

RAISES FISH FOR MARKET

Trout Ranch Operated on Same Plans as Chicken Ranch.

FEED UPON GROUND MEAT

Simply Select the Fish as it Swims About in the Pool and the Cook Will Do All the Rest.

OGDEN, Sept. 3.—(Special Correspondence.)—A million mountain trout for Ogden tables within the next twelve months. Fair to look upon and so toothsome that one thinks that nothing can equal, let alone excel, them for flavor. So graceful do they appear as they leap above the surface of the pool, their sides shining in the sunlight, the drops of water scattered about like pearls, that they tempt one to use the taboos description and call them speckles. We will not do so, and yet one who visits the hatcheries of the Ogden Valley Trout and Trout company near Huntsville, Utah, will feel that any kind of phrase will be justified for use in describing the fish which are raised there.

Ogden is just at the foot of the western slope of the Wasatch mountains and trout brooks flow from their sides filled with fish. One passing up any of the canyons will find fishers busy with rod and line, casting the fly and landing the fish. But these do not supply the demand for trout and the Ogden Valley company has a plant in full operation where they supply the fresh mountain trout to those who wish to purchase them for the table.

In the hatchery there are 200,000 baby trout now just three weeks old, while in the pools are over 700,000 more. The larger trout are of all ages, some three months, some six, some a year and some a year and a half. Those which are a year old or more are ready for the market and they sell at from ten to twenty cents each, depending not on the number purchased, but upon the size of the fish purchased.

Cherries Netted \$1,250 Per Acre

—Photo. by W. O. Paisley.

A single crop from a single tree bringing the price of an acre of high-priced eastern land sounds like a tale from fairyland—and yet such yields are not exceptional in the irrigated orchards of northern Utah. Last year the crop from the tree shown above weighed 1,180 pounds, and sold to the packers for 8 cents per pound. This

brought the sum of \$94.40 to W. F. Garrison of Roy, Utah, who had seven acres in fruit, which brought him the sum of \$3,300. This year nearly all of the fifteen-acre tract which he owns, and which is known as the Sunny Side Orchard, will reach the bearing age. In 1909 his five acres of apple trees yielded 2,000 bushels of selected fruit.

The fish are fed on ground meat and when a customer visits the hatcheries they are fed, so that he may select the variety of fish he wishes to take home for dinner. Parly Stoker is the fourteen-year-old lad who, while he dips out the fish you selected from the concrete basin, he

will tell how the fish are raised for market, how the water supply is controlled and how by careful work the company has been able to build up a plant which will supply the city and other cities too, with mountain trout at all seasons of the year. The methods employed are similar to those of the state hatcheries and those of the United States government, but here they go further by keeping the fish in concrete pools and there fattening them for the market. Just as one would fatten poultry or live stock, instead of turning the young fish loose in order to stock open water.

There is no cafe at the hatcheries, but a mile away at Huntsville there is a home-like restaurant kept by Carl E. Johnson, where one can have his purchases cooked to order. If you will tell him that you live at Omaha he will at once produce the last number of The Omaha Daily Bee and The Twentieth Century Farmer and tell you how he visits "the market town, twice each year, taking a train load of his sheep to the South Omaha market. If he will send a tank of the mountain trout with his next shipment he will receive the hearty thanks of all in Nebraska who are able to obtain one of the delicate morsels.

Semi-Arid Farm Lands Attracting Much Attention

Farmers from Other Semi-Arid Sections Are Interested in Utah.

OGDEN, Utah, Sept. 3.—(Special Correspondence.)—Utah, like most of the western states, is interested in the settlement of a portion of her territory by those who will take up homesteads under the provisions of the special "semi-arid" land legislation. At present, a party of Kansas farmers is reported as being en route to this state to take up land under the Smoot act and it is expected they will arrive early next week. They are persons who have engaged in dry farming for a number of years, and it is expected that they will be a valuable asset in Utah's agricultural field.

In a little over one year, since June 1, 1909, a total of 725 entries, aggregating over 216,000 acres of semi-arid dry farm land, have been filed at the United States land office, according to the records on file there. This land is included in the enlarged homestead allotment, which gives the ground to settlers under much easier conditions than in the past. Under the new act, continued residence upon the land is not necessary, and the settler is allowed five years in which to get his ground under cultivation.

It is understood that the east is looking with favor upon dry farming in Utah, because of the easy conditions attendant upon securing title to the land, and an influx of settlers during the next few months would not be at all surprising.

UTAH CHERRIES BEAT CALIFORNIA ON EASTERN MARKETS

Last Car Shipped from Ogden Brings \$100 More Than the Best Car from Pacific Coast.

OGDEN, Utah, Sept. 3.—(Special Correspondence.)—A communication has been received from Manager John Derring of the Pioneer Fruit company of California, relative to the recent shipment of cherries which will be of interest to fruit growers and Ogden boosters in general.

"The last car of cherries shipped from Utah, although it contained nearly 60 boxes of Napoleons that averaged only 50 cents a box, the Black Windsors, Black Republicans and some Blings brought the gross receipts up to \$1,850.

"This sum beats a California car from California's best district by \$100, and is nearly double the amount received for a car from Idaho at the same market on the same date.

"These results show that our shipments of cherries that will carry will sell at prices equal to the best in the country. We were also complimented on the pack, especially that of C. F. Ferris."

SUGAR BEET PROSPECTS GOOD IN INTER-MOUNTAIN REGION

Reports from Utah Indicate a Splendid Crop Even with a Dry Season.

OGDEN, Utah, Sept. 3.—(Special Correspondence.)—While the late planting of sugar beets and the excessively dry season have a tendency to retard somewhat the sugar beet crop of this year there is no reason for anything but optimistic feeling for the sugar output.

Nearly the same acreage as in former years has been planted, but the tonnage is not expected to be so large as heretofore. The percentage of saccharine that the beets of this year will contain cannot be ascertained until the beets are far enough along to give them a test, but it is thought by beet raisers and those of the sugar company who have expressed themselves, that in all likelihood the percentage of sugar will be a little above the average. This being true the sugar output will be as great as in former years.

It is admitted by all that there is a scarcity of water all over the country this year, but Weber county is far more fortunate than other districts.

Find YOUR fortune at Ogden

The John Jacob Astor fortune; the mighty rent roll of the Trinity Corporation, the wealth of the Vanderbilts; and the towering piles of the Marshall Field estate, were not made in trade—they were made because the founders of these huge aggregations of wealth had the foresight to invest in what was then small, but growing, towns. Your savings of \$1,000 will pay you \$30 per year, the way YOU have it invested. Let us show you where to place

it and how. We will GUARANTEE THAT YOU WILL MAKE ONE HUNDRED DOLLARS EVERY YEAR from the SAME AMOUNT OF CASH. Last month we made more transfers than any other investment house in Oregon. THIS IS THE LARGEST REALTY AND INVESTMENT BUSINESS IN THIS CITY. Write for references. We'll give them. And we will give you, ABSOLUTELY FREE, information of value if you will ask for it.

We have for sale 62 lots less than a mile from the business center of Ogden, Utah, the western terminus of the Union Pacific railway. Ogden is a railway center; the same sort of a town in the West that Omaha, Kansas City and Minneapolis are in the East. It has a population of 30,000 people; all of them prosperous. It is the center of a great agricultural valley; ONLY HALF DEVELOPED. These lots in a similar location in Omaha would be worth from \$1,500.00 to \$2,000.00 each. Years ago, when Omaha was a town, young, virile, growing, there were lots for sale, but not for so cheap a price as these which we have to offer. In OUR case the owner wants to invest the money in another direction. And we had the sale of ONE-HALF OF THIS PROPERTY. We have sold all but 62 of these lots to PEOPLE WHO LIVE IN OGDEN AND WHO KNOW WHAT THEY ARE BUYING. The local market has consumed all that it can. NOW IT IS UP TO YOU; THIS IS YOUR OPPORTUNITY.

City Real Property. Read This

Grasp it. We can make any sort of terms you want. We have but one price for them. That price is \$100 each. And remember that there is not another growing town in all of the Inter-Mountain West where you can duplicate this bargain in realty values. THE OWNER WANTS THE MONEY TO INVEST IN OTHER OGDEN PROPERTY. IF HE DID NOT YOU COULDN'T BUY THESE LOTS AT ANY PRICE. And because of the peculiar conditions you have at your elbow RIGHT THIS MINUTE THE SAME OPPORTUNITY to do in a SMALL WAY what the Astors, the Vanderbilts and Marshall Field did in a BIG WAY. YOUR LITTLE SUM OF MONEY WILL BRING TO YOU THE SAME PROPORTIONATE REWARD that their big sums of money did for them. Take up your pen; write to us for information. We will give you the names of Ogden buyers of this property; men who live here and who know what the increasing value of Ogden real estate will do for them. We will give you BANK REFERENCES. OUR GUARANTEE: Buy these lots; one, two or a half dozen. Hold them five years; and if they have not increased in value at the rate of \$10 per year, FOR EACH AND EVERY YEAR you have held them, WE WILL BUY THEM BACK AT A PRICE THAT WILL NET YOU MORE THAN THE EASTERN SAVINGS BANK IS PAYING FOR YOUR SAVINGS. Write today for full and complete information about this. IT'S ABSOLUTELY FREE.

The opportunity for the investment of money is the least understood of all the ways of making YOUR MONEY WORK FOR YOU. In the inter-mountain West there are hundreds of opportunities to make a SMALL sum of money produce BIG results. Improvements of every character are constantly going on. New orchards are being set out; new fields planted; new houses being built. The railroads are constructing lines from one place to another; tearing up the old tracks to lay newer and better ones; taking down the old freight sheds to put up others more commodious. ALL OF THIS ACTIVITY TAKES MONEY; lots of it. The population of the country is sparse; those who have come are coming to invest their funds in lands, improvements, city lots and buildings and for every man with a little money THERE ARE SCORES OF OPPORTUNITIES FOR HIM TO DOUBLE IT EVERY DAY. You can do this. You can do it as well as the next.

We Guarantee 7% Net on Any Sum of Money; Large or Small.

You certainly cannot be sure of any such returns in a mid-west city; you are not even offered such returns for your money by persons of assured responsibility in directions of absolute safety. WE GUARANTEE SEVEN PER CENT NET ON YOUR MONEY AND NOT MERELY INVEST IT FOR YOU, or lend it for you, but we, ourselves, stand back of the investment AND GUARANTEE THAT YOU WILL MAKE SEVEN PER CENT NET. You don't know of anyone else who will do so well as this. And you must not take our word for our responsibility. WE WANT YOU TO WRITE US—A POST CARD WILL DO—AND JUST SAY YOU ARE INTERESTED. We will give you references; bankers who will tell you that we are absolutely safe; that our integrity is not questioned by those who know us. Write for the letter. Ask us to make good. Write your own contract. Satisfy yourself in any way you please that we are ABSOLUTELY SAFE. Booklets, plans, information, ALL FREE. Write today—NOW.

All We Want is an opportunity to show you what we have here at Ogden; in the marvelously rich Ogden valley; to tell you of the rich returns that await the man who will work; stay sober, and use a little common sense. WATCH THE MAN NEXT TO YOU; do as he is doing;

he is making good, you will do the same. An inter-mountain orchard is like a piece of machinery; keep it in order and it does all the work for you. It is easier; pleasanter living. YOU MUST WRITE TO US TODAY. ASK US about the opportunities here FOR YOU. LETTERS, PLATS, PICTURES ARE ALL ABSOLUTELY FREE.

GARRISON & GARRISON, Investments

OGDEN, (The Gate City) UTAH

OUR CHANCE IS AT OGDEN, UTAH'S NEXT LARGEST CITY

Ogden is the second largest city in the State of Utah; a city of unlimited resources; a jobbing city; a manufacturing city; 20,000 people live here and enjoy it. There is no "breaking out" of raw opportunities; they are already here; waiting FOR YOU TO TAKE ADVANTAGE OF THEM.

The business men of the city are clean, live, progressive

The surroundings are most beautiful; hill, and valley, and canyon; green fields and orchards, returning bountiful profit to those who till them with care.

The smoke of many factories tell of hundreds of employed hands. And the scream of locomotives tell of railroads, many of them, busy distributing these goods and these products to the

hundreds of small towns, villages, hamlets, of which Ogden is the metropolis and to whose opportunities this city is the GATE.

I WILL GUARANTEE 8% NET I want you to write to me

tell me what you want to do; tell me of your present position; let me show you how to better yourself. And whether you have much money or little; whether you work with your hands or with your brains; whether you farm or whether you have some other activity let me show you WHAT OGDEN, THE GATE CITY TO THE INTER-MOUNTAIN WEST can do for YOU. You are under no obligations; my information is absolutely FREE.

—Photo. by W. O. Paisley. CITY HALL, OGDEN, UTAH—OGDEN IS RICH IN HER PARKS.

You are coming to Utah!

If you are coming to Utah—and you WILL if you know where the BEST place is, then you ought; YOU'VE JUST GOT to know about us.

You will go into the orcharding business; an income of \$3,000 per year is not unusual from a 5-acre orchard; WHEN THAT ORCHARD IS PROPERLY CARED FOR.

Trees that we have sold; trees that have come from this nursery; trees that we have grown into commercial orcharding stock HAVE DONE THAT TIME AND TIME AGAIN.

The BEST orchards of Utah, New Mexico, Colorado, Idaho and other Western States have been planted from stock supplied by us.

This is the reason: We BEGIN the tree in the soil, in the climate, subject to the conditions under which that tree must thrive. Altitude, density of air pressure, water and the chemical analysis of the soil are the big points we take under advisement when we sell an orchard; the trees for an orchard, for you MUST REMEMBER:

We are not in the real estate business—and have no land to sell

But if you come to Idaho, to Utah, to Colorado, to New Mexico, we want you to become acquainted with us. Our trees cost more, but they bear more, live longer, thrive better and minimum of "cutting out" of dead and useless stock goes on in the orchards we sell.

This is our proposition: Write us a letter, a postal; ask us about the country; ask us about your problem; ask us where are the best places to settle. We are absolutely disinterested, but if you are a peach grower we will tell you where the peach land is; if apples, we'll tell you about that; if grapes, we can tell you that, too.

And This Information Is Absolutely Free. No Booklets, No Circulars, but Information Thought Out to Fit Your Case.

You will write, won't you?

Today?
Of course!
