CHIEF M'HALE BACK FROM TRIP

Willie Routs Unable to Appear in Assenti Case Against Stefon' Stefon - Hibernians in Convention.

A fine new metropolitan steamer, has been added to South Omahu's fire equipment, the first engine ever employed in the South Omaka fire department. The new engine arrived yesterday and was hauled to station No. 1 at Twentyfifth and L streets during the afternoon. There it was the object of much admiration on the part of the firemen and of numerous citizens who happened to pass The engine is the around size constructed for metropolitan service and is thought to have capacity for any ordinary fire in South Omaha. It will be used in the bustness section exclusively unless there should be a second call in any particular case. The weight of the machine is 8,500 pounds. The fire department will have to be supplied with a new team and about three additional firemen.

Fire Chief John McRais will give the new engine a thorough test today, after which it will be necessary for the city council to accept the apparatus and place it in commission.

Chief John McKale has just returned from a trip to Syracuse, N. Y., where he attended the national convention of fire chiefs. He said there were over 500 chiefs present and the convention was one of the best in the histery of the organization. McKale was elected first vice presi dent of the Nebraska district.

Willie Routt Still III. Willie Routt, who was injured, as he said, in an assault committed upon him by Stefon change, is still confined to his bed at the home of his father, 2417 K street. After the assault the boy was found unconscious in the elevator space, from which it was supposed he had been injured there by a fall. When he recovered consciousness he said into the elevator space as a blind. Stefon Stefon has not been tried for the assault as yet for the boy is unable to appear against him.
