HOME OF THE WEBER CLUB - OGDEN, UTAH

The Weber Club is an association of Gentlemen; a club uniting the social and commercial phases of business life in Ogden; a most agreeable union of the more important things that concern homeseekers, investors, capitalists and a safe source of information for the man who is seeking land whereon to settle and from which he expects to reap a competence. The Weber Club maintains a paid secretary whose duty it is to answer all inquiries concerning the City of Ogden or Weber county. It is to our interest that these questions be answered truthfully, honestly and with particular

reference to the needs of the man who asks. We want you to write to us. The bankers of our membership will answer any financial question touching this section; answer it carefully, conservatively. Property owners will answer such questions as they know most about. Thus for every inquirer there is exact, expert information. No "boom" talk. Just the wise, safe counsel of men who are doing well themselves in the inter-mountain West and would like to see you do the same. Write today. Write right now. Address,

THE SECRETARY  
The Weber Club  
OGDEN - UTAH

## Ogden is Rich Enough to Make You Rich

A former president of the United States said: "INVEST YOUR SAVINGS IN THE REAL ESTATE OF, IN OR NEAR A SMALL BUT GROWING TOWN; THERE IS NO SAVINGS BANK SURER, SAFER THAN THAT." Ogden, Utah, is a city of 40,000 happy, prosperous, comfortable people. It is the chief wholesale, jobbing and manufacturing city of a vast extent of rich, fertile and resourceful territory. OGDEN IS

BOUND TO GROW. An investment of any sort made in this city NOW will yield and grow surprisingly. There are openings for manufacturing enterprises of various sorts; there are places to put idle capital; to set it to work. There are real estate opportunities; and the sober, industrious artisan possessing a fair skill at his trade is never out of work. Ogden wants you to come. But YOU NEED OGDEN just as much as Ogden needs

YOU. For the FARMER there is this splendid fact to think about; less than one-half of the wondrously fertile land about Ogden is NOW under cultivation with one of the richest CASH markets in the entire West within driving distance of his farm. The SPLENDID ROADS of the section are quite a good deal more than enough to invite the thinking man to come here and settle. OGDEN CANYON is one of the most splendid resorts of

America; a wonder of the world; the strata cast up by vast pre-historic upheaval, presents the changes of a kaleidoscope. Ogden is the Gateway to the Inter-mountain West. You MUST come to Ogden if you come West. STOP and visit Ogden Canyon over the finest mountain road in America. Write the secretary of the Weber Club—a paid official—for information which will be of utmost value to you. Write today. NOW.

This city of Ogden, Utah, the chief Gateway to the New West, is one of the wealthiest cities in this country. Perhaps our conservatism has lost for us something of growth, but it has gained much of stability. There is little of the "boom spirit" about Ogden, Utah. The merchants of the city are live, progressive business men, with ample stocks of goods and ample capital and credit to carry them through their seasons. The manufacturing concerns pay their pay rolls promptly; market and garden produce procures the highest cash prices and the community is a comfortable, prosperous city, with little of fluster, hurry or "boom" about it. We are glad to have new capital, however. Our bank clearings mount into the millions of dollars per month. The manufacturing and railroad pay rolls, which mean fresh, "outside money," mounts into the hundreds of thousands. And the city is thus on a safe, secure, stable foundation which invites the most careful scrutiny on the part of home-seeker, investor, capitalist or farmer. Everything is here to make a great and growing city; one of the largest in this entire section, being made richer every day by the great number of irrigation enterprises that are being brought to a successful conclusion in the territory all about this city. We invite you to come. The Weber club employs a paid secretary whose business it is to answer your questions in an honest, sincere and truthful manner. And while Ogden has none of the so-called "spirit," we can and will answer the honest, straightforward inquiries of a business man in a businesslike manner. Write today for FREE information on this city. Tell us what you wish to do. We'll find a place for you in one of the most beautiful, prosperous and comfortable cities in all the vast New West.

The farmer who comes to Weber county, Utah, of which Ogden is the largest city, will find a climate not excelled for mildness, and not surpassed by any in the world. The nights, always cool and most agreeable, unite with the mild heat of the day to make the most luscious fruits of every description. One of the finest orchards in the United States is within driving distance of Ogden, developed by an eastern man from the raw land in five years and said to be one of the most profitable orcharding ventures in the entire west; a land of the best known orcharding production. Berries and small fruits do exceptionally well. Dairying is profitable, while the grains and grasses flourish most splendidly. Poultry finds a ready, QUICK, CASH market. And transportation facilities for the farmer who wishes to do things on a large scale are not equalled by any other city in the west. In every direction the trunk and branch lines of railroads penetrate into the rich mining districts, where CASH FOR PRODUCE is always available. One farmer here has utilized his irrigation ditch to give him ice for summer, electric lighting for his home and the homes of his neighbors, as well as for his barn and dairy. With the power he has developed from it he pumps clear, healthful water from a deep well, and from the same power source much of the work on his farm is done. Less than 40 per cent of the land is under productive cultivation. There is room in plenty for hundreds of sober, industrious farmers, with enough capital to start them on their way to ease and competence. The Weber club of Ogden employs a paid secretary, whose business it is to answer FREE OF ANY SORT OF OBLIGATION any question that may be asked concerning this rich and productive country. Write today for the sort of information you wish.

There is a golden opportunity for an experienced promoter to use his talents in the financing and building of a HIGH LINE IRRIGATION CANAL around the City of Ogden. This high line canal would reclaim several thousand acres of land, all of which would be most valuable as fruit farms. The Weber Club employs a paid secretary who will be glad to answer any question any promoter, experienced in the financing of such enterprises, may ask. This may be YOUR golden opportunity. Write for FULL, FREE information today. Do not wait. Any letter written in good faith will be answered as well as we know how; sincerely, honestly, earnestly and with utmost candor and truth. Write today.

Any investment made in Ogden city property at this time will yield the investor the rich reward of an increase year after year. Having no "boom" spirit and possessing values founded on the real, stable basis of legitimate demand, the values of Ogden are such as to offer tempting rewards to the man with a little money and the nerve to back his judgment after an honest review of the actual conditions. The bank clearings, postoffice receipts, freight and express shipments—all facts most easily learned from sources beyond question—will tell the story of the possible, probable and assured development of this city. The transportation facilities are not surpassed in this country and but rarely equalled in the west. The steady growth of the country about us means larger factories, workshops and mills. This in turn means more workmen and greater and constantly increasing population. These make for realty values, which will assuredly go up with the growth of the city; a growth which cannot be gainsaid. There is a strong demand for new and imposing buildings in the business district, now covering an area of many blocks because of the lack of sky-scrapers. There is a demand for homes; smaller dwelling houses of a character to meet the needs of families in modest or moderate circumstances. The Weber club, an association of the best business men of the city, are anxious to enter into correspondence with men of capital looking for a chance to make safe, sound and sure investments. Letters from such men will be carefully, honestly and conservatively answered. We have no so-called "spirit." Naturally we are proud of our town; glad we are here, satisfied with what we are doing and anxious to share our good fortune. Write to the secretary of the Weber club today. It will cost nothing; may benefit both of us.

Money brings as high as 8 per cent net in the west and rarely lower than 6 per cent net. In any event this is twice as much as the best of sound eastern investments, and certainly twice as much as the eastern savings banks pay to their depositors. Here is a method of making certain of rich returns on any investment you may make, large or small. The sum of money is immaterial. No matter how small it is; no matter how large, there is room for it on the safest, soundest security in all the country. Write today about this; ask about it. You can double your income on any sum of money you have and do it just as safely; just as securely as you are now doing in the safest, surest manner now open to you. The Weber club employs a paid secretary to look after this for you. Write today and avail yourself of his services. He is here for your convenience. When you come west for your vacation; when you come west on business, when you come west for investment, when you come west FOR ANY PURPOSE, do not fail to stop at Ogden and see the famous Ogden Canyon, the most remarkable natural phenomena in America. It is one of the natural wonders of the continent and will well repay a visit no matter how busy you may be. Mountain trout caught from the streams before your very eyes are quickly prepared and brought to the table steaming in all their finny freshness and natural savoriness. You cannot afford to miss this wonderful sight. The Weber club employs a paid secretary to tell you of this. He will tell of other remarkable things to see in Utah; really interesting trips to take. Write to him right now. Write today.
