CRAIN AND PRODUCE MARKET Bad Reports from Europe Cause Renewed Buying. LITTLE CORN OFFERED FOR SALE Wheat Opens Higher, Following Bigher Cables and Bullish Foreign News-Good Advance Chicago Sept. Dec. May "No. 2.

Was Later Registered.

OMAHA, Aug. 12, 1316.
Confirmation on the disasterous conditions in the French and German crop outlook gave renewed buying power, which close. Should foreign countries be forced to buy our wheat, trades are convinced of much higher value.

Very little corn is found for sale, while wheat advances and reports about the growing crop continue to be unfavorables. Wheat opened higher in accordance with higher cables and bullish foreign news. A good advance was registered, but selling on the builges caused a reaction from top values, the market closing with only a nominal advance.

The corn market acted in sympathy with wheat and ruled higher. Shorts were buyers on the crop reports of more damage by dry weather in the western part of the belt. Cash values were \$26,000 bu. against receipts last year of \$29,000 bu. and shipments were \$26,000 bu. and shipments were \$26,000 bu. and shipments of \$47,000 bu. of oats and wheat and flour equal to 101,000 bu.

Canadian Pacific Dividends Increase WEATHER IN THE GRAIN BELT and Aid Strength of Union and Prediction is for Continued Fatr Until Southern Pacific-Railway Prospects Hopeful. NEW YORK. Aug. 12.—The prominent place held today in the number of railroad shares dealt in, and the extent of the advance by Reading. Union Pacific and Southern Pacific was largely due to the wide surplus of the year's earnings over the dividend requirement shown by the wide surplus of the year's earnings over the dividend requirement shown by the two Harriman roads and by the Lehigh Valley, the traffic conditions on which are very similar to those on the Reading. The strength of the Pacifics was also aided by the indirect effect of the week's increase in the Canadian Pacific dividends. The contrast in the prosperous showing made by these reports to stockholders with the complaints heard from railroad officials of the onerous conditions for operating railroads, inspired a more hopeful view of railroads' prospects than has been held by the majority of the stock market. The preliminary estimates of the currency movements pointed to another strong bank return tomorrew. The arrival today of \$3,000,000 of imported gold will figure in the showing. The gain by the banks from subtreasily operations is less than last week, and there is a sharp decline in the volume of receipts by express from the interior, the balance of the movement remaining, however, largely in favor of New York.

The increase in bank cash for the week on all accounts is computed to amount to between \$5,000,000 and \$9,000,000. There has been nothing to indicate any important changes in the loan item this week, leaving the promise for another substantial addition to the surplus reserve. The unsyledy proportion to which the surplus has attained and the lack of influence it has, inducing bankers to bid more freely for mercantile paper, or to loan on time, is made a subject of comment that is not favorable in its influence on the stock market.

The strength in the grain markets was due more to reports of revived demand for Nashville. favorable in its influence on the stock market.

The strength in the grain markets was Rochester ...

The strength in the grain markets was Rochester ...

due more to reports of revived demand for export for wheat than to news of crop conditions.

Further weakness was shown by American Smelting, but the general market broke away from that influence. The proposition to reduce the output of copper is sioux City ...

supposed to threaten a corresponding reduction in the profitable activity of the Grand Rapids...
