PROGRAM FOR BANKERS OUT

Prominent Men Are On for Important Speeches.

MEETING COVERS TWO DAYS

President W. J. Whelpton Makes the Opening Address—Leslie M. Shaw Will Talk—Several Officers to Be Elected.

The program prepared for the convention of the Nebraska Bankers' association, which meets in Omaha September 27 and 28, has scheduled the principal addresses to begin with the annual talk of the president of the association, who is W. J. Whelpton.

Leslie M. Shaw, former secretary of the treasury, is to be heard Wednesday evening, the second day, following the annual dinner at the Field club. Daniel J. Riley of Dawson, president of group one, is also on the program for responses to a toast.

Tuesday morning following the president's address, Victor McLues of Omaha will speak on "The Legal Department of the Association." That afternoon will be heard S. R. Barton, auditor of state, on "Bankers and the Banking Board." Alexander D. Noyes, financial editor of the Evening Post of New York, follows with a talk on "The Future of American Banking."

Wednesday morning Henry W. Yates of Omaha speaks as does John D. Haskell, president of the Farmers and Merchants bank of Wakefield.

Two speeches Wednesday.

Two addresses are also scheduled for the afternoon of Wednesday, one speaker being Edwin Irvine Hains, editor of the Western Banker and recently editor of the American Banker. He is to talk on "Cultivating

the Small Depositor." The other is Joseph Chapman, Jr., vice president of the Northwestern National of Minneapolis. His theme is "Banking and Agriculture."

Immediately after this session those who are members of the American Bankers' association will be called to order by the vice president for Nebraska, S. K. Warwick of Alliance.

This meeting is to nominate a member of the executive council of the American Bankers' association for Nebraska, a vice president for the state and a member of the national association's nominating committee.

The entertainment program of the convention includes spending Tuesday evening at the Orpheum theater, delegates being guests of the bankers of Omaha and South Omaha. The Field club dinner will occupy Wednesday evening.

Center Street Up to Council

County Commissioner Says Road Improvement Work Lies in City.

Regarding the request for road improvement on Dodge and Center streets, made by the Omaha Automobile club to the Board of County Commissioners, Commissioner Pickard says, the Center street improvement will rest with the city council as the portion upon which improvement is asked lies within the city limits. Only a part of Dodge street road from Fortieth street to Happy Hollow is outside the city limits which are determined by Forty-eighth. Mr. Pickard says the board is now negotiating for the paving of Dodge from Forty-eighth to Fifteenth and that the remainder of the road is now in good condition.

COUNCILMEN FAVOR HOSPITAL

Dr. Connell's Plan for Issuance of Bonds is Endorsed.

SHELDON AND HUMMEL TALK

Commissioner Declares \$50,000 Would Pay for City Hospital and Contagious Hospital—Hummel Thinks More is Needed.

Health Commissioner Connell and two councilmen each declared a bond issue would be needed for the erection of a city hospital, and the councilmen both expressed high favor for the plan. Dr. Connell announced that a fund of \$50,000 would be ample to fulfill the needs of the city.

"Fifty thousand dollars from city bonds would solve the problem of Omaha," these were the words of Dr. Connell. The physician recounted the need of a contagious hospital, city hospital and county hospital separate from the county poor farm.

"There is such an urgent need for the city hospital that of course the city will make a provision for it when the city jail is rebuilt next year," said Dr. Connell. "But so far as the contagious hospital and the county hospital are concerned the city or county will have to vote \$50,000 bonds." It was the health commissioner's idea that the bond issue in the foregoing amount would cover all the cost for the remedial city jail, with hospital provisions, the contagious hospital and the change necessary to separate the county hospital from the poor farm.

Dr. Connell explained how, in the remodeling and rebuilding of the city jail, provision could be made for a male and female ward with an operating room between, which could be conducted by the regular corps of police surgeons, and a single

trained nurse. He declared there were a number of cases coming under the attention of the police surgeons, which properly should be given more attention than the first care they received from the police surgeons, which now is all the care many of them get.

"The city needs a contagious hospital very badly," said Augustus Sheldon, chairman of the finance committee, "and I for one would be very willing to present to the voters a chance to issue bonds to erect one."

"Strangers in the city have very inadequate protection if they fall sick and when the council condemns buildings for use as contagious hospitals it is liable to suit from property owners in the neighborhood. When diphtheria or scarlet fever breaks out we should not be confined to quarantine for suppressing the disease; we ought to have some way of segregating the cases. I will help the scheme any time."

Councilman Joseph Hummel is also in favor of a city hospital. "There is no doubt about the need of one," said Mr. Hummel, "but the practicality of the plan is a different matter. For one thing, I believe that \$50,000 is a very low estimate of the probable cost. A site convenient anywhere would cost at least \$30,000 alone, and the other expenses would mount up very rapidly. But the virtues of having one are easily seen, and if we can do it we ought to."

Shriners Get "Devil's Slide," Near Ogden

New Goat, a Steep Rock Incline, to Be Used Instead of Old "Hot Sands."

Instead of the once famous method of sending the new Shriners "across the hot sands" for an initiation stunt those unfortunate are hereafter to be sent sliding down the famous "Devil's Slide" in Weber's canyon. The first trial of the new initiation stunt is to be made at the grand bout scheduled for September 12.

The slide, as it is called, is a troublesome natural rock formation 200 feet long and set at an angle of 45 degrees from the ground. For many years it has been an object of scenic interest on the Union Pacific railroad. Its situation is fifteen miles from Ogden and forty-five miles from Salt Lake City on that road.

The slide itself is not on the Union Pacific right-of-way, but the only access to it at the bottom is. The road, however, has given the Shriners permission to erect a building there for use in their initiation stunts and to keep things during the year.

It is not known whether armor plate is contemplated by the Shriners in that sliding process or not, but the suspicions of most of the would-be initiates is that the only cause for that newly erected building is to use it as a first aid to the injured hospital.

of a witness, "if you have ever been indicted for any offense against the law?" "I never have, sir."

"Have you ever been arrested on a charge of any kind?" "Never."

"Well, have you ever been suspected of a crime?" "I'd rather not answer that question."

"Ha! You would rather not I thought so. I insist upon your answering it. Have you ever been suspected of a crime?" "Yes, sir, often. Every time I come home from a trip abroad the customs inspectors at New York City suspect me of being a smuggler."—Chicago Tribune.
