CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Aug. 27.—Wheat ruled higher from the start and closed 16114c up. Corn borrowed strength from the wheat pit and finished 4646c higher, while oats on a moderate trade advanced and closed 4646c up. Provisions showed a strong tone and finished from 246224c higher, with pork leading the other products.

Reports of export sales from Chicago, although moderate in volume, controlled the wheat pit today and were the basis for a buillish market throughout the session. At the start prices advanced sharply and on the upturn shorts began buying. The export sales gave promise of larger shipments and traders listened willingly to reports that the continental and English markets would need much wheat later to improve the grade of the home crop. Northwest receipts were liberal and arrivals for the week at all grain centers while smaller than last week totalied much more than those of the corresponding week last year.

Estimates of enormous world's shipments and a notable increase in the visible supply for next week, were bearish statistics which were ignored. The close was strong all through the life with Santomber 115 and Prices on Board of Trade.

for next week, were bearish statistics which were ignored. The close was strong all through the list, with September 1½c up at \$1.00. The final quotations was ½c below the top price for the day. December closed 121½c to 1½c up at \$1.04% to \$1.04%. Corn prices advanced to ½5½c higher than yesterday's closing quotations. The cash demand was good and prices were ½5½c higher. No. 2 yellow sold at £5½c. The close was strong in all the futures deliveries, with September ½c up at £6. December closed at ½c up at 55½c.

Trading in oats was uninteresting. The close was firm all around, with September ¼c up at \$4½c. December closed at ½c higher at 35½c.

All provisions finished strong, with cork leading at an advance of from 1562°4½c. Lead closed from 5610c up and ribs from 2½57½c higher. Closing figures for the September product were: Port \$7.00, 174% on: lard \$12.07½, 10c higher, and ribs \$12.30, 55c up.

The leading futures ranged as follows:
