CANVASSERS MEET TODAY

State Board Will Be in Session with Entire Membership.

BARTON'S MIND NOT MADE UP

Inclined to Think Mayor Dahlgren Entitled to Certificate of Votes—May Send After Douglas Figures.

(From a Staff Correspondent.)

LINCOLN, Aug. 31.—(Special.)—When the State Canvassing board meets tomorrow morning it will have no set and agreed program to carry out.

It seems to me that the attorney general should be able to give an opinion that the board could follow. Yet I am not in favor of postponing action on the canvass for any considerable time.

Douglas county's abstract has not yet been returned. If it is not here by morning the board will call up the county clerk and find out what he intends to do.

The governor and attorney general will meet on more time tomorrow and Junkin and Barton will favor going ahead with the canvass. So it will be up to the state auditor.

Arthur Mullen, state oil inspector and attorney for the governor, has been busy on law books all day trying to discover some argument by which he can convince the board that delay is the proper and legal way out of the difficulty.

William Husenetter, chairman of the republican state committee, was here today and said he had not yet named his executive committee. Mr. Husenetter is anxious to talk to the various candidates and find out just what kind of a campaign they desire him to make before he takes any further steps.

Udike Elevator at Kearney Burns

Building Used for Storage Purposes by Kearney Flour Mills Destroyed—Loss Twelve Thousand.

KEARNEY, Neb., Aug. 31.—(Special Telegram.)—Fire broke out at 5 o'clock this evening in the elevator belonging to the Udike Grain company, but leased by the Kearney Flour Mills for grain storage purposes, and before any assistance could reach the scene the building, with all its contents, was completely destroyed.

The fire department was blocked for a minute by a long freight train standing at the crossing, and this with the good headway of the flames made it impossible to save anything. A south wind blew sparks over the business section of the city, and these were watched with vigilance. The loss will exceed \$12,000 and was only partially insured. The origin is not known.

NARROW ESCAPE FROM DEATH

Three Pawnee City Men Have Mixup with Live Wire that Nearly Ends Fatally.

PAWNEE CITY, Neb., Aug. 31.—(Special.)—Monday evening about 8:30 Dallas Shams met with an accident which nearly resulted fatally and his father and brother, Presley, were severely shocked, by coming in contact with a live electric wire. They were catching chickens and had an extra wire attached to the light socket in the barn. The switch, which was defective, had turned off the light but not the current, which shot through the boy with full force, throwing him to the ground and bounding him around as if he were rubber. Mr. Shams ran to him at once and attempted to lift him from the ground, but was himself prostrated. Presley took hold of Dallas' head and tried to lift him up and he too was thrown to the ground. Knowing that something must be done quickly or the boy would be killed, Mr. Shams ran to the side of the barn where the wire came through, braced himself, took hold of the wire with both hands and threw his entire weight against it, breaking the connection.

ROCK ISLAND TRAIN WRECK

Passenger No. 7 Thrown from Truck Near Jansen, But No Fatalities Result.

FAIRBURY, Neb., Aug. 31.—(Special.)—Rock Island train No. 7 was wrecked at Jansen, a little station five miles north-east of this city, at 1 o'clock this morning. The wreck was caused by the trailer fire coming off the engine, derailing five cars. The passengers were badly shaken up and bruised and an unidentified woman was injured about the back and shoulder but was able to continue her journey on the train that was made up here this morning. Immediately after the accident a rescue relief train was made up here and sent to Jansen and took up the stranded passengers and took up No. 7 route from there. The train was in charge of Conductor Bishop and Engineer Armagost and was going about forty-five miles an hour at the time of the accident. No blame is attached to the train crew. A force of laborers have been building a track around the wreck and traffic has been resumed. The wrecker is at present on the Colorado division and it will probably be several days before the wreck is cleared up.

MISTAKE MADE IN COUNTY

BROKEN BOW, Neb., Aug. 31.—(Special Telegram.)—Upon making a second recount of the Dahlgren-Shallenberger vote in Custer county, Shallenberger is found to have gained only 14 votes instead of 18. The mistake was due to an oversight in the tally. The vote now stands: Shallenberger, 342; Dahlgren, 228. On the Taylor-Dean recount there is a loss of one vote.

Local advocates of the cause declare there has been a decided increase of favorable sentiment in Iowa since one year ago.

WOODMEN PICNIC AT MANAWA

(Continued from First Page.)

and the generally soldier-like appearance of the company.

Large Numbers Initiated.

For the true Woodmen the largest part of the extraordinarily large day was the initiation, which was held in the park after supper. For this occasion some thousand innocents had been mustered and until a late hour the night air was rent with the screams of the initiates as they became more familiar with the inner secrets of the order. Just preceding the initiation proper, John C. Root, sovereign commander of the order, and John T. Yates, sovereign clerk, addressed the Woodmen.

Yesterday's picnic and sports program was held in lieu of an encampment which had been planned to occupy the entire week, but which had to be given up. It was a general outing for all the camps comprised in Jurisdiction A of the order, which includes the states of Nebraska, Iowa, Minnesota and the Dakotas. The immense crowd which was present at Manawa yesterday, however, was mostly composed of Omaha and Council Bluffs people and people from the smaller towns in Iowa and Nebraska.

LOVELAND GOES TO TOPEKA

Exchange Pulpits with Rev. F. M. Lynch of that City—Change Takes Place Soon.

Rev. Frank L. Loveland, who has been pastor of the First Methodist church for five years, has agreed to accept a call to the church of Topeka, the largest Methodist church in Kansas and his place in Omaha will be taken by Rev. F. M. Lynch, who is in the Topeka church now.

This announcement was made by Bishop J. L. Nielson Tuesday, and when Bishop Nielson goes to the North Nebraska conference, September 14, the change will be definitely made. Rev. Mr. Lynch has also consented to the transfer since he has been in the same church for five years and desires a new field. Before going to Topeka he was in the First Methodist church of Wichita for six years and came originally from West Virginia, where he had pastored in Wheeling and Grafton.

Bishop Nielson is now on his way to Marinette, Wis., where he will attend the North Swedish conference, from there he goes to the Norwegian Danish conference at Chicago and will return to Fullerton from that meeting.

Dr. Loveland has been one of the most popular preachers in Omaha, and a request to be released was met with the strongest objections from his congregation. The church organization formally refused to accept his resignation, but he is anxious to try a new field, and Dr. Lynch also wants a change, the Kansas and Nebraska conferences have agreed to trade.

CHEYENNE MAYOR SLIGHTED

Ignored During Roosevelt Day Festivities—Now Ready to Get Even.

CHEYENNE, Wyo., Aug. 31.—(Special.)—The discovery was made yesterday that Mayor Cook and city officials had been completely ignored, or forgotten, by the committee having charge of the arrangements for Colonel Roosevelt's reception on his arrival in Cheyenne Saturday. Cook was naturally worked up over the slight, but he attended the dinner given to the colonel at Senator Warren's ranch Sunday night, and also the dinner given by the colonel by Governor Brooks Saturday night. Cook says the slight in not inviting the city officials to participate was intended and he vows vengeance upon the person responsible. He made no reference to the matter while the colonel was in the city, but made no effort to conceal his displeasure since the colonel's departure. He blames only one person.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people realize. It can withstand hunger but not dyspepsia. The confided dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

You'll Find Your Opportunity in the New West

THE WESTERN LAND-PRODUCTS EXHIBIT

JAN. 18TH TO 28TH, 1911

Young Man: Be A Producer-- It Pays!

And it means independence and wealth; it means a new life with broader aims and perfect contentment.

Why good, strong, young men will stay in the East and rent land when the same money will buy good land in the West, or why young men will fight for an attempt to exist on a salary that will just keep body and soul together when there are thousands of acres in the west that only need brains and brawn to make them produce wonderful riches is more than the average elderly man understands.

Young men have gone West with absolutely nothing but their clothes and a big appetite and in five years were buying pianos and touring cars.

If You Are Interested in Bettering Your Condition Attend The Western Land-Product Exhibit at Omaha January 18 to 28, 1911

It will show you how you can get good land in the West and there will be men who will be anxious and capable of giving you all the information you could possibly ask.

Here Are a Few Facts

The Boise Commercial Club recently made inquiries among farmers and fruit growers concerning their most successful crops. Here are two of the replies:

Gentlemen: Replying to your inquiry concerning my prize crops for the season of 1905 and 1906, would say that I bought 80 acres of land 4 miles from Boise in 1892, paying therefor \$30.00 per acre. I set 40 acres of the same to prunes. Our 1905 crop grossed us \$7,712.33, and the 1906 crop grossed us \$7,529.98.

Gentlemen: Replying to your inquiry concerning my most successful crop, and original cost of land, would say that I bought 10 acres one and one-half miles from Boise in 1890, paying therefor \$50.00 per acre. In 1895 I raised 20,000 boxes of strawberries on 3 acres of ground which I sold at an average price of 8 cents per box or about \$168 per acre. Believing this covers the point on which you desired information, I remain,

Yours truly, A. V. EICHELBERGER.

Yours truly, S. F. RUSSELL.

The Omaha Bee and The Twentieth Century Farmer

Wish to convince the people about the wonderful possibilities of the west and they are backing up the Western Land-Products Exhibit because they realize that an exhibit of this kind will show people more of the real truth about this wonderful section than any amount of pure talk. And their real interest in the upbuilding of the empire is due to the fact that they realize that it is upon the West that Omaha must depend for its future progress and greatness.
