

DISTRICT VENIREMEN DRAWN

Commissioner Tilden and Clerk Hoyt Draw Names.

GRAND JURY TO REPORT FIRST

Veniremen of Grand Jury Will Report September 27, Petit Jury Reports October 10—List is Announced.

The drawings of veniremen for the September term of the United States district court for the Omaha division of the district of Nebraska were made late Friday afternoon by George Tilden, United States jury commissioner, and R. C. Hoyt, United States district clerk.

The grand jury veniremen are ordered to report on September 27 at 2 p. m. and the petit veniremen on October 10 at 10 a. m. The names of those drawn follow:

Grand Jury—Lester Anderson, Fullerton, E. L. Best, Battle Creek; James Congrove, Burwell; T. Milton Clark, Bloomfield; Fred Datta, Scribner; C. O. Dean, Valley; Allen P. Ely, Omaha; Percy D. Glover, Constock; J. Rex Henry, Fremont; E. E. Howell, Omaha; C. E. Hutton, Pierce; Frank Higley, Dorseley; Leopold Hershey; Ed Light, Shelton; Shell Meade, Erickson; T. B. Pawling, Hooper; John Riggs, Rushville; Quincy H. Stevens, Allen; Joseph E. White, Central City; John Wypokki, Farwell; George M. Young, Wellfleet; A. C. Hubbard, Ewing; James Alloway, Homer; Jacob L. Becker, Kearney; William Hahn, Clarkson; William Mayer, Tekamah; George McGinley, Keystone; Luther Smith, Winnebago; Gus A. Wallir, Genoa.

Petit Jury—N. E. Acker, South Omaha; Thomas Adams, Fremont; Thomas F. Hall, Springfield; H. Bauman, West Point; W. W. Bartlett, Blair; William J. Burgess, Omaha; Charles Beckman, Blair; Henry Bankman, Petersburg; William H. Burley, Hartington; William F. Byrne, Omaha; James V. Schiebohn, Clarkson; C. F. Cunningham, Omaha; Ed Dick, Des Moines; Hy Erickson, Craig; L. C. Fauble, Waverly; M. C. Fitzgerald, Fullerton; Marion Frisch, Springfield; William H. Fowler, Springfield; Andrew N. Fricke, Papillion; Clinton C. Gray, Columbus; J. F. Hanson, Fremont; W. D. Holbrook, Ames; Ernest Kellogg, Fullerton; M. K. Kall, Oakland; William A. Krieger, Washington; A. E. Kemper, North Bend; Joseph Kutenback, Lindsay; J. H. Langdon, Gretna; Thomas Mayberry, Pender; D. M. Neiswanger, Dakota City; Richard Olmer, Humphrey; Emil Peter, Clarkson; Carl Rounner, Millard; N. N. Skoug, Genoa; E. W. Stauffer, Lyons; Lucien Stephens, Omaha; C. F. Todendorf, Columbus; John W. Ustiek, Thurston; A. H. Vosburg, Omaha; John Weber, sr., Herman; F. D. Wead, Omaha; Percy McD. Wheeler, South Omaha; F. E. White, Omaha; C. W. White, Omaha; Louis Foltz, Clarkson.

Oddly Dressed Squaws Seen

One Garbed in Primitive Blanket, the Other Has On Gown from Modiste.

On Sixteenth street early this morning there was a striking mixture of the old and the new—a demonstration of Indian evolution so unique that much attention was attracted. Two Indian women from Pender were out for a morning stroll. One of them carried a papoose strapped across her back, after the fashion of primitive days. The other wheeled a baby along—note that one is "baby," the other "pappoose"—in a fashionable perambulator. One was garbed in red blanket and other equipment of like nature. The other wore a tulle gown that gave evidence of having seen the handwork of the modiste.

Dairymen Boost New Concern

Small Dealers Adopt Resolution to Give Douglas County Creamery Support.

In a meeting at Washington hall Friday night a number of small dairy proprietors voted a resolution to support the Douglas County Creamery company which it was declared would be established in this city soon. The purpose of the new creamery is set forth as that of supplying the retail creameries with milk, so that none shall have the experience of running out of their supply. Heretofore a number of the smaller concerns have at times purchased milk from the Alameda Creamery company.

Creamery Butter Drops One Cent

Decline Occurs When Omaha Exchange Gets First Quotations—Eggs Hold Price.

Creamery butter dropped 1 cent when the Omaha Produce exchange received its first quotations from Chicago Saturday morning. The quoted price is now 29 cents. Eggs were stationary at 11 cents. The early meetings of the exchange have been well attended and considerable business is being transacted between members. Conversation like this can be heard on the floor of the exchange, which is located in the Fidelity and Casualty building: "Fred, better sell me that car of butter." "No. Can't see it." "Well, you see butter is a cent off and I think it will go lower. I believe the man I'm buying it for will be a loser." "If you think that, then you're a bum agent." "Got to look after all my friends, you know. Want to do you a favor. Friend of mine as well as he is." "I've generally noticed," replied Fred, dryly, "that your favors cost me a quarter or a half a point each time."

Close View of Dynamite Explosion in Quarry

A picture taken of a recent battery shot made at the National Stone quarry at Louisville, Neb., recently has caused no little comment because of the danger incident to taking such a picture and the clear manner in which the detail is brought out. This picture was taken by Thomas J. Sullivan, superintendent at the quarry and the shot was made under the direction of Oscar Kimblom, the dynamite expert.

REMARKABLE PHOTOGRAPH OF EFFECT OF HUGE BLAST OF DYNAMITE IN LOUISVILLE STONE QUARRY.

In making the shot shown in the photograph about 1,200 pounds of dynamite was used. The ledge which is being disputed by the shot is from eighteen to twenty-four feet in height and the dynamite is loaded into holes drilled twelve feet back from the face of the ledge and eight feet apart. These extend for a distance of about 250 feet along the ledge, twenty-six holes in all, containing about thirty-five or forty pounds of dynamite each.

It is estimated that about 6,000 tons of rock was thrown down by this shot, enough rock to load 100 cars, or about two good sized railroad trains. Because of the experience of Mr. Kimblom in loading these batter shots it is possible for him to so arrange his dynamite that the rock is broken up into small masses of from 200 to 500 pounds in weight. However, in a recent shot one rock was thrown out about forty feet from the base of the ledge which weighed about 300 tons. The danger incident to taking a picture such as Mr. Sullivan secured arises from the great amount of small rock which is thrown up by the shot, a veritable downpour of small boulders following each explosion. When he took the accompanying photograph it was necessary for him to show great agility in dodging the rain of rock which followed the shooting of the battery, as he was but 100 feet from the ledge when the explosion occurred.

A very peculiar phenomenon which has accompanied all the large shots at the National quarry is the fact that there is an eruption about 200 feet from the base of the ledge in the bed of the quarry, very much resembling such an upheaval of the earth as is seen in cases of earthquakes.

This has been regarded as quite a curiosity by Prof. Condra of the state university. It is due to the great downward pressure of the dynamite finding a place of escape in the soft bed of the quarry. After the stone is thrown down into the quarry by these large battery shots, it is necessary to do further shooting in order to break the large fragments into sizes fit for the crusher. This is done by a process known as block-busting. Holes are drilled into these large stones and then filled with dynamite, which is exploded. The adobe is another shot used to break the large rock for the crusher. In this process two or three sticks of dynamite are laid on a rock and a plaster of mud placed over them. These are exploded by fuses,

which are lit by hand, while the large battery shots are exploded by an electric current. It is the roar of the block hole and the adobe which passengers on the Schuyler line of the Burlington hear reverberating across the Platte evenings just before closing time. The battery shot is not so noisy, as it spends less force in stirring up the atmosphere. Although the business of blasting rock is very hazardous and the quarry men are often placed in a most precarious position, it is remarkable that no one has yet been injured by explosions at the National quarry. Superintendent Sullivan attributes this to the experience of Mr. Kimblom, who is known among quarrymen as the "powder monkey" at the quarry.

City Sues Water Company for Its Occupation Tax

Amount Due is Over Sixty Thousand Dollars, Drawing Interest at One Per Cent.

The city of Omaha has brought suit against the Omaha Water company for the occupation tax which the corporation has refused to pay. The amount is now \$61,500 and interest at 1 per cent a month beginning September 1. The occupation tax ordinance, which was passed a year ago, provided that when a company refused even to make a report upon its gross earnings for the examination of the city comptroller the tax should be fixed at \$5,000 a month, and after six months of such refusal there is added an additional penalty of 5 per cent.

The claim of the city against the company if allowed will be a lien upon the property of the company and will hold over when the plant is sold to the city unless it can be collected before that sale is made.

Collars Made of Milk. Celluloid collars made of goat's milk are used in Paris by artisans, tradesmen, waiters and coacmen. The milk collars are said to be as serviceable as the celluloid and to have less polish, which makes them a great improvement. In preparing the milk for collars the curds are drained off the whey and subjected to high pressure, resulting in a substance which looks very much like celluloid. Milk curds have been used in Europe for some years for the making of billiard balls, comb, imitation bone knife handles and other buttons—Popular Mechanics.

Value of Dog Up in Court

Mrs. Frank Carr Weeps When Judge Tells Her to Pay Fine or Banish Pup.

Mrs. Frank Carr, who lives at 2015 Cass street, must either appear at the police station Monday morning with her dog or pay a fine of \$15. When a sentence to this harsh effect fell from the lips of Judge Crawford this morning, Mrs. Carr was at first very much inclined to be "peeved," but thinking better of it, burst into a torrent of tears, torn by her conflicting passions and the respective values of \$15 and her beloved Fido. The charge against Fido was made by A. Fleischman, who asserts that aforesaid dog made an unwarranted attack upon his son Friday morning.

GRAND ISLAND MAKES NEW CONTRACT FOR WATER PLANS

Enters into Negotiations with W. K. Palmer of Kansas City for Improvement of System. GRAND ISLAND, Neb., Sept. 10.—(Special.)—At the meeting of the city council last evening a contract was entered into with the W. K. Palmer engineering firm of Kansas City for plans and specifications for waterworks improvement and a general plan for such improvement was adopted. This plan contemplates the purchase of a block at least of real estate in the northwestern part of the city for a new plant, the enlarging of the mains in the business portion and a large section of the residence portion, and an increased water pumping capacity. A bond proposition of \$20,000 for a waterworks system and of \$10,000 under the annual amount per-

Parents Hurt Saving Child

Mr. and Mrs. Lee of Brownlee Rescue Little One from Train.

CHAPTER OF FATALITIES IN STATE

Suicides at Rosalie, at Minden and Near Pawnee City—Attempt is Also Made at Seward.

VALENTINE, Neb., Sept. 10.—(Special Telegram.)—Mr. and Mrs. Lee of Brownlee, Neb., were struck by Northwestern passenger train No. 1 at Wood Lake last night at 8 o'clock. Mr. Lee and his wife and little girl were waiting for the train, and just as it was pulling in the little girl suddenly ran across the track. The father ran across after her and then the mother also started but tripped and fell on the track. Mr. Lee jumped back to get his wife and just as he lifted her the train struck them both, throwing him to one side and dragging the woman quite a ways until the train could be stopped. Both man and woman were injured and were brought to Valentine. It is not thought the woman will live.

FREMONT BOOSTERS ON TRIP

One Hundred Business Men Make Auto Trip to Neighboring Towns.

FREMONT, Neb., Sept. 10.—(Special.)—The Fremont Commercial club made their second automobile trip to neighboring towns yesterday, the route being to the northeast. There were twenty-eight cars in line, including two for the band. The first car left the city hall at 6:45 and the others followed at short intervals. The towns visited were Arlington, Fontanelle, Tebbasta, Spiker, Orum, Blair, Kennard, Bennington, Washington, Elk City, Elkhorn, Waterloo and Valley, the schedule covering ninety-seven miles. A stop of one hour was made at Blair for dinner. The roads were generally good. About 100 people made the trip. The next automobile excursion will be toward the northwest and will probably be taken within the next two weeks.

What Huth Telephone Wrought?

The elderly stranger, by invitation of the superintendent, was addressing the Sunday school. "How many can tell me," he asked, "which is the longest chapter in the Bible?" "Many hands went up." "This little boy may answer," he said, pointing his finger at an urchin in one of the seats near the front. "Which is the longest chapter in the Bible?" "Psalm double one nine!" shouted Tommy Tucker.—Chicago Tribune.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that 95 per cent. of all women treated by Dr. Pierce or his able staff, have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases. Every sick woman may consult us by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without delay, to World's Dispensary Medical Association, Dr. R. V. Pierce, President, 665 Main Street, Buffalo, N. Y.
