up to this time there may be near at hand."

Cancht to the Act

Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to body, to assist nature

in the necessary physical changes of the system. Mother's Friend is composed of sils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and elastic, aids in the expanding of the skin and fiesh kee, who both attended Harvard Law fibres, and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant mothers. THE BRADFIELD OO., ATLANTA, GA.

This Is Not

But a Human Hair Root Showing Dandruff Germs at Work

that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR are a sure sign of destructive germs.

Wyeth's Sage and Sulphur Hair Remedy Kills the Dandruff Germ when applied to the hair, and prevents the curse of Baldness. It also restores faded or gray hair to its natural color and beauty. No matter how gray or how long it has been gray, it will restore it to its natural color and keep it soft, glossy and healthful. Don't experiment with old-fashioned hair dyes, but save and restore your hair by using Wyeth's Sage and Sulphur Hair Remedy.

Fritz Kreisler's four solos prove him a master of the violin

These four numbers exhibit well the marvelous versatility of this artist who has truly been proclaimed one of the few really great masters of the violin.

At the age of ten Kreisler won first prize at the Vienna Conservatory, and in his twelfth year astonished the professors at the Con-servatoire in Paris by winning the Prix de Rome, an unprecedented occurrence. As a boy prodigy he toured America, then returned to Germany to serve his time in the army. During those four years he abandoned violin practice entirely, but on his reappearance in 1899 his bow was as true and his technique as flawless as ever. Since then he has made six American tours, his present tour being literally
